Punjab Government Notifications and Orders.

DEPARTMENT OF REVENUE AND AGRICULTURE.

IRRIGATION.

The 24th January 1893.

No. 13.—Notification.—In exercise of the powers conferred by clauses (1) and (2) of Section 27 of the Punjab Land Revenue Act, 1887, the Hon'ble the Lieutenant-Governor is pleased to confer, and hereby confers, upon Mr. J. J. Mullaly, Executive Engineer, Upper Sutlej Division, Inundation Canals, all the powers of a Collector under Chapter V of the said Act for the purpose of assessing the fluctuating land revenue upon lands irrigated from the Lower Sohág and Pára Canal; such powers to be exercised within the limits of the Montgomery District and subject to the control of the Collector of the District.

GENERAL.

The 24th January 1893.

No. 84.—Notification.—The following Report of Progress, from the date of its establishment to the 26th November 1892, of the Imperial Institute of the United Kingdom, the Colonies and India, with its accompanying plan, is published for general information.

R. G. THOMSON,

Revenue Secretary to Government, Punjab.

IMPERIAL INSTITUTE OF THE UNITED KINGDOM, THE COLONIES AND INDIA, AND THE ISLES OF THE BRITISH SEAS.

Report of the late Organising Committee, presented to the Permanent Governing Body at its first Meeting (23rd July 1891), in conformity with the terms of Clause 29 of the Constitution, as approved by Royal Warrant on the 21st April 1891.

THE Imperial Institute of the United Kingdom, the Colonies and India was designed as the permanent national memorial of the Jubilee of the reign of Her Majesty Queen Victoria.

The first step towards the establishment of the Institute was taken on the 13th September 1886, when the Prince of Wales addressed a letter to the then Lord Mayor of London, in which His Royal Highness suggested that the remarkable interest excited by the recent Colonial and Indian Exhibition provided the basis of a scheme for the creation of a permanent representation of the resources and progress of the Colonies and India.

An Organising Committee was shortly afterwards appointed by the Prince of Wales for the purpose of framing a scheme for an Imperial Institute, and a Report was prepared and published by that Body, on the 20th December 1886, setting forth the outline of a proposal for combining, in a harmonious form, with a view to the attainment of objects of practical utility, a representation of the Colonies and India on the one hand, and of the United Kingdom on the other.

A small working staff had, previously to the issue of this Report, been formed, and Sir Frederick Abel and Sir Somers Vine were appointed by the Prince of Wales as Organising Secretary and Assistant Secretary respectively.

On the 12th January 1887 His Royal Highness presided, at St. James's Palace, over an assembly which included representatives of county-municipal and other local authorities of the United Kingdom; the presidents, secretaries and other officers of the most prominent scientific, commercial, artistic and technical institutions and associations of the country, and the leading home-representatives of the Colonies and India.

At this meeting resolutions approving of the proposals set forth in the Report of the Organising Committee were unanimously adopted.

A very numerously-attended public meeting was held at the Mansion House on the same day, when resolutions were passed similar to those adopted at the meeting at St. James's Palace.

PROVISION OF FINANCES.

Active measures were at once taken for the collection of subscriptions throughout the Empire for the establishment and maintenance of the Imperial Institute, and, before the end of the year 1887, contributions amounting to nearly £350,000 had been promised.

The following details concerning some of the amounts received from the Colonies will be of interest :—

The Government of the Dominion of Canada contributed £20,000. The Government of Victoria gave £5,922, whilst the inhabitants of that Colony subscribed in addition £5,397. The Straits Settlements Government contributed £5,000, and the private donations from that Colony amounted to £3,580, exclusive of £1,000 from His Highness the Sultan of Perak, and £500 from His Highness the Sultan of Selangor. The following amounts were contributed by other Colonial Governments :—Queensland, £2,029; West Australia, £2,000; Bermuda, £1,000; Trinidad, £1,000; Jamaica, £1,000; Tasmania, £150. Private subscriptions have been received from New Zealand amounting to £2,853. The subscriptions received from Native Princes, public bodies and private individuals in India amounted, up to the 30th June 1891, to £100,301 10s. 2d.*

SITE FOR BUILDINGS.

The subject of a suitable site for the buildings of the Institute was one of the first to receive the careful consideration of the late Organising Committee. They were fully alive to the importance of establishing the Institute in as central a position in the Metropolis as practicable, but the results of inquiries showed that there was no possibility of acquiring an adequate area of ground, either in the East Central or the West Central District, for any sum of money falling within the limits of funds likely to be received by a very general and liberal public subscription. Several sites were proffered, but in no case was the price asked much less than a quarter of a million sterling, and in no instance did the site provide an area at all approaching that required for the purposes of the Institute.

The Organising Committee being, therefore, forced to abandon the hope of obtaining a central site, directed their attention to the property at South Kensington, which belongs to the Commissioners of the Exhibition of 1851, and a representation was submitted by the Committee to the Prince of Wales to the effect that the Imperial Institute might reasonably advance a claim for the grant of a site of sufficient magnitude for its purposes from the land which was purchased with the surplus proceeds of the first International Exhibition, and which property had been reserved by the Royal Commissioners of that Exhibition to be devoted to the interests of Institutions designed for the promotion of Science and Art. An offer was thereupon made by the Royal Commissioners of an extensive site, at a nominal rent, for the purposes of the Imperial Institute, provided that the Organising Committee would agree to the fulfilment of certain preliminary conditions; and this proposal was gladly accepted.

In the original letter (25th June 1887) received from the Royal Commissioners for the Exhibition of 1851, proposing the grant of a site of about five acres in extent upon the South Kensington Estate, for the purposes of the Institute, it was stated that, in addition to the land then offered, the Commissioners were prepared to reserve unbuilt upon, for a reasonable period, a piece of land on the north side of the site in view of the possibility of an extension of the Institute-buildings becoming necessary.

Early in 1889 new proposals for dealing with the vacant land between the northern boundary of the site granted to the Institute and the Albert Hall were adopted by the Royal Commission, and this led to the transfer to the Institute of those portions of the arcades existing on the east and west sides of the site, which extend up to the line of its north boundary, as a set-off against the additional land to the north of that boundary which it had been proposed to reserve as just stated.

The conditions under which the grant of a site was made by the Royal Commissioners for the Exhibition of 1851 included :—

(1) The securing of a Charter of Incorporation ;

(2) The erection and completion within a period of five years of a building, upon plans to be approved of by the Commissioners and at a cost of not less than £100,000.

* NOTE. November 1892. Since the above statement was prepared, the Government of New South Wales has contributed £5,915, the Government of Tasmania has paid instalments amounting to £450 of a total subscription of £1,000. The Government of South Australia has contributed £1,845, in addition to the £368 contributed by the public of the Colony. In addition to these sums, a donation of £3,000 has been received for appropriation to purposes of a special character connected with the Indian Section of the Institute.

(3) Its maintenance in thorough repair, and its devotion to the purposes specified in the Charter of Incorporation ;

(4) The construction, at the cost of the Institute, of a suitable road connecting Exhibition Road and Queen's Gate, upon the north site of which the main frontage of the Institute building should be situated, and the execution of certain other works, including the erection of façades, to make good the galleries, belonging to the Commissioners, which would be interrupted by the construction of the road ; and

(5) The establishment of an endowment fund sufficient in amount to furnish an annual income of not less than £ 4,000.

These conditions were in part fulfilled with all possible expedition, and the remainder are in course of fulfilment. The sum of £ 140,000 was invested, in approved securities, to constitute the Endowment Fund stipulated for, and the first Trustees appointed for the administration of this Fund (which now actually amounts to £ 141,520 Stock) were the late Earl of Carnarvon, Lord Herschell, and the late Sir John Rose.

The road styled the "Imperial Institute Road" has been in part constructed, and will be completed as soon as the building is sufficiently advanced; the façades to the galleries in line with the frontage of the Institute are in course of erection, it having been arranged with the Royal Commissioners that the style of architecture to be adopted should correspond with that of the main Institute building.

THE BUILDINGS.

The site having been formally leased by the 1851 Commissioners to the Governing Body of the Imperial Institute, an outline of the general requirements, as regards buildings, was prepared and published, and several architects of high repute were ultimately selected to submit their plans to judges appointed by the Committee from their number : (The late Earl of Carnarvon, Lord Herschell, Sir Frederick Leighton, Sir Frederick Abel, and Mr. Waterhouse, P.R.I.B.A).

The designs sent in were all of a very high order in regard to architectural beauty and structural details. In several instances, however, the erection of the proposed buildings would have involved an outlay greatly exceeding the resources likely to be available ; and the judges eventually decided that the acceptance of the designs prepared by Mr Thomas E. Collcutt would secure the erection of a monumental structure worthy to commemorate the occasion of the Institute's foundation and the provision of adequate accommodation for the various functions to be fulfilled by the building at a cost falling within the warranted limits of expenditure.

The high honour paid to Mr. Collcutt at the Paris Exhibition in 1889, as an exhibitor of his plans of the Imperial Institute, afforded very satisfactory confirmation of the good judgment exercised by the Committee of Selection.

The erection of the main building was submitted to select competition, and, from among six firms who tendered, Messrs Mowlem & Co., the well-known contractors, who had already been employed as constructors of the New Road, were entrusted with the work.

The architecture of the Institute building is of the Renaissance style, the details being of a decidedly Italian character. The main structure consists principally of Portland stone, with a small amount of red brick in the front elevation. The Central Tower will be about 300 feet high and the frontage of the entire building, according to the approved designs, will measure more than 900 feet. This includes a large conference hall at the western extremity of the main building and the principal library at the eastern extremity. The available funds do not, however, at present permit of the erection of either of these, or of the Great Hall to the north of the main edifice, measuring 100 feet by 60 feet.

The frontage of the building is separated by 112-feet spaces on either side, from the façades of the east and west galleries to which reference has been made, but it is contemplated, when funds are available, to connect these architecturally with the Institute-frontage by means of colonnades, so that the buildings may present a continuous line along the entire north-side of the road, the south side of which will in time be occupied by public buildings, the Government having acquired the plot of land facing the frontage of the Institute.

The foundation stone of the Institute was laid by Her Majesty the Queen on the 4th July 1887 in the presence of more than 10,000 specially-invited spectators.

By the terms of the contract the main building was to have been completed and handed over to the Governing Body on the 8th February last, but it is with regret that the Organizing Committee have to state that, in addition to long delays caused by the past two severe winters, the occurrence of several serious trade difficulties, some of which have involved strikes on the part of the artisans of three or four trades, have so greatly retarded the work as to preclude the possibility of completing the structure before the end of the present year. Indeed it is difficult, at the present time, to say whether the building can even be completed this year in view of the fact that the differences between the contractors and the building trades are as yet far from being satisfactorily adjusted.

In the course of the summer of 1890 negotiations were entered upon between Her Majesty's Government, the Royal Commissioners for the Exhibition of 1851, and the Organising Committee with reference to a proposal that the galleries situated on the east and west sides of the Imperial Institute site should be utilised for public purposes, the suggestion being that the Imperial Institute should build a two-floor gallery to extend along the north boundary of the site, and to connect by its upper floor the east and west picture galleries which are at present leased by the Government from the Royal Commissioners.

As the result of these negotiations, the Lords Commissioners of the Treasury have authorised Her Majesty's Commissioners of Works to accept, as the basis of an agreement between the Government and the Governing Body of the Imperial Institute, the terms proposed by the latter. The architect of the Institute was accordingly instructed to prepare designs for such a gallery, and these have been approved of by the Government and by the Royal Commissioners of 1851.

A gallery of two floors parallel to, and within 63 feet of the rear of, the main building is in course of erection. This will be connected with the east and west arcades so as to form with them, and with the ground floor of the proposed north gallery, a continuous series of exhibition galleries for the reception of the collections representative of the natural resources and industries of the Empire.

CHAPTER AND CONSTITUTION.

On the 12th May 1888 Her Majesty granted a Charter of Incorporation to the "Imperial Institute of the United Kingdom, the Colonies and India, and the Isles of the British Seas." It is therein provided that, before the expiration of three years from the date of the Charter, the Organising Committee must prepare a form of constitution for the Institute, providing, amongst other things, for such a Governing Body as, in their opinion, will best represent Her Majesty's subjects in the United Kingdom, the Colonies and India, and the commercial and industrial interests of the Empire.

A special Committee, consisting of Lord Herschell, Lord Thring, Sir Henry James, Sir Frederick Abel and Mr. Hollams was accordingly entrusted with the drafting of a form of constitution, which was adopted by the late Organising Committee at a meeting held at Marlborough House under the presidency of His Royal Highness the Prince of Wales, on the 5th March, and was approved by Royal Warrant on the 21st April 1891.

Among the donors of contributions to the funds of the Imperial Institute there are about 550 who are, by the amounts of their individual subscriptions, constituted life members of the Institute in accordance with the terms of the Charter. Provision is also made therein for the framing of regulations for the admission of other persons to membership or fellowship; and such regulations (including a scheme of privileges to be attached to membership) were prepared by the Special Committee above-named and approved by the late Organising Committee.

In accordance with the provisions embodied in the constitution, the several Colonial authorities and the Indian Government have been requested to nominate their representatives to serve upon the Governing Body, and nominations have accordingly been received from the Government of India through the India Office, and from the Colonies. The public officials comprised within the several electoral districts into which the United Kingdom has been divided for the purposes of the Imperial Institute were invited by the Prince of Wales to meet and to appoint their representatives; and the various institutions and societies entitled to be represented upon the Governing Body were also called upon to forward to the Secretary the names of their representatives not later than the 31st May.*

*These instructions have been complied with. The first meeting of the Governing Body was held at Marlborough House on July 23rd, 1891, under the presidency of His Royal Highness the Prince of Wales, when Lord Herschell was elected Chairman of the Governing Body, and an Executive Council and certain Committees were appointed.

DISSEMINATION OF THE OBJECTS OF THE INSTITUTE.

Following the publication by the late Organising Committee of the report of proceedings at the meetings at St. James' Palace and at the Mansion House in January 1887, the objects of the Institute were publicly disseminated by the extensive distribution throughout the Empire of brief summaries of the main objects of the Institute, and also of an address delivered at the Royal Institution on April 22nd, 1887, by Sir Frederick Abel before His Royal Highness the Prince of Wales and a numerous audience on "The Work of the Imperial Institute."

Lord Herschell, Chairman of the late Organising Committee, when visiting India in the autumn of 1888, gave explanations of the objects of the Imperial Institute to members of the Government of India and of Provincial Governments and associations, and conferred with them on the subjects of the supply to the Institute of collections illustrating the natural and industrial resources of different parts of India and of arrangements for the regular transmission of reliable intelligence of commercial interest Similar action was taken by Mr. Nevile Lubbock, a member of the late Organising Committee, in January 1890 on the occasion of a visit to British Guiana.

Towards the close of 1888 the Assistant Secretary. Sir Somers Vine, was dispatched on a mission to the principal Colonies, upon the duties of which he was engaged during the greater part of 1889 and 1890, having visited in those years the Straits Settlements, the several Australasian Colonies, the various Provinces of Canada, and most of the West Indian and African Colonies.

The authorities and commercial bodies in the Colonies were thereby made acquainted with the objects of the Imperial Institute; that their interest therein was thus aroused was demonstrated by the promises of practical co-operation which were received on all sides.

The scheme for that department of the Institute which has been established for the collection and dissemination of commercial intelligence had been formulated and brought under the notice of the various Colonial Governments prior to the visit of the Assistant Secretary, and it formed part of the object of his mission to furnish those authorities with full explanations and with printed instructions respecting the course to be pursued:—

(*a*). In the preparation of collections of specimens and of samples in bulk of the vegetable, mineral and animal products, and of illustrations of the manufacturing industries of the individual Colonies.

(*b*). In the organisation of measures for the maintenance of such collections up to the day, for the distribution of representative trade and commerce collections, and for the supply by the Institute of samples for trade and experimental purposes to different local Institutions.

Active measures have already been taken in several Colonies towards the preparation of collections in accordance with the suggestions offered. Committees have been appointed in Victoria, South Australia, Tasmania, Jamaica, Trinidad, British Guiana, Ceylon, Zanzibar, and in British Columbia, Ontario and other Provinces of Canada, for carrying out the work, and advices have already been received that instalments of collections will be transmitted to the Imperial Institute in the course of this autumn.

The Government of India has also taken active measures for securing the preparation and future maintenance, up to date, of very complete collections of the natural products of India, and the collection and regular transmission of information regarding the extent and cost of available supplies, and on other matters of commercial and industrial importance. The Trustees of the National Museum of Calcutta have been charged by the Government of India with the work of preparing the collections, in communication with the Revenue and Agricultural Department; a grant of 10,000 rupees was made towards defraying the first cost of their preparation, and the subject of providing an annual sum for their maintenance is, at present, under consideration. The first instalment of the collections is now upon its way to the Institute.

Steps are also being taken to obtain from the provinces of India representations of manufactured products, including specimens of art-workmanship produced commercially.

The original scheme of work of the Imperial Institute includes the organisation, from time to time, of special exhibitions illustrative of the state of development of particular industries in different parts of the Empire, and it is in contemplation to hold exhibitions of two important industries in connection with the opening of the Institute in the summer of 1892, should the exhibition galleries be in a sufficiently advanced condition, in the course of the autumn, to warrant such an undertaking being entertained.

SCHOOL OF MODERN ORIENTAL STUDIES.

In the month of September 1887 it was suggested to the Organising Committee, by Major (now Lt.-Col.) Watson, C.M.G., R.E., that a School of Modern Oriental Studies should be established as a branch of the Institute, in imitation of the very efficient establishments of this kind which are carried on with Government resources in France, Germany and Austria.

The promulgation of this proposal led to negotiations with the authorities of University College and King's College, London, which resulted in their co-operation with the Institute in the establishment of the School.

A special Committee having been appointed to organise a system of work, it was arranged that classes for instruction in the Oriental languages required by students qualifying for examinations for the Indian Civil Service should be held at University College, while Modern Oriental languages, other than the Indian languages, should be taught at King's College, and that the Imperial Institute should undertake the general administrative and financial work.

The School was officially opened in January 1890, when an inaugural address was delivered by Professor Max Müller, at the Royal Institution, in the presence of His Royal Highness the Prince of Wales.

Steps have been taken, by means of comprehensive advertisements, by the distribution of Professor Max Müller's lecture, and the delivery of public lectures by several Professors of the School, at the commencement of the different sessions, to direct general attention to the advantages afforded by the School of Modern Oriental Studies; repeated efforts have also been made by the Committee of Management to obtain for it such public and official recognition as is liberally afforded to similar establishments on the Continent. The suggestion that Oriental languages should be made optional subjects at all preliminary examinations for Oriental appointments under Government has been submitted to the several Government Departments which should be directly interested in the operations and success of the School, but it has not been favourably received by any one of them; hence no special inducements exist, additional to those presented by the excellent nature of the tuition, for students to join the classes, and the numbers attending have consequently hitherto been very small. Within the last few weeks, however, a prospect has presented itself of an improvement in the position of the School, in the shape of a proposal which has been made to the late Organising Committee by the daughters of the late Colonel W. J. Ouseley (Bengal Army), to establish and endow, in his memory, three scholarships, in Arabic and Persian, in connection with the School, each one of the value of not less than £50 per annum.

The late Organising Committee gratefully closed with the offer of these ladies to invest a sufficient sum of money for this purpose in the names of the Trustees of the Institute, and the necessary arrangements are in the course of execution. It is hoped that the publication of the establishment of these Scholarships may lead to other similar endowments in connection with the School.

IMPERIAL INSTITUTE OF THE UNITED KINGDOM, THE COLONIES AND INDIA, AND THE ISLES OF THE BRITISH SEAS.

RFPORT

Presented to the First General Meeting of the Imperial Institute, in the Executive Council Chamber of the Institute Buildings, on Saturday, November 26th, 1892.

H. R. H. THE PRINCE OF WALES, K.G., *President.*

IN THE CHAIR.

THE BUILDINGS.

THE Main Building of the Institute, with the exception of the Entrance and Vestibule, the Principal Tower and East Tower, the Principal Library, large Conference Room and Great Hall, was so far completed in the beginning of June of this year as to allow of the

apartments which had been allotted to the use of Fellows of the Institute being furnished and used. Accordingly, the Main Building was informally opened to Fellows on 21st June 1892, when a reception was held by the Chairman of the Governing Body, Lord Herschell, and was made the occasion for opening an Exhibition of Indian Art Metal Work, which had been arranged in the rooms on the first floor of the building and to which further reference will be made.

Since that date the East Tower has been completed, as well as the whole of the masonry of the Central Tower, the cupola of which will be commenced at once, so that this Tower may be expected to be quite finished early in the year. A peal of ten bells, which has been presented to His Royal Highness the President by Mrs. E. M. Millar, of Kew, Melbourne, is in course of manufacture. At the request of the donor, His Royal Highness has, with the concurrence of Her Royal Highness the Princess of Wales, consented to the bells being named the "Alexandra" Peal, and to their being used in accordance with the donor's wishes. The peal is expected to be in position in the Tower by March 1893.

It may be mentioned, with reference to rumours which have been circulated in the public press to the effect that there has been and continues to be a serious subsidence of the Central Tower, that the total settlement amounts to one inch in a height of 300 feet, which is not only quite unimportant, but also very small indeed, considering the enormous weight resting upon the foundations.

The intermediate gallery which extends from, and opens into, the East and West Galleries is completed, and a commencement has already been made by certain of the Colonies to which space therein has been allotted for the reception of their collections to furnish it with the fittings required for this purpose. It will be remembered that the North Gallery, the upper floor of which is to connect the large galleries leased to the Government by the Commissioners of the Exhibition of 1851 (situated east and west of the Institute property), and which is to be tenanted by the Government upon terms ensuring a fair interest upon the money expended by the Institute in its erection, is on the point of completion, and the Commissioners of Her Majesty's Works and Buildings will enter into possession of the upper gallery in January next. The lower gallery will be devoted to the purposes of the United Kingdom-Section of the Institute.

In view of the fact that Her Majesty the Queen has signified her willingness to open the Imperial Institute early in May 1893, the Executive Council recently came to the conclusion that it was necessary to complete, before that time, the vestibule, which will communicate by the grand staircase with the future Great Hall the galleries and the upper portion of the main building. The funds available for building purposes having been practically exhausted, the Chairman of the Governing Body has set on foot a special subscription with a view to meet the necessary expenditure, amounting to a little over £ 10,000. Up to the present time the contributions received and promised to this special fund amount to £ 5,775 10 s.

After a very careful and anxious consideration of the accommodation presented by the building in its present state, and of the extent of auditorium indispensable to the conduct of a state ceremonial in which a large concourse of persons must take part, the Executive Council recently decided that the additional financial responsibility must be incurred which will be involved in the erection of a temporary hall, upon the site of the future Great Hall, of a capacity to accommodate 2,650 persons, and the cost of which is estimated at £ 3,059. As some considerable time must very probably elapse before the funds (about £ 48,000) required for the erection of the Great Hall in accordance with the architect's designs will be forthcoming, the temporary hall, which will be of sufficiently substantial construction to remain serviceable for a number of years, will, after the opening ceremony, be available for many important purposes requiring space much greater than that presented by any of the apartments in the Institute building.

The Imperial Institute Road was completed some months since, and the Parish Authorities were requested to take possession of the same. Considerable delay has occurred, however, through the discussion of questions relating to the lighting of the road, the responsibility for which rests, of course, with the two parishes who become joint owners of the road. The question of the rating of the buildings, which will constitute a very heavy item of annual outlay, is also just now under consideration.

PURPOSES OF THE INSTITUTE.

A.—FELLOWS AND THEIR PRIVILEGES.

The necessity for assuring to the Imperial Institute at as early a date as possible an income additional to that (amounting to about £ 4,000 per annum) derived from the Endowment Fund, established 12th May 1888, in compliance with the agreement with Her Majesty's Commissioners of 1851, led the Executive Council very soon after its appointment to entrust a small special Committee with the duty of preparing regulations for the admission of Fellows, and of considering the privileges which should attach to Fellowship of the Institute. The recommendations of this Committee were, with slight modifications, adopted by the Council in December 1891.

In view of the thoroughly national character of the Institute, the subscription and life composition were fixed at very moderate amounts, and subsequently it was determined that the wives of Fellows should be eligible for admission on the same terms as non-residents in the United Kingdom, *viz.*, at one-half the ordinary subscription. It was, moreover, decided that for the first year at any rate, no entrance fee should be charged.

The first election of Fellows took place on the 16th June last; since then there have been six elections, and the total number of Fellows to this date exceeds 3,500.

The administrative staff has had to encounter many formidable difficulties, consequent upon the commencement of the actual work of the establishment, while the building and all appliances connected with its utilization were in an unfinished condition, and consequent also upon the necessity for the exercise of rigid economy; nevertheless, the Fellows' Department of the Institute has been now, for some time past, in a fairly complete and satisfactory condition.

The Fellows' Reading and Writing Rooms and Smoking Room are comfortably although plainly equipped. The Fellows' Coffee Room, though at present only temporarily furnished, has given satisfaction in regard to details of arrangements and catering, which will be further elaborated as this department becomes more sought after.

The News Room is not only a special feature in connection with the Fellows' section of the Institute, but is also unique in character and comprehensiveness. Metropolitan, Provincial Colonial and Indian Newspapers and Government Gazettes are regularly received, and arranged so as to be easy of consultation, and back files are kept of the most representative of these publications. In addition to these, a great variety of Colonial and Indian commercial publications are continuously received and readily accessible, and the reading room contains the most prominent technical and industrial periodicals, the publications of various technical societies, and a selection of weekly periodicals.

The Library, although almost in its infancy, has already assumed such proportions as to render it valuable for purposes of reference in connection with Colonial and Indian matters. Pending the erection of the large Library included in the Architect's design of the building, but which will involve an expenditure of about £10,000, a commodious room in the Fellows' suite of apartments has been fitted up as the temporary Library, and it already contains about 6,500 volumes, most of which have been presented to the Institute by H. M Government, by the Colonial and Indian Authorities, and by Public Institutions and Associations, leading Publishers and private donors. All official publications by the various Colonies relating to commerce, agriculture, political economy, the natural history and the economical and industrial resources of the Colonies have been regularly received since 1888, and Foreign Consular Reports and the publications of the principal Government Bureaus of the United States are also included in the reference section of the Library. Altogether, by pursuing a well organised system of application to the sources of publications germain to the objects of the Institute, a very promising commencement has been made in the establishment of this very important section of the Institute.

The Main Building and its galleries are so arranged upon the land leased to the Institute by the Commissioners of the Exhibition of 1851 as to enclose two large and two smaller open quadrangles, the former being in communication with each other. The smaller spaces will have to be utilised by the Administrative Department for purposes connected with the working of the Institute, and it is anticipated that, in course of time, the larger quadrangles may have to be covered by supplemental structures for the accommodation of additions to the collections, Colonial and British, to be housed by the Institute. For the present, however, the Executive Council have decided to add to the

attractiveness of the Institute, as a place of resort for Fellows and the Public, by converting these spaces into ornamental grounds for purposes of promenade and music. The necessary measures for their utilisation in this manner have been carried through with the London County Council, and the use of these grounds will constitute an additional privilege accorded to Fellows.

B.—INDIAN SECTION.

The Mahárája of Jeypore having presented to the Imperial Institute an extensive collection, thoroughly representative of the art metal work industry of that province, it was considered that, in view of the informal opening of the Fellows' Section of the Institute in June last, an exhibition of Indian art metal work might usefully be held during the summer months of the present year. To this end a committee was appointed to deal with the subject, and Surgeon-Lieutenant-Colonel T. H. Hendley was requested to act as Honorary Secretary, and to bring his intimate knowledge of metal work as practised in India to bear upon the organisation of such an Exhibition.

Her Majesty the Queen, His Royal Highness the President, Their Royal Highnesses the Duke of Connaught and the Duke of Edinburgh, several former Viceroys of India and Governors of Presidencies and many eminent Anglo-Indians lent collections, which, together with the Jeypore collection, contributions from the Mahárájas of Kashmir and Bhownagar, the Nizám's Dominions the Government of Mysore, various Schools of Arts in India, and exhibits by importers of Indian metal work, formed a very interesting display, unique in its character.

The Finance Committee, believing that this Exhibition might be looked upon as affording means by which the Institute might become better known to the public, devoted the sum of £1,000 towards its expenses. At the close of the Exhibition on the 1st October it was found that, after the outlays involved in the insurance and return of loan exhibits had been met, the total excess of expenditure over receipts would amount to £1,084 or £84 in excess of the grant.

The admissions by payment amounted to 4,750. Free admissions were granted on certain days to some hundreds of members of Technical Institutions, of the Gold and Silver Trades, &c.

A hand-book descriptive of the most prominent and interesting portions of the collection was prepared for sale in the Exhibition by Surgeon-Lieutenant-Colonel Hendley, whose invaluable services and indefatigable exertions to secure the success of the Exhibition were, on his return to India, acknowledged by a special vote of thanks on the part of the Executive Council, in which his services were recognised in the highest terms.

The installation and arrangement of the collections of the natural products of India have been making steady and satisfactory progress during the past twelve months.

About 3,000 separate samples and specimens and models have been received, and fortnightly reports are forwarded by the Reporter on Economic Products to the Agricultural and Revenue Department of India respecting the progress made in the further collection and despatch of samples.

The specimens have been, and are being, as received, classified, arranged, and furnished with descriptive labels and index numbers identifying them with bulk samples, and with the detailed descriptions contained in the official "Dictionary of Economic Products" prepared for the Indian Government, and in smaller hand-books supplied for the purposes of the Imperial Institute.

The specimens of natural products, in their glazed air-tight boxes and other suitable receptacles, are displayed in cases in the Indian Gallery, where descriptive models, samples of industrial products, &c., are also exhibited.

Very comprehensive collections of Indian fibres of the several varieties of cotton, jute and coir, of food stuffs, dye stuffs and tanning materials, drugs and medicines, oil-bearing seeds and the oils produced from them, specimens illustrating the manufacture in India of iron and steel, varieties of building stones, coals, timbers, minerals of various kinds and other products are in course of arrangement, some of these collections being already in a fairly complete condition.

The Indian Gallery is in fact now approaching completion, so far as concerns the cases and fittings, for which provision was made in the estimates approved of by the standing Committee for India, but there is some fear that, owing to the large number of specimens sent of certain products, it will hardly be possible to provide cases and fittings for all the collections out of the annual grants to be received from the Government of India in the first five years.

The collection of metal work presented to the Institute by the Mahárája of Jeypore, and recently shown in the special exhibition already referred to, will be displayed in a pavilion adjoining the Gallery, which has been erected for the reception of the carved wood and stone work furnished by various provinces of India to the Exhibition of 1886, a special donation having reached the hands of the Council for devotion to purposes connected with the Indian Section of the Imperial Institute Specimens of metal work from other provinces of India and illustrations of textile products will also find place in this b uilding.

Offers have been received from several private firms in England and India to supply for exhibition specimens of India produce, of which no samples have as yet been received from the Government of India,an d some of these offers have been accepted.

The arrangement of the commercial collections is progressing fast; but the fact that nearly every mail brings advice of additional samples makes it difficult to complete any of them, as the fresh specimens have to be introduced in their proper sequence among those already arranged.

Advance copies of several hand-books relating to the different sections of the commercial collections have reached the Institute from the Agricultural and Revenue Department, and advices from India inform us that the remaining hand-books are being rapidly completed, as well as a General Guide to the Indian Commercial Collections at the Institute.

C.—COLONIAL SECTION.

The general progress made up to the present time in preparations for the representation of the various Colonies in the Imperial Institute by collections illustrating their natural and industrial resources is less satisfactory than in the case of India, although there are a few instances in which the timely and judicious measures adopted by the Government Authorities of Colonies have resulted in the completion of representative collections and the provision of resources for their installation and charge at the Institute, so that there is reason to anticipate the equipment of some portions of this section within a brief period.

The Assistant Secretary, on the occasion of his visits to the principal Colonies in 1889-90, gave explanations and supplied documentary information to the Government and public authorities, respecting the general system proposed to be pursued for the representation of the commercial and industrial resources of the Colonies in the buildings of the Institute.

These communications were followed up by the transmission to each Colony in January last of full details with regard to the preliminary allotment of space of the Colony, the nature of the collections desired, the modes of classification and installation in the galleries of the Institute, with drawing to scale and photographs of the fittings and receptacles to be provided. Information has since been supplied, in many instances, as to the probable funds required for the arrangement and maintenance of the collections.

Some of the Colonies had, even before the receipt of these details, taken steps for their representation in the Institute through the medium of collections representing the natural resources of the country concerned, and those steps have been followed up in some instances by the provision of the funds necessary for the proper installation of the collections which either have already been, or are about to be, transmitted to the Institute.

In some other instances funds have been provided, but steps have not yet been taken to bring together the collections for shipment to Europe, and again, in others, the collections have been prepared, but the funds necessary for dealing with them have not yet been provided.

In illustration of the progress made, it may be stated that Ceylon holds the post of honour as having its section first completed, the Ceylon Court, as arranged by the Commissioner of that Colony, Dr. Trimen, being a pattern well worthy of imitation by other Colonies.

The collections from the Straits Settlements were received some time since, but the funds needed for their installation are not yet provided. Tasmania has transmitted several instalments of very carefully prepared collections, and is now taking measures for their arrangement in the Section of that Colony.

From Victoria advices have been received that the collections are completed and will arrive early next year, and that a Curator is about to be appointed to undertake their arrangement and charge.

The Courts of the Canadian provinces of Ontario and British Columbia are in course of being arranged by officials appointed by the respective Governments, and Quebec has provided funds for the work about to be put in hand.

The same is the case with the Cape Colony (which has also provided an annual grant); and Jamaica has commenced the equipment of its court, and is completing its collections for transmission.

The following is a summary of the present prospects, as detailed in this Report of the several Colonies being represented by collections of their products in the Institute by May 1893 :—

I.—Victoria, Tasmania, the provinces of Ontario and British Columbia in the Dominion of Canada, Ceylon, Jamaica, Natal and the Gold Coast Colony, will certainly have their sections arranged.

II.—Queensland and New Guinea, New South Wales, the Straits Settlements, the Cape Colony and Bechuanaland, the East African Settlements and Mauritius have taken partial measures towards their representation in the sections of the Institute Galleries provisionally allotted to them, and there appears no reason why they should not be represented, at any rate, to some extent, by collections, provided energetic steps be taken without loss of time.

III.—New Zealand, the Bahamas, Barbadoes, Newfoundland, Bermuda and Cyprus have given consideration to the subject, but have as yet taken only preliminary action.

IV.—No definite action appears to have yet been taken in West Australia, South Australia, British Guiana, Trinidad and Tobago, the Windward Islands, the Leeward Islands, British Honduras, Fiji and the South Sea Settlements, and Sierra Leone; or in New Brunswick, Nova Scotia, Manitoba, the North West Territories and Prince Edward's Island.

D.—CONFERENCE ROOMS.

A prominent feature in the arrangements, in the interests of the Colonies and of India, which are provided in the Institute buildings, is the allotment of a Special Conference Room for business and social purposes to each group of Colonies and to India. The cost of fitting up and furnishing of these has to be defrayed by the several sections of the Empire to which they are allotted, and the South African Colonies have set an example of providing by proportionate contributions for the equipment of their Conference Room.

The Crown Colonies have been invited by the late Secretary of State for the Colonies to subscribe equally to the fund required for the equipment of the two rooms assigned to the East and West Crown Colonies. The representative of Canada have determined upon the proportion which each province is to contribute to the furnishing of the apartment assigned to Canada or British North America, and a special donation is expected to provide for the equipment of the Indian Conference Room.

The representatives of Australasia on the Governing Body determined, at a meeting held last March, that the cost of decorating and furnishing the Conference Room for the Australasian Colonies should be divided among the several Colonies concerned, upon the basis of the population of each Colony; but, as yet, the necessary ratification of this agreement by the several Governments has not been received.

E.—DEPARTMENT OF COMMERCIAL INTELLIGENCE.

The vast amount of work of pressing character connected with the opening of the Fellows' Section of the Institute and other important matters, which have had to be accomplished by a limited office staff, has somewhat delayed the development of this important branch of the Institute, which will in time extend its operations to every portion of the Empire, and also to Foreign Countries. Those preliminary measures for its organisation which it has been possible to put in hand apply almost exclusively to the Colonies. A number of printed forms, specimens of which have been submitted to the Colonial Governments and authorities, have been prepared with a view to facilitating the continuous transmission to the Institute of intelligence respecting the changes arising in connection with the commerce and industries of the various parts of the Empire, and in the conditions by which these are influenced. Corresponding agents have already been appointed by the Government Authorities in several of the Colonies, and the information so far received through the organisation in course of development has proved of important assistance in the compilation of the first issue, published on 10th August 1892, of the "Imperial Institute Year Book," which has been very favourably received and reviewed. This work deals statistically with the physical geography, the natural resources, and the industries and commerce of the Colonies and India, and embraces facts and numerical data relating to these and other important heads which have hitherto not been dealt with in a comprehensive manner in one publication. The proof sheets of this first edition were submitted to the several Colonial Authorities, who most courteously and promptly undertook their revision and the completion of statistical information given therein. A thoroughly authoritative character has thus been given to the Year Book. Use has been made, which in future editions will be much extended, of diagramatic representations of comparative statistics relating to commercial topics of special interest. An edition of 3,000 copies was published, and the work has been gratuitously distributed to the extent of about 1,180 copies to members of the Governing Body, Foundation Life Members, Chartered Life Members, Free Libraries, learned Societies, Indian and Colonial Governments, and to the London, Provincial, Colonial and Indian Press. Fellows have been allowed to purchase the work at a price somewhat below the cost of its production, and 380 copies have thus been sold, and copies have been supplied to publishers on sale or return.

In addition to the News Room, which will be part of the Intelligence Department and will be utilised for the posting up of latest commercial news, &c., for the information of Fellows, the Map room, which is already partly fitted up and equipped with a very considerable collection of maps of the Colonies, &c., will constitute a prominent feature of this department.

The War Office, or Military, Intelligence Department, with which the Secretary has established intimate relations, has presented a series of valuable maps of Colonial possessions, executed by that Department, whose Director, General Chapman, is sanguine that the two organisations for the collection of intelligence may co-operate in many directions with mutual benefit.

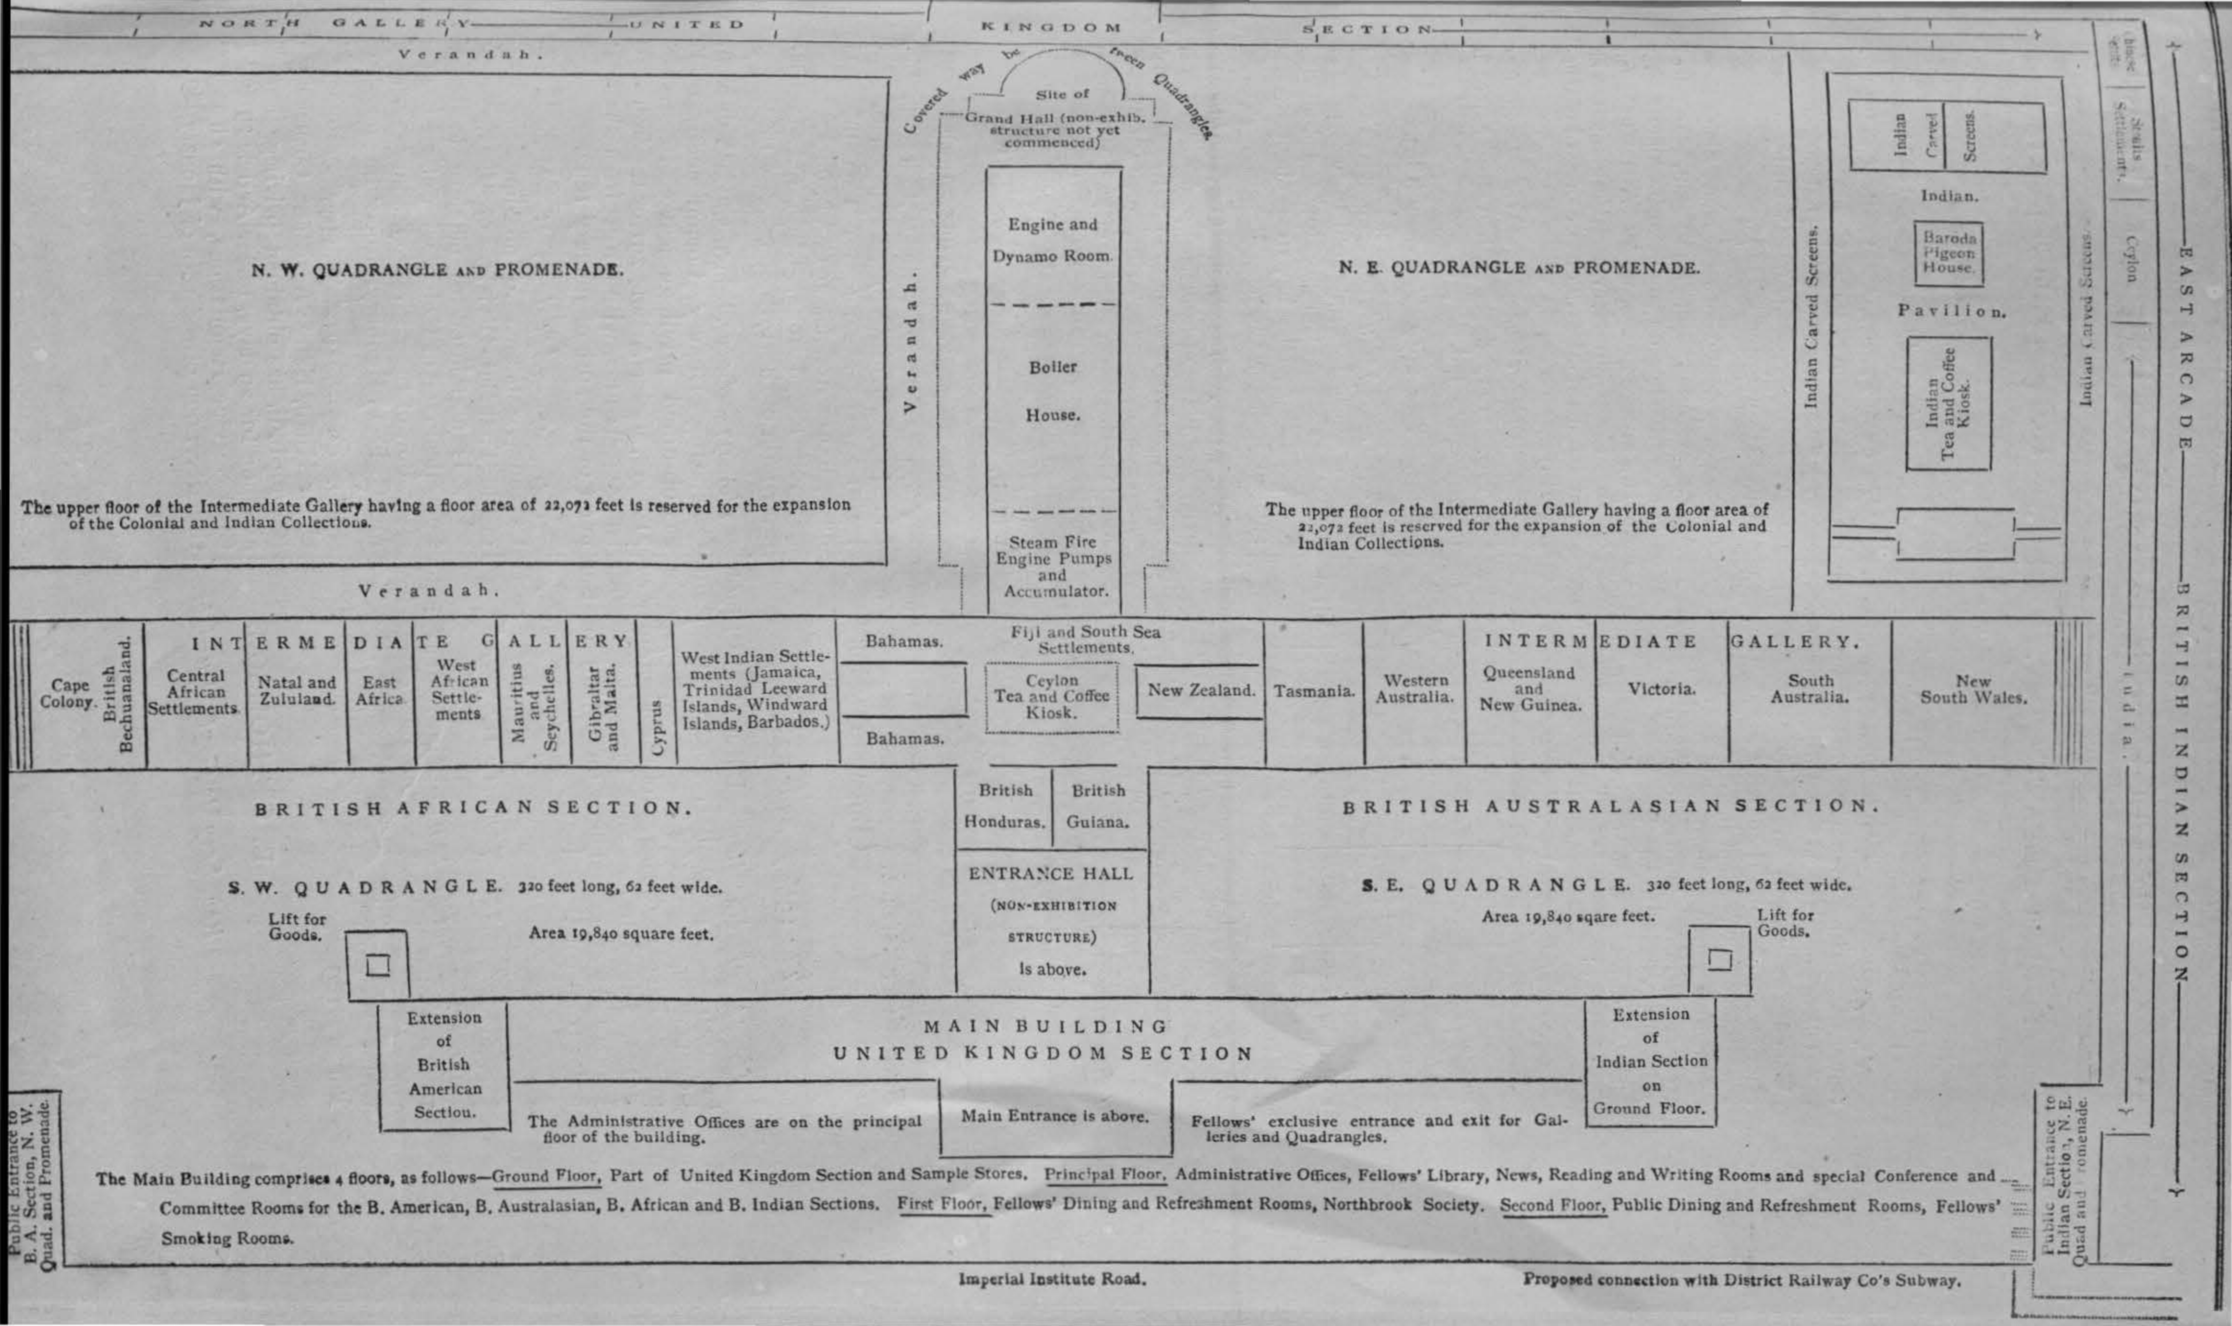

One branch of the Intelligence Department will consist of an enquiry-office, where information useful to Colonists visiting England may be obtained, and where more especially young men coming from the Colonies and from India, either for pursuit of their studies or to follow a commercial calling, may obtain such information as they require in regard to place of residence, the pursuit of their studies, and other matters important to strangers. The circumstance that the Imperial Institute will afford special facilities and conveniences to young men from India led the Earl of Northbrook and the Committee of the Northbrook Society to suggest that terms might be mutually agreed upon between them and the Council of the Institute under which the Society, and the Northbrook Club connected therewith, might become affiliated to the Institute. Negotiations in this direction have resulted in the conclusion of a satisfactory arrangement, and the Imperial Institute will from the beginning of next year be the home of the Northbrook Society.

SCHOOL OF MODERN ORIENTAL STUDIES.

The School of Modern Oriental Studies, established by the Imperial Institute in co-operation with King's College and University College, has made but little progress towards thoroughly useful development. The question has recently arisen, however, whether the Administrators of the Gilchrist Trust will not see their way to some form of endowment of the School, whereby encouragement may be afforded to young men, following commercial pursuits, to devote spare time to the acquaintance of that practical knowledge of Oriental languages, which is of the highest importance to their power of competing in Oriental Countries with natives of Germany, France, Austria and Russia, engaged in the same business, who, by the opportunities afforded them in the thoroughly efficient State Oriental schools of those countries acquire the proficiency in such languages essential to the successful pursuit of their vocations.

After the adoption of the above Report, His Royal Highness the PRINCE OF WALES said:—"Before this meeting breaks up I am anxious to convey to you all my great satisfaction with the honour of presiding at our first General Meeting in the buildings of the Imperial Institute (cheers); also to express to all of you my warmest thanks for your coming here to-day. So many of you are busy men, but at any rate you have shown by your presence the interest you take in the welfare of the Institution which we are engaged in launching. The report which we have just heard is a very able and, I think, exhaustive one, and will have given everyone not yet thoroughly conversant with the objects of the Institution the fullest information. (Hear, hear.) It brings before you everything you can really be told, and I feel sure we may consider it as satisfactory in every sense of the word. (Cheers) Allusion has been made to the number of Fellows, and I am glad to think that at the present moment we have—and in so short a time—as many as 3,500. An announcement I know will be gratifying to you all is that the Queen has expressed her intention of opening the Institute early in the month of May next. (Cheers.) I wish to say just one word with regard to my Colonial friends. I have no reason to doubt for one moment that they take the warmest interest in the Imperial Institute; still I hope that in the case of a certain few Colonies we may see a little more activity displayed than has been the case hitherto in completing their preparations for the installation of their collections, so that when the Queen opens the Institute everything may be so arranged as to ensure that all the Colonies will be then fully represented. (Hear, hear.) In conclusion I wish to tender my most sincere thanks to the Governing Body and the various Committees for their labours, and especially to my noble friend the Lord Chancellor, Chairman of the Governing Body, to Sir Frederick Abel, the Secretary, Sir Somers Vine, the Assistant Secretary, and to all the energetic staff, who have worked so well and so long to produce such excellent results. I will not detain you any longer but to express my pleasure at seeing you here to-day." (Cheers.)

The LORD CHANCELLOR (LORD HERSCHELL) said:—"Inasmuch as I have from the outset taken a somewhat active part in connection with this Institute, His Royal Highness desires that I should say a word or two with regard to its present position, but really, after what His Royal Highness has said, there remains very little for me to add. I think that those who have been working to put this Institute upon a sound foundation are more sanguine to-day than they ever were that it is likely to prove a really useful Institution. It has had to meet, as most things do, with a good deal of opposition, a good deal of distrust, and a good deal of scepticism. I believe that the opposition is growing less and less, if it has not altogether disappeared; that the distrust has diminished, if not ceased; and that the scepticism is being rapidly converted into belief. Therefore, I think we may look forward very hopefully to the future. Although much has been done down to the present a good deal remains to be done. We are obliged to look for our annual income from the moneys received from those who become Fellows. I think we give the Fellows of the Institute a very considerable return for their annual subscription, and, therefore, we do not sue, *in forma pauperis*, for the addition of Fellows. At the same time by obtaining a large number of Fellows the success of the Institute will be more assured, inasmuch as the advantages which are given to Fellows and the usefulness of the work are so undoubted. I am quite sure that all the existing Fellows will be quite satisfied that they would be doing well by seeking to add to their numbers. The money which is received from the contributions of Fellows goes largely to the carrying out of the great work in which this Institute is engaged, and if we are able to go on increasing our numbers we shall go forward in the work that remains to be done with the utmost confidence. It has been a great satisfaction to the Governing Body and to all the Fellows here present to have heard the words that have fallen from His Royal Highness to-day and to have his assurance of the deep interest he takes in the Institute. In conclusion, I must remark that we are delighted to have the highly gratifying announcement that Her Majesty will be graciously pleased to declare the Institute to be open in the early part of May next." (Cheers.)

R. G. THOMSON,

Revenue Secretary to Government, Punjab.

DEPARTMENT OF REVENUE AND AGRICULTURE.

GENERAL.

The 7th February 1893.

No. 117 *A.—Appointment.*—In exercise of the powers conferred by sub-sections (3) and (4) of Section 6 of the Punjab Land Revenue Act, 1887, the Hon'ble the Lieutenant-Governor is pleased to appoint, and hereby appoints, Pandit Hari Kishen, Extra Assistant Commissioner, Jullundur, to be an Assistant Collector of the 1st Grade.

The 11th February 1893.

No. 131.—*Notification.*—Under the authority vested in him by Section 14 of the Glanders and Farcy Act, XX of 1879 [the provisions of which Act were extended to the whole of the Punjab in Notification No. 657, dated 21st March 1883], and in supersession of Punjab Government Notifications No. 3598, dated 12th November 1880, and No. 376, dated 27th June 1892, the Hon'ble the Lieutenant-Governor is pleased to make the following Rules under the said Act.—

RULES.

Rule 1.—Every Inspector who receives information of the supposed existence, or who has reasonable grounds to suspect the existence, of glanders or farcy in any place within the districts to which this Act has been extended, shall proceed immediately to such place, and there execute and discharge the powers and duties conferred and imposed upon him under this Act.

Rule 2.—An Inspector may, for the purpose of seizing any such horse, enter and search any field, enclosure, building, or other place where he has reason to believe that any diseased horse is to be found; but, as far as practicable, he shall conduct his search in the presence of the owner, or of the person in charge of the suspected horse, field, enclosure or building, to whom notice shall be given previous to the search.

Rule 3.—Every person having in his possession, or under his charge, any diseased horse, shall observe the following rules :—

1st.—He shall, as far as possible, keep the diseased horse separate from other horses not diseased.

2nd.—He shall give information of the fact of the disease, as soon as possible, to the nearest Police Station, and the officer in charge of the station shall forthwith report the same to the District Superintendent of Police, who shall communicate it directly to the Inspector.

Rule 4.—The Inspector whose duty it is under section 8 of the Act to cause the destruction of any horse which is within the limits attached to a Police Station may give written directions to the officer in charge of that station to destroy the horse. The officer receiving such directions shall have the horse promptly destroyed by shooting or otherwise. He shall also be responsible for seeing that the rule next following is complied with, or that the person failing to comply with that rule is proceeded against under Rule 9.

Rule 5.—When a diseased horse is destroyed under section 8 of the Act, the owner, or the person in charge, shall cause the carcass to be buried, without delay, 6 feet below the surface of the ground, and the skin to be slashed so as to prevent its being used. No person shall dig up, or cause to be dug up, the carcass of any horse so buried, or any part of it.

Provided that an Inspector may direct the carcass to be burnt instead of being buried, and the owner or person in charge shall thereupon cause it to be destroyed by fire.

Rule 6.—When a diseased horse has been destroyed or has died of the disease, the Inspector may order that its dung and any hay, straw, litter, or other things commonly used for food or bedding of horses, shall be destroyed, by burying, or burning, or in some other way, as he may direct, and the owner, or the person in charge of the building, shed, place or lines in which such diseased horse has been located, shall be bound to execute such order without delay.

Rule 7.—The stable or building in which a diseased horse has been shall be cleansed and disinfected in the following manner :—

1st.—By sweeping out and removing all dung, litter and other matter.

2nd.—By thoroughly washing all wood-work with boiling water.

3rd.—By application to all parts above the floor with which the horse or its droppings may have come into contact of a coating of limewash made by mixing, immediately before its use, good freshly-burnt lime with water.

4th.—By removal, if practicable, of two feet of earth from the floor or standings, which shall not be renewed for at least two weeks.

The owner or person in charge of the stable or building shall be responsible for carrying out the measures indicated.

Rule 8.—The Inspector shall grant a license for removal of a horse which has been in contact with a diseased horse only when he considers that there is no danger of the first horse becoming diseased.

If any horse which has been in such contact is removed without such license, the Inspector may require it to be taken back within the limits of the place from which it has been removed.

Rule 9.—Any person convicted of breaking any of the above rules shall be punished with imprisonment, which may extend to one month, or with fine, which may extend to Rs. 50, or with both.

C. L. TUPPER,

Chief Secy. to Govt., Punjab.

GENERAL.

The 11th February 1893.

No. 172.—*Notification.*—Whereas Sir James Broadwood Lyall, K. C. S. I., has applied under Section 4, sub-section (1), of the Charitable Endowments Act (VI of 1890) that the property set forth in Schedule A hereto appended consisting of securities for money of a kind specified in Section 4, sub-section (3), clause (*a*), of the Charitable Endowments Act shall be vested by an order of the Local Government in the Treasurer of Charitable Endowments for the Punjab to be held in trust for a charitable purpose as defined in Section 2 of the said Act, that is to say on the terms as to application thereof or of its income which are set forth in Schedule B hereto appended, or upon such other terms as may be agreed upon between the Local Government and the above-named ;

And whereas by a Notification No. 1580, dated October 24th, 1890, published in the *Gazette of India*, under the authority of the Government of India, the Accountant-General, Punjab, was appointed Treasurer of Charitable Endowments for the Punjab under Section 3, sub-section (1), of the Charitable Endowments Act VI of 1890;

The Hon'ble the Lieutenant-Governor of the Punjab and its Dependencies is pleased to direct, under the authority conferred upon him by Section 4, sub-section (1), of the aforesaid Act, that the property set forth in Schedule A hereto appended shall vest in the Accountant-General, Punjab, as Treasurer of Charitable Endowments, on the terms set forth in Schedule B hereto appended.

SCHEDULE A.

Government Promissory Note Number 323474 for rupees five thousand bearing interest at four per cent.

SCHEDULE B.

The property described in Schedule A shall be held by the Treasurer of Charitable Endowments for the Punjab, who will realize the income and remit as much of it to the Deputy Commissioner of the Kángra District, for the time being (subject to the approval of the Local Government), as would be sufficient to pay for the scholarships current at the time in the Pálampur High School, in accordance with the scheme of administration to be determined from time to time for this endowment, and the said Deputy Commissioner (subject to the approval of the Local Government) will furnish an annual account of the application of the said income to the Director of Public Instruction, Punjab, for the time being.

No. 173.—*Notification.*—Whereas on the application of Sir J. B. Lyall, K.C.S.I., the Hon'ble the Lieutenant-Governor has been pleased to direct, under sub-section 1 of Section 4 of the Charitable Endowments Act (VI of 1890), by a Notification published in the official Gazette, No. 172, dated 11th February 1893, that certain property shall vest in the Accountant-General, Punjab, as Treasurer of Charitable Endowments, and whereas the above-named Sir James Broadwood Lyall has made application that the income from the said property shall be applied in trust in accordance with the scheme hereinafter notified, and whereas the above-named has declared his concurrence in the scheme hereinafter notified;

The Hon'ble the Lieutenant-Governor of the Punjab and its Dependencies is pleased under the authority conferred upon him by Section 5, sub-section (1), of the Charitable Endowments Act VI of 1890, and with the aforesaid concurrence to settle a scheme as hereinafter notified for the administration of the aforesiad property, and to appoint by office the person therein named to administer the property, and to declare that the said scheme shall come into operation from the date of this Notification.

SCHEME.

(1) The Deputy Commissioner of Kángra for the time being is hereby appointed to administer the property of this Endowment.

(2) The interest accruing on the Government Promissory Note, specified in the schedule to this Notification (after deducting such charges as the said Treasurer of Charitable Endowments is authorized by the rules framed by the Governor-General in Council under the Charitable Endowments Act VI of 1890, and for the time being in force, to deduct) shall be payable to such extent as may be necessary for the purposes hereinafter mentioned, to and upon the demand of the Deputy Commissioner of Kángra for the time being and shall be applied—

For the founding of three Middle School scholarships of rupees three per mensem each, and two High School scholarships of rupees four per mensem each, or in all five, for the sons of Rájput, Gaddi and Kanet Agriculturists, holding land as proprietors or tenants in the Kángra District, one scholarship to be awarded each year on the result of the Upper Primary School Examination, and to be continued through the Middle and High School classes, that is for five years, till the boys go up for the Entrance Examination; failure in the Middle School Examination at the end of the third year to entail the forfeiture of the scholarship. These scholarships will be tenable in the Pálampur High School only, and the ordinary rules contained in the Punjab Education Code regarding the lapse and forfeiture of scholarships will apply to them.

SCHEDULE.

The 6th April 1893.

No. 163.—Notification.—Under the provisions of Section 60 (1) of the Punjab District Boards Act of 1883, the Hon'ble the Lieutenant-Governor is pleased to publish the following draft rules regarding the accounts of hospitals and dispensaries under the control of District Boards, in supersession of Rules VIII and IX contained in Punjab Government Notification No. 324, dated May 11th, 1886. These draft rules are published for the information of persons interested, and will be taken into consideration after the expiration of six weeks from the date of the publication of this Notification, and any objections or suggestions which may be made with respect to them before the expiration of that period will also be considered:—

DRAFT RULES.

Under the provisions of Section 55 (2) (*k*) and (*l*) of the Punjab District Boards Act, XX of 1883, the Lieutenant-Governor is pleased to make the following rules for the keeping of accounts of hospitals and dispensaries under the control of District Boards:—

VIII.—(1). All contributions towards a hospital or dispensary received by a District Board having the management of that hospital or dispensary, whether from

other local bodies, from provincial funds, from private subscribers or donors or otherwise, shall continue as heretofore to be credited to the District Fund and not to any separate fund, and all expenditure on the hospital or dispensary shall be paid from the District Fund; but the District Board shall on and from the first day of July 1893 open and maintain for the hospital or dispensary an account as next hereinafter provided.

(2). The account referred to in clause (1) shall be kept in the following manner:—

(A) On the credit side there shall be entered—

(1) On the first day of April in each year the amount which ought, under any rule or order having the force of law or any arrangement with the Local Government or otherwise, to be spent by the District Board, independently of the amounts next hereinafter mentioned, on the hospital or dispensary during the said year; and

(2) from time to time, as they may be paid into or credited to the District Fund, the amounts of all contributions to the hospital or dispensary received from other local bodies, from provincial funds, from private subscribers or donors or otherwise, and all amounts realized by the sale of securities or other property appertaining to the hospital or dispensary, by the sale of medicines or otherwise on account of the hospital or dispensary.

(B) On the debit side there shall be entered from time to time, as they are disbursed from the District Fund, all sums expended on the hospital or dispensary.

(3). On the 31st day of March in each year, the balance of this account shall be struck and the amount to credit or debit, as the case may be, shall be carried forward to the account for the following year.

(4). The account for each year shall be submitted to the Local Government with the annual report of the District Board, and a copy of it shall, as soon as may be after the close of the year, be deposited in some place in the Board's Office where it shall be open to public inspection.

IX.—The establishment and contingent bills of hospitals and dispensaries shall be signed by the officer in charge and countersigned by the Civil Surgeon, and presented for payment to the District Board, which will issue cheques for the expenditure, which will be adjusted in the same way as other expenditure from District Funds.

No. 164.—*Notification.*—Under the provisions of Section 189 (1) of the Punjab Municipal Act of 1891, the Hon'ble the Lieutenant-Governor is pleased to publish the following draft rules regarding the accounts of hospitals and dispensaries under the control of Municipal Committees, in supersession of Rules VIII and IX contained in Punjab Government Notification No. 324, dated May 11th, 1886. These draft rules are published for the information of persons interested, and will be taken into consideration after the expiration of six weeks from the date of the publication of this Notification, and any objections or suggestions which may be made with respect to them before the expiration of that period will also be considered :—

DRAFT RULES.

Under the provisions of Section 184 (1) (r) and (x) of the Punjab Municipal Act, XX of 1891, the Lieutenant-Governor is pleased to make the following rules for the keeping of accounts of hospitals and dispensaries under the control of Municipal Committees :—

VIII.—(1). All contributions towards a hospital or dispensary received by a Municipal Committee having the management of that hospital or dispensary,

whether from other local bodies, from provincial funds, from private subscribers or donors or otherwise, shall continue as heretofore to be credited to the Municipal Fund and not to any separate fund, and all expenditure on the hospital or dispensary shall be paid from the Municipal Fund ; but the Municipal Committee shall on and from the first day of July 1893 open and maintain for the hospital or dispensary an account as next hereinafter provided.

(2). The account referred to in clause (1) shall be kept in the following manner :—

(A) On the credit side there shall be entered—

(1) On the first day of April in each year the amount which ought, under any rule or order having the force of law or any arrangement with the Local Government or otherwise, to be spent by the Municipal Committee, independently of the amounts next hereinafter mentioned, on the hospital or dispensary during the said year ; and

(2) from time to time, as they may be paid into or credited to the Municipal Fund, the amounts of all contributions to the hospital or dispensary received from other local bodies, from provincial funds, from private subscribers or donors or otherwise, and all amounts realized by the sale of securities or other property appertaining to the hospital or dispensary, by the sale of medicines or otherwise on account of the hospital or dispensary.

(B) On the debit side there shall be entered from time to time, as they are disbursed from the Municipal Fund, all sums expended on the hospital or dispensary.

(3). On the 31st day of March in each year the balance of this account shall be struck and the amount to credit or debit as the case may be shall be carried forward to the account for the following year

(4). The account for each year shall be submitted to the Local Government with the annual report of the Municipality and a copy of it shall, as soon as may be after the close of the year, be deposited in some place in the Committee's Office where it shall be open to public inspection.

IX.—The establishment and contingent bills of hospitals and dispensaries shall be signed by the officer in charge and countersigned by the Civil Surgeon and presented for payment to the Municipal Committee, which will issue cheques for the expenditure, which will be adjusted in the same way as other expenditure from Municipal Funds.

The 8th April 1893.

No. 463.—Notification.—The following Rules framed under Section 3 of Act XIV of 1879 (The Hackney Carriage Act) by the Municipal Committee of Jhelum have been confirmed by the Hon'ble the Lieutenant-Governor, and are hereby published for general information. They shall have the force of law from the date of this Notification:—

RULES.

1. Every hackney carriage, except as provided in Rule No. 24, shall be required to take out a license from the Municipal Committee.

All hackney carriages to be licensed with the exception of ekkas.

Place of issue of the license.

2. Such license shall be issued from the Municipal Office after the carriages and horses have been examined and approved by one or more members of the Municipal Committee, the Secretary to the Municipal Committee, and the District Superintendent of Police, or in his absence by the Assistant District Superintendent of Police, who shall also jointly determine the class to which the carriage shall belong.

Conditions of license.

3. There shall be two classes of licensed hackney carriages according to the quality of the horses and vehicles, and licenses shall be granted to them subject to all the provisions contained in these rules, and to the following conditions, *viz.*—

(1) That the carriage is in good order and repair in all its parts.

(2) That it is provided with two lamps.

(3) That the horse is not, or the horses are not, less than 13 hands high, or three years of age, or otherwise than in good working condition.

(4) That the harness is complete and serviceable.

Period of license.

4. Licenses issued under these rules shall continue in force during the official year for which they are granted. But they shall be liable to revocation within that time by order of the Municipal Committee on proof before them that the proprietor or his agent has been guilty of the infringement of any of these rules or has been convicted of any offence under these rules, or that the conditions on which the license was granted are not fully maintained.

Renewal of license.

5. Application for the renewal of licenses shall be made one month before the expiry of the year of license, and the renewed license shall be granted in the same way and by the same officers as provided in Rules 2 and 3, and on payment of the same fee as for the original license.

Transfer of license.

6. When a licensed hackney carriage is transferred to a new proprietor during the year of license, the name of such proprietor shall be duly reported by the transferer to the Municipal Office, and shall be substituted in the license for the name of the transferer without further payment.

Numbering of license and vehicle.

7. Each license shall bear a serial number, and this number shall be painted in English and Urdu in a conspicuous place on the licensed hackney carriage.

8. All hackney carriage licenses shall be produced for inspection when required by any Magistrate or Police Officer.

Production of license.

9. No person shall be allowed to act as the driver of a licensed vehicle except under a driver's license granted in that behalf by the officers mentioned in Rule 2. A driver's license is not transferable, and shall be granted for the official year. A driver's license shall not be granted to any person under 18 years of age.

Driver's license.

10. Every driver so licensed shall wear while driving a licensed carriage or plying for hire a brass badge on his arm bearing the number of his license.

Driver's badge.

11. The license for hackney carriages and drivers shall be in the form attached to these rules and shall be printed on strong paper. The fee for each carriage license shall be—

Form of licenses for carriages and drivers.

Fees payable.

	Rs.	A.	P.
First Class	2	0	0
Second Class	1	0	0
And for each driver's license and badge	0	8	0

12. Any proprietor or agent of the proprietor or driver of a licensed vehicle who knowingly permits it to be drawn by a less number of horses than is provided in the license, or knowingly permits more passengers or a greater weight to be carried in such carriage than is permitted by these rules, shall be liable to a fine which may extend to Rs. 50 and to forfeiture of his license.

Forfeiture of license.

13. Any driver who cruelly beats, ill-treats, over-drives, or otherwise misuses any horse driven in a licensed vehicle shall be liable to forfeiture of his license to drive, in addition to any other punishment to which he may be liable under any law in force for the time being.

Forfeiture of driver's license.

14. It shall be lawful for any person named in Rule 2 to enter premises on which licensed vehicles, animals, harness and other things used therewith are kept in order to carry out any of the provisions of these rules.

Inspection of premises.

15. The Municipal Committee may from time to time appoint places as stands for licensed hackney carriages. Drivers of such carriages found waiting for hire at places other than those appointed shall be liable to forfeit their license to drive. The regulation of the order in which hackney carriages shall rank on the stands shall be under the control of the Police.

GENERAL.

The 13th April 1893.

No. 292.—Notification.—The following translation of a Proclamation recently issued by the Chinese Provincial Governor of the New Dominions remitting the levy of duties on locally manufactured and imported goods except opium throughout that Province is published for general information :—

PROCLAMATION.

Translation of the Proclamation issued by Tao, Provincial Governor of the New Dominions.

WHEREAS Custom Houses had been established for the levying of duties on native produce goods from China and from foreign countries, and it had been found that the amount of duties so levied had never been considerable, the Provincial Governor has memorialized the Throne representing that, as a relief to the people, the duties should be temporarily remitted to be re-imposed or not according to future circumstances.

For the present, the Custom Houses are to be abolished and the levying of duties temporarily suspended; but taxes on live-stock are still to be under the direction of the district officers, and the levying of those on opium is to be transferred to the same officers, who, in collecting them, should be guided by existing regulations.

Notice is hereby given to you that if any subordinate officials, or others, dare to levy illegal duties, you are authorized to lodge a complaint against them before the local authorities, who will punish them with severity.

MILITARY.

The 6th June 1893.

No. 170.—The following letter from the Government of India is published for information, in continuation of *Punjab Government Gazette* Notification No. 265, dated the 21st of December 1892:—

No. 2238 D., dated Simla, 22nd May 1893.

From—The Offg. Deputy Secretary to the Government of India, Military Department,

To—The Quartermaster-General in India.

WITH reference to the correspondence ending with your letter No. 773-A., dated 25th February 1893, I am directed to say, for the information of His Excellency the Commander-in-Chief, that the Right Hon'ble the Secretary of State for India has approved of the proposal to offer for International competition five prizes of the values marginally noted for the five best designs for a transport cart suited to the requirements of the Indian Army. An expenditure of £1,000 for "contingencies" in connection with the competition has also been sanctioned. The Secretary of State has also been pleased to extend the period of submission of designs by intending competitors to 30th September 1893, and the various Local Governments and Administrations will accordingly be requested to publish this alteration of date in the local Government Gazettes.

		£
1st prize	...	750
2nd ,,	...	500
3rd ,,	...	375
4th ,,	...	250
5th ,,	...	125
Total		2,000

2. With regard to the enquiry contained in paragraph 1 of your letter referred to above, I am to state that the Government of India, after careful consideration, have decided that only models and drawings should be accepted in the first instance from intending competitors; not full-sized specimens. The designers of the best models and drawings, selected by the jury referred to in paragraph 2 of the "Notice of International Competition," will be subsequently requested to submit full-sized carts for purposes of a practical test.

3. There is no objection to competitors taking out patents in India or elsewhere for designs submitted by them in connection with the competition, as it is understood that the right of the Government of India to manufacture carts of any or all these designs is sufficiently protected by the terms on which the prizes have been—offered for competition.

(3) That Physical Science should remain an *optional* subject in the Scheme of Studies for Middle Schools ;

(4) That the Introductory Primer should be removed from the Course of Physical Science for Middle Schools, and that the Physics Primer only should be retained ;

(5) That the Mensuration taken from the *compulsory* Middle School Course for Anglo-Vernacular Schools be added to the optional Course of Mathematics instead of Euclid.

The Lieutenant-Governor is not in favour of taking Mensuration from the list of *compulsory* subjects in Anglo-Vernacular Middle Schools for Boys, on the ground of the usefulness of the subject ; and, in consequence, the recommendation in (1) is not approved, and (2) and (5) also fall out. His Honor, however, accepts the decisions arrived at in (3) and (4); and the latter will be referred to the University.

11. With reference to Question (9), as to the measures necessary in connection with the practice of scholars absenting themselves without leave after their applications have been sent in for the University Examinations, and as to examination leave generally, the Conference recorded the following resolutions:—

(1) That no candidate be admitted to the Middle School or Entrance Examination without the production of an Admission Ticket from the University, which must be countersigned by the Head Master of the School in which he reads, and that the Head Master must, in the event of his refusing such countersignature, inform the candidate of his action at least 15 days before the commencement of the examination, and, at the same time, report to the Inspector his reasons for so refusing, it being understood that absence from school without leave, after the names have been sent in, be considered sufficient ground for the Head Master to refuse his countersignature ;

(2) That the following addition be made to the Note to Article 525 :—

"and also from those who absent themselves without leave before the Middle School or Entrance Examination ;"

(3) That the following addition be made to the Note to Article 534 :—

"This certificate may be withheld from scholars who absent themselves without leave before the Middle School or Entrance Examination ;"

(4) That leave to prepare for examinations in Schools or Colleges shall not be given as a matter of course, but only when, in the judgment of the Head of the Institution, the courses have been adequately studied, and that, in no case, shall the preparatory leave exceed 10 days.

With regard to (1), the practice referred to seems detrimental to discipline in the schools ; and the resolution, with a statement of the object in view, will be referred to the University for consideration.

The other decisions are approved ; and (4) will be given effect to by a Note to Articles 485 and 559 in the following terms :—

"In addition to the above holidays, leave to prepare for the University Examinations may be given, but, in no case, shall such leave exceed 10 days. This preparatory leave shall not be given as a matter of course, but only when, in the judgment of the Head Master (*Principal* in Article 559), the courses have already been adequately studied."

12. Regarding Question (10), the Conference resolved—

That agreement to observe the Inter-School Rules be made a condition for the recognition of a school by the Department under the Note to Article 19;

and recorded the following grounds :—

(1) The Government of India, in its Resolution on the Report of the Education Commission, desired that, in the interests of school discipline, Inter-School Rules should be made to apply even to Unaided Schools. This proposal was considered by the Punjab Education Conference in 1888, which declined to recommend any action at that time, chiefly on the ground that the very small number of such schools in the Province made the question of little practical importance. Since 1888, however, there has been a very rapid increase in the number of such schools, and the evils anticipated are now very seriously felt in many parts of the Province ;

(2) It is the experience of Head Masters and Managers of Board and Aided Schools that real injury is done to education by the exemption from the Inter-School Rules allowed to Unaided Schools. These schools, in preparing pupils for the ordinary examinations of the Department and the University, take their place with other schools in the educational system of the Punjab, and yet they are allowed to ignore the simple rules that, in the case of those other schools, are deemed essential to sound discipline. The consequence is that they admit boys into higher classes than they are fit for; they send pupils to examinations earlier than would be the case in other institutions, and before they have completed the course of study; and they even receive boys who have been expelled from other Schools for very serious offences. The effect of this is to introduce into the school system of the Province an element which ignores all that is best in education, and which ought, therefore, to be rigorously checked;

(3) It is believed that, inasmuch as Unaided Schools present pupils for the public examinations that render them eligible for Government appointments, they ought to be subject to such rules as, in the interests of good education, have already been approved by Government for Board and Aided Schools; and it is to be noted that the observance of these rules is already a condition on which scholarships from Public Funds can be won by, or held in, such schools;

(4) The operation of these rules causes no practical difficulty (as proved by experience) in the case of schools already subject to them; nor are they found to interfere with the freedom of such schools as regards their internal organization and the educational methods employed in them;

(5) These rules, moreover, have been imposed on all Aided Schools,—that is, speaking generally, on the best of the schools which have been founded and are maintained by private enterprise. These schools are required to submit to a certain curtailment of their liberties; and it is held that they have a right to expect that the same should be the case with all schools

having a somewhat similar place in the educational system of the Province. The rules are imposed on Aided Schools on account of their grants; and it is believed that it would now be right to impose the same rules on all Public Schools as a condition of their recognition as schools preparing for the ordinary Public Examinations.

The argument as to the danger to school discipline, the Lieutenant-Governor admits, is strong. There is, however, a good deal to be said on the other side; and His Honor has decided to invite the University to consider the subject so far as the Entrance Examination is concerned, before taking it up, from the Government point of view, for Middle Schools.

13. The opinion of the Conference regarding Question (11), that the existing regulations sufficiently meet the requirements, is accepted; and no order is required.

14. Questions (12) and (13), regarding the time given to instruction in the Lower Primary Classes, and the fixing of periods for Physical Training throughout the schools, were referred to a Sub-Committee, on the report of which (Appendix III) the Conference adopted the following proposals:—

(1) That Resolution I of the Sub-Committee, distributing the hours of the Infant Class, be adopted, with the omission of Drawing from the last period;

(2) That Resolution II of the Sub-Committee, distributing the time of the Second Primary Class, be accepted, with this amendment, that the three hours given to Physical Training be not all taken from Arithmetic, but be made up of one hour from Reading, one from Writing, and one only from Arithmetic;

(3) That Resolution III (*a*) of the Sub-Committee, regarding the time of the Third Primary Class, be accepted;

(4) That Resolution III (*b*) of the Sub-Committee, regarding the time for Physical Instruction and Recreation in the Fourth and Fifth Primary Classes, be accepted;

(5) That Resolution III (*c*) of the Sub-Committee, regarding the arrangement for Physical Training in the Middle and High Departments, be accepted, with the following proviso:—

"That, in the hot season, the Head Master be required to arrange for the Physical Training of the classes in the evening, and, so far as this is inconvenient, in the morning before 9 A. M."

These recommendations are approved.

15. The proposal of the Conference on Question (14) is accepted; and the form of the Final School Certificate (Appendix XLIII of the Code) will be modified accordingly.

16. With regard to Question (15), the following was the resolution of the Conference:—

That the Government be strongly urged, in the interests of sound education, to take steps to place candidates for employment who are certified to have undergone an approved course of College Training, on a more advantageous footing than private candidates.

This resolution will be referred to the Chief Secretary for consideration in the Administrative Department.

The proposal moved by the Reverend Mr. Allnutt on the same question, though not adopted by the Conference, will be referred to the University, but without any expression of the Lieutenant-Governor's opinion at this stage.

17. His Honor, the Lieutenant-Governor, is indebted to the Members of the Conference for the time and attention given to the subjects submitted for their consideration; and he desires to convey to them the thanks of the Government for their helpful co-operation, in this way, in the cause of public instruction.

ORDER.—Ordered, that the Resolution be published in the Gazette in English and the Vernacular, and that copies be supplied to the Members of the Conference, to Commissioners and Deputy Commissioners, to the Principals of Government, Board, and Aided Colleges, and to the Managers of Aided Secondary Schools for Natives.

By order of the Hon'ble the Lieutenant-Governor,

J. SIME,

Under-Secretary to Government, Punjab,

The 20th July 1893.

No. 327.—*Notification.*—Whereas the period allowed for taking into consideration the draft rules regarding the accounts of hospitals and dispensaries under the control of District Boards, published with the Notification of the Government of the Punjab, No. 163, dated the 6th of April 1893, has expired, and whereas certain objections which have been received to the said draft rules have been taken into consideration by the Local Government and deemed to be insufficient, the Hon'ble the Lieutenant-Governor is pleased, under the provisions of Section 60 (2) of Act XX of 1883 (The Punjab District Boards Act), to hereby direct that the following rules be substituted for Rules VIII and IX of the Dispensary Rules contained in the Notification of the Government of the Punjab, in the Home Department, No. 324, dated the 11th of May 1886:—

RULES.

Under the provisions of Section 55 (2) (*k*) and (*l*) of the Punjab District Boards Act, XX of 1883, the Lieutenant-Governor is pleased to make the following rules for the keeping of accounts of hospitals and dispensaries under the control of District Boards:—

VIII.—(1) All contributions towards a hospital or dispensary received by a District Board having the management of that hospital or dispensary, whether from other local bodies, from provincial funds, from private subscribers or donors or otherwise, shall continue as heretofore to be credited to the District Fund and not to any separate fund, and all expenditure on the hospital or dispensary shall be paid from the District Fund; but the District Board shall on and from the first day of July 1893 open and maintain for the hospital or dispensary an account as next hereinafter provided.

(2) The account referred to in clause (1) shall be kept in the following manner:—

(A) On the credit side there shall be entered—

(1) On the first day of April in each year the amount which ought, under any rule or order having the force of law or any arrangement with the Local Government or otherwise, to be spent by the District Board, independently of the amounts next hereinafter mentioned, on the hospital or dispensary during the said year; and

(2) from time to time, as they may be paid into or credited to the District Fund, the amounts of all contributions to the hospital or dispensary received from other local bodies, from provincial funds, from private subscribers or donors or otherwise, and all amounts realized by the sale of securities or other property appertaining to the hospital or dispensary, by the sale of medicines or otherwise on account of the hospital or dispensary.

(B) On the debit side there shall be entered from time to time, as they are disbursed from the District Fund, all sums expended on the hospital or dispensary.

(3) On the 31st day of March in each year the balance of this account shall be struck and the amount to credit or debit, as the case may be, shall be carried forward to the account for the following year.

(4) The account for each year shall be submitted to the Local Government with the annual report of the District Board, and a copy of it shall, as soon as may be after the close of the year, be deposited in some place in the Board's Office where it shall be open to public inspection.

IX.—The establishment and contingent bills of hospitals and dispensaries shall be signed by the officer in charge and countersigned by the Civil Surgeon, and presented for payment to the District Board, which will issue cheques for the expenditure, which will be adjusted in the same way as other expenditure from District Funds.

The 20th July 1893.

No. 329.—*Notification.*—Whereas the period allowed for taking into consideration the draft rules regarding the accounts of hospitals and dispensaries under the control of Municipal Committees, published with the Notification of the Government of the Punjab, No 164, dated the 6th of April 1893, has expired, and whereas no objections have been received to the said draft rules, the Hon'ble the Lieutenant-Governor is pleased, under the provisions of Section 189 (3) of Act XX of 1891 (The Punjab Municipal Act), to hereby direct that the following rules be substituted for Rules VIII and IX of the Dispensary Rules contained in the Notification of the Government of the Punjab, in the Home Department, No. 324, dated the 11th of May 1886:—

RULES.

Under the provisions of Section 184 (1) (*r*) and (*x*) of the Punjab Municipal Act, XX of 1891, the Lieutenant-Governor is pleased to make the following rules for the keeping of accounts of hospitals and dispensaries under the control of Municipal Committees:—

VIII.—(1) All contributions towards a hospital or dispensary received by a Municipal Committee having the management of that hospital or dispensary, whether from other local bodies, from provincial funds, from private subscribers or donors or otherwise, shall continue as heretofore to be credited to the Municipal Fund and not to any separate fund, and all expenditure on the hospital or dispensary shall be paid from the Municipal Fund; but the Municipal Committee shall on and from the first day of July 1893 open and maintain for the hospital or dispensary an account as next hereinafter provided.

(2) The account referred to in clause (1) shall be kept in the following manner:—

(A) On the credit side there shall be entered—

(1) On the first day of April in each year the amount which ought, under any rule or order having the force of law or any arrangement with the Local Government or otherwise, to be spent by the Municipal Committee, independently of the amounts next hereinafter mentioned, on the hospital or dispensary during the said year; and

(2) from time to time, as they may be paid into or credited to the Municipal Fund, the amounts of all contributions to the hospital or dispensary received from other local bodies, from provincial funds, from private subscribers or donors or otherwise, and all amounts realized by the sale of securities or other property appertaining to the hospital or dispensary, by the sale of medicines or otherwise on account of the hospital or dispensary.

(B) On the debit side there shall be entered from time to time, as they are disbursed from the Municipal Fund, all sums expended on the hospital or dispensary.

(3) On the 31st day of March in each year the balance of this account shall be struck and the amount to credit or debit, as the case may be, shall be carried forward to the account for the following year.

(4) The account for each year shall be submitted to the Local Government with the annual report of the Municipality, and a copy of it shall, as soon as may be after the close of the year, be deposited in some place in the Committee's Office where it shall be open to public inspection.

IX.—The establishment and contingent bills of hospitals and dispensaries shall be signed by the officer in charge and countersigned by the Civil Surgeon, and presented for payment to the Municipal Committee, which will issue cheques for the expenditure, which will be adjusted in the same way as other expenditure from Municipal Funds.

FOREST DEPARTMENT.

[First publication]

The 5th August 1893.

No. 417.—*Notification.*—The following Rules to regulate the constitution of, admission to, and studies and discipline at, the Imperial Forest School, Dehra Dún, are published for general information. The rules came into force with effect from the 1st July 1893 :—

RULES TO REGULATE THE CONSTITUTION OF, ADMISSION TO, AND STUDIES AND DISCIPLINE AT, THE IMPERIAL FOREST SCHOOL, DEHRA DUN.

Section I.—Constitution and Studies.

1. The School is under the administrative control of the Inspector-General of Forests, who is assisted by a Board consisting of—

1. The Inspector-General of Forests, *President ;*
2. The Director of Public Instruction, North-Western Provinces and Oudh ;
3. The Director of the School ;
4. One Conservator from each province (not more than three serving in any given year) ;

with, as *Secretary*, the Assistant Inspector-General of Forests.

2. The Superior Staff of the School consists of—

1. The Director,
2. The Deputy Director,
3. & 4. Two Instructors,
5. The Vernacular Instructor,

assisted by the Forest Officers of the School Circle, North-Western Provinces.

The Conservator of Forests, School Circle, North-Western Provinces, will ordinarily be Director of the School. The Deputy Director and two Instructors are officers of the Indian Forest Service on the Imperial List. The Vernacular Instructor is an officer of the Provincial Forest Service, also on the Imperial List.

3. The Director of the School is charged with (1) the general administration of the institution, including the regulation of the course of study under the arrangements prescribed by the Board of Control, subject to the sanction of the Government of India; (2) the supervision of the School buildings, quarters and gardens ; (3) the control of the accounts, and the conduct of correspondence.

4. *Courses.*—There are two courses,—one in English, the other in the Hindustani language. Each course lasts 21 months. The English course is that followed by the "Upper Class" ; the Hindustani course that followed by the "Lower Class." The first year's students are called "Juniors" ; the second year's students "Seniors." In the English course students are prepared for the certificate in Forestry by the "Higher Standard" ; in the Hindustani course for that by the "Lower Standard."

The subjects taught in these courses are the following, described in the School syllabuses :—

1. Forestry, including Sylviculture, Utilisation and Forest Working-Plans both theoretical and practical.
2. Mathematics—elementary Arithmetic, Algebra, Trigonometry, and Mechanics in their application to forest questions.

3. Physical Science, including Chemistry, Physics, Physiography, Geology, Mineralogy and Soils.

4. Botany, both theoretical and practical, including the collection and preservation of plants.

5. Zoology—the classification of animals and the study of useful and dangerous species, especially of insects, including the collection and preservation of specimens.

6. Drawing, Surveying and Estimating, as required for Forest Officers.

7. Forest Engineering, theoretical and practical.

8. Forest Law, the elements of Criminal Law and departmental organisation.

9. Forest Accounts and Proceduce.

5. *Terms.*—The terms of study are as follows :—

1st year—
- Rains term—July 1st to October 31st, in Dehra Dún.
- Winter term—November 1st to December 22nd, in camp.
- Vacation—December 23rd to January 5th.
- Spring term—January 6th to March 31st, in camp.
- Hill tour term—April 1st to May 31st, in camp.
- Vacation—June 1st to 30th.

2nd year—
- Rains term—July 1st to October 31st, in Dehra Dún.
- Winter term—November 1st to December 22nd, in camp.
- Vacation—December 23rd to January 5th.
- Spring term—January 6th to February 15th, in camp.
- Examinations, including survey test—February 16th to March 31st.

6. *Examinations.*—The School Examinations are—

1. Monthly, to test progress and application.
2. Final.

The *Monthly Examinations* are usually held on the last two working days of each month, as the Director may order. The marks obtained at these examinations are counted for one-fourth of the aggregate at the Final.

The *Final Examinations* are held in March of the second year, and the marks then obtained count for three-fourths of the aggregate.

7. *Certificates.*—There are two certificates obtainable in each class after the final examinations !—a "pass" certificate and a "honors" certificate. The former is granted to students who obtain over 50 per cent. of the aggregate marks allotted to all subjects, provided this includes 50 per cent. of the marks allowed for each of the subjects of Forestry, Botany, Surveying, and Engineering. The latter is granted to sudents who obtain over 75 per cent. of the aggregate marks allotted to all subjects, including over 50 per cent. in each individual subject. These certificates are only granted on the orders of the Board of Control, who have authority to exercise their discretion in doubtful cases.

8. *Prizes.*—The School medals are awarded by order of the Board of Control, but only if "honor" marks (75 per cent.) have been obtained. Other prizes, whether given by Government or other donors, are also awarded by the Board of Control

9. Should any student of the three categories enumerated in Rule 11 be unable (*a*) to appear at the final examinations, or, having appeared, (*b*) fail to pass those examinations, he will not be permitted to appear at any suhsequent final examination unless he follows a second time the whole course of instruction at the School, or, at the discretion of the Director, the second year's course.

Section II.—Admission Rules.

10. The total number of students of each class who can be admitted into the School each year will be limited to such number as the Board of Control may decide, from time to time. can be accommodated in the school. The number of studentships to be allotted each year to the respective Provinces, as well as the number of nominations to be made by the Director, will, with due regard to the total prescribed by the Board of Control, be decided by the Director of the School before the 1st of January, after consultation with the Provincial authorities as to their requirements, and communicated to the Local Governments concerned.

A.—Upper Class.

11. There are three categories of students in the Upper Class—

(1) Private Students.

(2) Students already in the Government service.

(3) Students deputed by Native States.

12. *Private Students* comprise all those students who are at present without appointments in any Forest Service, and whose object it is, by becoming possessors of Forest School certificates, to obtain employment, either in the Forest Service of the Government of India, or in that of a Native State or some other owner of forest property.

(i) Candidates for admission to the Forest School as private students must not be less than 18 or more than 25 years of age, and their applications must be sent to a Conservator of Forests* through a Divisional Forest Officer of rank not below that of an Assistant Conservator of the 1st Grade, or through a Collector or other district officer. Neither the Conservator, the Divisional forest Officer, nor the Collector need belong to the forest circle or province in which the candidate seeks employment; but Divisional Forest Officers and Collectors may not forward to Conservators applications unsupported by the five certificates enumerated below, namely,—

* Conservator of Forests, Bengal Circle, at Darjeeling.
Conservator of Forests, Assam Circle, at Shillong.
Conservators of Forests, North-Western Provinces and Oudh—
School Circle, at Dehra Dún.
Central Circle, at Naini Tal.
Oudh Circle, at Naini Tal.
Conservators of Forests, Central Provinces—
Southern Circle, at Nagpur.
Northern Circle at Jabalpur.
Conservator of Forests, Berar Circle, at Amraoti.
Conservator of Forests, Punjab Circle, at Lahore.
Conservators of Forests, Upper Burma—
Eastern Circle at Mandalay.
Western Circle, at Mandalay.
Conservators of Forests, Lower Burma—
Pegu Circle, at Rangoon.
Tenasserim Circle, at Moulmein.
Conservators of Forests, Madras Presidency—
Northern Circle, at Bezvada.
Central Circle, at Madras.
Southern Circle, at Coimbatore.

(*a*) A certificate that the candidate is a "Native of India," within the meaning† assigned to those words by section 6 of 33 Vict., Cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate, in the form prescribed by Article 61 of the Civil Service Regulations, signed by the Civil Surgeon of the district in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough out-door life in the Forest Department.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliableness.

(*e*) A certificate from an officer of the Educational Department, of a rank not less then that of a Deputy Inspector of Schools or the Head Master of a High School under public management, to the effect that the candidate's education appears sufficiently good to give hopes of his being able to pass the entrance examination.

The last three certificates must bear date not further back than the 1st October of the year preceding that in which the candidate proposes to present himself at the entrance examination.

If any person, giving certificates as above under (*c*), (*d*) and (*e*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(ii) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that officer may either accept or reject the application, without assigning any reason for so doing; or he may require the candidate to produce other or better certificates in person before him.

† 'Native of India' means any person born and domiciled within the dominions of Her Majesty in India, or within the territories of Indian Princes tributary to or in alliance with Her Majesty, of parents habitually resident in India, and not established there for temporary purposes only (Article 45, Civil Service Regulations).

(iii) Conservators may, at their option, test the fitness of a candidate who desires to enter the service of Government by practical work in the forests.

(iv) Those candidates who have been approved by the Conservator will be permitted, under his recommendation, to appear at the next entrance examination for the Forest School held in his circle.

(v) The *Extrance Examination* is held early in March each year, on such date as may be fixed by the Director, both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such officers, Educational, Revenue, Forest or other, as may be appointed : provided that the date shall be communicated by the Director to Local Governments and Conservators on or before 1st January. The subjects of examination are—

		Minima pass marks.
1. English	Conversation	50 per cent.
	Composition	33 "
2. Arithmetic		40 "
3. Algebra, up to and including quadratic equations ...		40 "
4. Elements of Euclid, Books I to IV and Book VI ...		25 "
5. Mensuration—lengths, areas and volumes, with examples		25 "

The examination papers on the above subjects will be forwarded by the Director, in sealed covers, to such officials as the Local Governments may direct, in the month preceding the examination.

(vi) A Local Government may lay down rules under which the number of candidates allotted, under Rule 10, to the Province for admission into the School shall be selected from the number of passed candidates. In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list : provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard.

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard, at any University in India or in the United Kingdom or in a British Colony, or at any educational institution to which the Government of India may extend the privilege : provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination and who may appear more eligible for the Forest Service.

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the school. These expenses are estimated to be not less than Rs. 735 for each student living in native fashion, and Rs. 945 in the case of those living in European fashion (*vide* Rule 21). Of these sums, parents or guardians must deposit with the Director, before the course commences, a sum of Rs. 126 in the case of native students and Rs. 168 in the case of European students, to meet the initial cost of uniform, books, instruments, stationery and camp-equipage (*vide* Rule 18), and, in addition, Rs. 50 as caution-money.

(ix) Local Governments may, on the recommendation of a Conservator or of the Director, and in exceptional cases, allow selected private students who have passed the entrance examination a monthly stipend not exceeding Rs. 50, to assist them through the School course : provided that such selected private students previously execute an agreement binding themselves to serve the Local Government concerned (in the event of their obtaining the School certificate) for a period of not less than five years (*vide* Rule 17). Such monthly stipend may, in case of misconduct or unsatisfactory progress at the School, be reduced or altogether withdrawn at the discretion of the Director.

(x) The names of those private students who succeed in obtaining the School certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those circles, in which the non-stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students. The Conservators concerned will, for this purpose, be furnished with the original certificates already referred to in clause (i) of this rule, the School certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish.

(xi) A list of private students, who may not succeed in obtaining appointments will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Darbárs, Conservators, and other persons likely to be in need of the services of trained forest officials.

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various circles, and even a stipendiary student has no claim to such appointment.

13. *Candidates in the Government Service*, who may be deputed to the School, will ordinarily be either—

(*a*) members of the Provincial Service (Forest Rangers) who desire to qualify themselves for further promotion in their own or to a higher class; or

(*b*) members of the Subordinate Service (Foresters and other subordinate officials) similarly desirous of qualifying for promotion.

(i) Forest Rangers may be deputed by Local Governments, provided the candidates are certified, by the Conservator under whom they are serving, to possess sufficient knowledge of English and General education and ability to enable them to profit by the course. Such officers may be above 25 years of age, and need not pass the entrance examination. While at the School they will draw the pay of their grade and the travelling allowances to which they may be entitled under the Civil Service Regulations.

(ii) Officers of the Subordinate Service may be deputed by Local Governments, provided that—

(*a*) they have been in that service for not less than three years;

(*b*) they have passed the School entrance examination;

(*c*) they are under 25 years of age;

(*d*) they have executed the formal agreement referred to in Rule 17.

Such officers will, while at the School, draw the pay and travelling allowances of their grade in the service; provided that the total amount sanctioned to meet the cost of their training, inclusive of travelling expenses, shall not be less than Rs. 735 in the case of students living in the native style, and Rs. 945 in the case of students living in European fashion (*vide* Rule 21).

14. *Students deputed by Native States* may be admitted on the request of the State concerned; provided that—

(*a*) they have passed the entrance examination of the School;

(*b*) they have produced the certificates required for admission, specified in Rule 12 (i).

The Darbárs of Native States sending students to the School shall, before the beginning of each term, or of each year if preferred, deposit with the Director a sum sufficient to meet the expenses of the students. This sum, for the whole course, must not be less than Rs. 735 for students living in native fashion, and Rs. 945 for those living in European fashion (*vide* Rule 21).

B.—Lower Class.

15. There are also three categories of students in Lower Class—

(*a*) Private students.

(*b*) Students in Government service.

(*c*) Students deputed by Native States.

The rules for admission to the Lower Class are the same as those detailed in Rules 12, 13 and 14 for admission to the Upper Class, with the following exceptions :—

(i) Instead of the Entrance Examination, the candidate must furnish a certificate of having passed the Middle Class Examination in the North-Western Provinces and Oudh, or an equivalent standard in another province, as well as a certificate that he possesses a competent knowledge of Hindustáni.

(ii) The cost of training will not be less than Rs. 588 (*vide* Rule 21) for the whole course of 21 months.

(iii) The required deposit will be Rs. 84, and the caution-money Rs. 25.

C.—General.

16. No student of European or Eurasian extraction, not already in the permanent employment of Government or of a Native State, shall be admitted into the Forest School if he is married; nor shall any such student, whether in the permanent employment of Government or of a Native State or not, marry whilst at the School or until he has joined a permanent appointment. A breach of this rule will render the student liable to dismissal from the School, or to forfeiture of any appointment in the Forest Service which may have been promised to him, or to which he may otherwise have a claim.

17. *Agreement and Security Bond.*—Officers of the Subordinate Service, deputed to the School by Local Governments under Rules 13 (ii), 15, shall execute a formal agreement—the sureties for the fulfilment of which should be men of position and means—to continue in the Forest Service of the Local Government concerned for a period of not less than five years after passing out of the Forest School, and on such rates of pay as may be in accordance with the existing organisation of the Department. A breach of this condition will render the defaulter and his sureties liable for the refund of the entire cost of the student's education at the School. The agreement and security bond shall be in the appended forms, and must be executed before the student is admitted to the School. The agreement will be signed by the student and, if he is a minor, by his father or guardian also; the bond by the student and two sureties. The amount of security to be taken will be—

		Rs.
For a Lower Class Student	... ...	600
" an Upper Class Student { Native	... ...	750
" an Upper Class Student { European	... ...	1,000

The agreement and security bond need not be stamped.

The same rule shall apply to private students who may be granted stipends under Rule 12 (ix), subject, however, to the proviso of Rule 12 (xii). Should any such student not be appointed to the Forest Service of Government at the end of his School course, his agreement and security bond will be returned to him.

18. *Uniform, book, and camp allowances.*—The Director is authorised to make deductions from the pay of Forest Ranger students under Rule 13 (i), or of students of the Subordinate Service under Rules 13 (ii) and 15, or from the stipends of private students under Rules 12 (ix) and 15, to the following amounts :—

		Rs.		Rs.
Lower Class Students	... ...	4 monthly, or		84 in all
Upper Class Students { Native	...	6 "	"	126 "
Upper Class Students { European	...	8 "	"	168 "

in order to meet the following items of initial expenditure, *viz* :—

	Upper Class.		Lower Class.
	Native.	European.	
	Rs.	Rs.	Rs.
Uniform and equipment	20	50	20
Books and instruments	60	60	24
Camp outfit	46	58	40
Total ...	126	168	84

The Director will charge off in his accounts such portions of the above as may be necessary from time to time to meet expenditure on the items mentioned, until the whole of the amounts are exhausted, after which the student will be required to pay in cash for articles supplied.

19. *Travelling allowances of private students in receipt of stipends.*—Students holding stipends from Local Governments under Rule 12 (ix) are not entitled to travelling allowance; but, as the tours entail greater expenditure in some months than in others, the Director is authorised to make a further monthly deduction from their stipends, of Rs. 5 from Upper Class Native students and Rs. 7 from Upper Class Europeans students, and to disburse the amounts in the following manner:—

		Native Students.	European Students.
		Rs.	Rs.
Monthly travelling allowances	November-May, 1st year; November-March, 2nd year	4	8
	Or for 12 months ...	48	96
Special additional allowance for Hill tour		22	16
" " for Punjab tour		35	35
	TOTAL ...	105	147

20. Should the Conservator of a Circle from which any Government student of the Subordinate Service is deputed to the School, under Rule 13 (ii), prefer it, he can, subject to the orders of his Government, authorise the Director to pay travelling allowance to such student at the rates given in Rule 19, instead of at the rates allowed by the Civil Service Regulations. And in the case of Lower Class Government students, deputed to the School under Rule 15, he may similarly authorise the payment of travelling allowance at the following rates, instead of the rates permissible under the Civil Service Regulations:—

	Rs.
Monthly travelling allowance at Rs. 4	48
Special hill tour allowance	16
" Punjab tour allowance	20
TOTAL ...	84

which rates are equivalent to a permanent travelling allowance of Rs. 4 per month for the whole course.

21. *Estimated expense of training.*—It has been calculated that, in addition to the amounts specified in Rule 18 for cost of uniform, books, &c., and camp-equipment, and in Rules 19 and 20 for travelling, the minimum monthly subsistence money for students comes to Rs. 20, 24, 30, respectively; so that the minimum pay and travellling allowances of Government students under Rule 13 (ii), and the minimum stipends for stipendiary students under Rule 12 (ix), should not be less than Rs. 35 and Rs. 45, respectively, nor should the minimum pay and travelling allowances of Lower Class students (Rule 15) be less than Rs. 28. Thus, the minimum cost of training will be as follows:—

	Lower Class.	Upper Class. Native.	Upper Class. European.
	Rs.	Rs.	Rs.
Subsistence money	20	24	30
Uniform, books and camp outfit	4	6	8
Travellng allowance	4	5	7
TOTAL PER MENSEM ...	28	35	45
Or for the 21 months of the course ...	588	735	945

The same amounts should be taken as minima in calculating the allowances to be deposited on account of students from Native States under Rules 14 and 15, or provided by parents and guardians for the cost of training of private students.

Section III.—Disciplinary Rules.

22. *Quarters.*—The Director will allot to students, on their arrival in Dehra, such quarters as may be available in the School buildings or in the houses rented by him for students' accommodation. The School quarters are tenable during the whole period of the students' course, and the rent is Rs. 2 monthly for each student, or Rs. 4 for each room. Students for whom there is no accommodation in quarters or in houses rented by the Director, or who may prefer it, can, with the permission of the Director, reside in the town in lodgings selected by themselves; but in that case the Director will accept no responsibility for the rent.

All students, living in quarters or in the rented houses, are expected to abide by such orders as the Director may issue from to time to time for the purpose of ensuring cleanliness and sanitation.

No dogs are allowed in quarters, nor may dogs or horses be brought inside the School grounds.

Breakages of furniture, &c., in the quarters or School buildings must be paid for by the students. Students are responsible for the acts of their servants.

23. *Uniform.*—All students must wear the School uniform, which consists of a suit of khâki drill with white-metal buttons, and a grey turban of prescribed pattern, for the hot weather, and of khâki serge with similar buttons for the cold weather and camp. Those students who become members of the Dehra Dun Mounted Rifles are, however, permitted to wear the undress uniform of the corps, which also consists of a suit of khâki drill, of pattern similar to that of the School. Students who are Volunteers will wear, as head-dress, a brown shikar hat while at the School and the regular corps helmet when on parade. Native students may dispense with turbans or wear other head-dress, only with the Director's special permission. Uniform must always be worn inside the School building. It must also be worn in the School grounds up to 5 P.M.

24. *Uniform and Camp Equipment.*—The uniform of members of the Dehra Dun Mounted Rifles may be obtained through the corps staff; that of other students through the Store-keeper of the School, on the Director's order. As camp equipment each student requires—

(1) A small tent, not larger than 10 feet × 8 feet.

(2) A camp bed.

(3) A small camp table.

(4) A camp chair or "morah."

These articles are made at the School and issued at cost price to students.

25. *Books and Instruments.*—The list of books and instruments required by each student will be published by the Director from time to time. The articles must be purchased from the Director, who endeavours to obtain them of the best quality procurable, consistent with cheapness. No article will, however, be issued by the Store-keeper, except (*a*) on order of the Director, or (*b*) on cash payment.

Copies of the Forest Acts and Forest Code, as also surveying instruments and herbarium presses, are issued on loan, and students using them will be responsible for their safe custody and return.

26. *Leave.*—During the course of instruction, no student may leave Dehra without the written order of the Director. Nor may students, while in camp, leave the camp head-quarters without the written order of the Deputy Director or the Instructor in charge. Subsidiary rules regarding leave will be made by the Director from time to tim.

27. *Holidays*—During the rains term, Saturday will usually be observed as a holiday or devoted to excursions. In camp, it will ordinarily be a half-holiday. Such of the usual gazetted holidays as are allowed will be notified as such from time to time.

28. *Punishments.*—Students are liable to the following punishments:—

(1) Reprimand by the teacher in class.

(2) Reprimand by the Director or the Deputy Director at any time.

(3) Reprimand before a meeting, convened by the Director, of not less than three School officers, one of whom must be either the Director or the Deputy Director. The proceedings of the meeting will be reported to the Conservator or the Native State deputing the student, or to his parents or guardians if he is a private student; and, if the meeting so decides, a note of them will be made on his final certificate.

(4) The Director, acting with the consensus of the meeting referred to under (3), has power to inflict, in addition, a fine to the extent of one-third of the salary or allowances of the student for a period not exceeding three months.

(5) The Director, acting with the consensus of a full meeting of the School officers presided over by himself, has power to dismiss any student for misconduct; and a student thus dismissed cannot be re-admitted to the School. The Director may remand any student who in his opinion is not sufficiently promising.

29. *Monthly Reports.*—A progress report on the work of each student will be issued monthly by the Director. It will record the number of marks obtained by the student at the last monthly examination, his application to his studies, and his conduct generally. It will be sent, for Government students or private students in receipt of stipends, to the Conservator of the Circle from which the student is deputed; for Native State students to such person as the Darbár may direct; and for ordinary private students, to the parent or guardian concerned.

30. *Library.*—The books in the School Library are available for the use of students under such rules as the Director may make from time to time. Books of reference must be consulted in the library itself, and no books may be taken away except after application to the librarian and entry in a register.

31. *Museum.*—The Museum and Herbarium are also available for the use of students; but the objects in the museum may not be handled or removed without the express permission of the Director or the Deputy Director. Permission to consult the herbarium may be obtained from the Director or the Deputy Director, but the plants must be kept in their order as arranged, and no sheets removed or altered without permission.

32. *Athletic Sports.*—The gymnasium and the tennis-courts will be available for the use of students during all recreation hours on week-days. Cricket and football may be played on the old parade ground. Students are recommended to join the School Athletic Club, the subscription to which is Rs. 4 yearly, and half-rates for those who do not play all the games.

Forms of Agreement and Bond to be executed by students already in the service of, or in receipt of stipends from, Government previous to entry into the Forest School, Dehra Dun.

FOREST DEPARTMENT.

[Second publication.]

The 5th August 1893.

No. 417.—*Notification.*—The following Rules to regulate the constitution of, admission to, and studies and discipline at, the Imperial Forest School, Dehra Dún, are published for general information. The rules came into force with effect from the 1st July 1893 :—

RULES TO REGULATE THE CONSTITUTION OF, ADMISSION TO, AND STUDIES AND DISCIPLINE AT, THE IMPERIAL FOREST SCHOOL, DEHRA DUN.

Section I.—Constitution and Studies.

1. The School is under the administrative control of the Inspector-General of Forests, who is assisted by a Board consisting of—

1. The Inspector-General of Forests, *President* ;
2. The Director of Public Instruction, North-Western Provinces and Oudh ;
3. The Director of the School ;
4. One Conservator from each province (not more than three serving in any given year) ;

with, as *Secretary*, the Assistant Inspector-General of Forests.

2. The Superior Staff of the School consists of—

1. The Director,
2. The Deputy Director,
3. & 4. Two Instructors,
5. The Vernacular Instructor,

} assisted by the Forest Officers of the School Circle, North-Western Provinces.

The Conservator of Forests, School Circle, North-Western Provinces, will ordinarily be Director of the School. The Deputy Director and two Instructors are officers of the Indian Forest Service on the Imperial List. The Vernacular Instructor is an officer of the Provincial Forest Service, also on the Imperial List.

3. The Director of the School is charged with (1) the general administration of the institution, including the regulation of the course of study under the arrangements prescribed by the Board of Control, subject to the sanction of the Government of India; (2) the supervision of the School buildings, quarters and gardens ; (3) the control of the accounts, and the conduct of correspondence.

4. *Courses.*—There are two courses,—one in English, the other in the Hindustani language. Each course lasts 21 months. The English course is that followed by the "Upper Class ;" the Hindustani course that followed by the "Lower Class." The first year's students are called "Juniors ;" the second year's students "Seniors." In the English course students are prepared for the certificate in Forestry by the "Higher Standard ;" in the Hindustani course for that by the "Lower Standard."

The subjects taught in these courses are the following, described in the School syllabuses :—

1. Forestry, including Sylviculture, Utilisation and Forest Working-Plans ; both theoretical and practical.
2. Mathematics—elementary Arithmetic, Algebra, Trigonometry, and Mechanics ; in their application to forest questions.
3. Physical Science, including Chemistry, Physics, Physiography, Geology, Mineralogy and Soils.

4. Botany, both theoretical and practical, including the collection and preservation of plants.

5. Zoology—the classification of animals and the study of useful and dangerous species, especially of insects, including the collection and preservation of specimens.

6. Drawing, Surveying and Estimating, as required for Forest Officers.

7. Forest Engineering, theoretical and practical.

8. Forest Law, the elements of Criminal Law and departmental organisation.

9. Forest Accounts and Procedure.

5 *Terms.*—The terms of study are as follows :—

1st year	Rains term—July 1st to October 31st, in Dehra Dún. Winter term—November 1st to December 22nd, in camp. Vacation—December 23rd to January 5th. Spring term—January 6th to March 31st, in camp. Hill tour term—April 1st to May 31st, in camp. Vacation—June 1st to 30th.
2nd year	Rains term—July 1st to October 31st, in Dehra Dún. Winter term—November 1st to December 22nd, in camp. Vacation—December 23rd to January 5th. Spring term—January 6th to February 15th, in camp. Examinations, including survey test—February 16th to March 31st.

6. *Examinations.*—The School Examinations are—

1. Monthly, to test progress and application.
2. Final.

The *Monthly Examinations* are usually held on the last two working days of each month, as the Director may order. The marks obtained at these examinations are counted for one-fourth of the aggregate at the Final.

The *Final Examinations* are held in March of the second year, and the marks then obtained count for three-fourths of the aggregate.

7. *Certificates.*—There are two certificates obtainable in each class after the final examinations,—a "pass" certificate and a "honors" certificate. The former is granted to students who obtain over 50 per cent. of the aggregate marks allotted to all subjects, provided this includes 50 per cent. of the marks allowed for each of the subjects of Forestry, Botany, Surveying, and Engineering. The latter is granted to students who obtain over 75 per cent. of the aggregate marks allotted to all subjects, including over 50 per cent. in each individual subject. These certificates are only granted on the orders of the Board of Control, who have authority to exercise their discretion in doubtful cases.

8. *Prizes.*—The School medals are awarded by order of the Board of Control, but only if "honor" marks (75 per cent.) have been obtained. Other prizes, whether given by Government or other donors, are also awarded by the Board of Control.

9. Should any student of the three categories enumerated in Rule 11 be unable (*a*) to appear at the final examinations, or, having appeared, (*b*) fail to pass those examinations, he will not be permitted to appear at any subsequent final examination unless he follows a second time the whole course of instruction at the School, or, at the discretion of the Director, the second year's course.

Section II.—Admission Rules.

10. The total number of students of each class who can be admitted into the School each year will be limited to such number as the Board of Control may decide, from time to time, can be accommodated in the school. The number of studentships to be allotted each year to the respective Provinces, as well as the number of nominations to be made by the Director, will, with due regard to the total prescribed by the Board of Control, be decided by the Director of the School before the 1st of January, after consultation with the Provincial authorities as to their requirements, and communicated to the Local Governments concerned.

A.—Upper Class.

11. There are three categories of students in the Upper Class—

(1) Private Students.

(2) Students already in the Government service.

(3) Students deputed by Native States.

12. *Private Students* comprise all those students who are at present without appointments in any Forest Service, and whose object it is, by becoming possessors of Forest School certificates, to obtain employment, either in the Forest Service of the Government of India, or in that of a Native State or some other owner of forest property.

(i) Candidates for admission to the Forest School as private students must not be less than 18 or more than 25 years of age, and their applications must be sent to a Conservator of Forests* through a Divisional Forest Officer of rank not below that of an Assistant Conservator of the 1st Grade, or through a Collector or other district officer. Neither the Conservator, the Divisional Forest Officer, nor the Collector need belong to the forest circle or province in which the candidate seeks employment; but Divisional Forest Officers and Collectors may not forward to Conservators applications unsupported by the five certificates enumerated below, namely,—

* Conservator of Forests, Bengal Circle, at Darjeeling.
Conservator of Forests, Assam Circle, at Shillong.
Conservators of Forests, North-Western Provinces and Oudh—
School Circle, at Dehra Dún.
Central Circle, at Naini Tal.
Oudh Circle, at Naini Tal.
Conservators of Forests, Central Provinces—
Southern Circle, at Nagpur.
Northern Circle at Jabalpur.
Conservator of Forests, Berar Circle, at Amraoti.
Conservator of Forests, Punjab Circle, at Lahore.
Conservators of Forests, Upper Burma—
Eastern Circle at Mandalay.
Western Circle, at Mandalay.
Conservators of Forests, Lower Burma—
Pegu Circle, at Rangoon.
Tenasserim Circle, at Moulmein.
Conservators of Forests, Madras Presidency—
Northern Circle, at Bezvada.
Central Circle, at Madras
Southern Circle, at Coimbatore.

(*a*) A certificate that the candidate is a "Native of India," within the meaning† assigned to those words by section 6 of 33 Vict., Cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate, in the form prescribed by Article 61 of the Civil Service Regulations, signed by the Civil Surgeon of the district in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough out-door life in the Forest Department.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliableness.

(*e*) A certificate from an officer of the Educational Department, of a rank not less then that of a Deputy Inspector of Schools or the Head Master of a High School under public management, to the effect that the candidate's education appears sufficiently good to give hopes of his being able to pass the entrance examination.

The last three certificates must bear date not further back than the 1st October of the year preceding that in which the candidate proposes to present himself at the entrance examination.

If any person, giving certificates as above under (*c*), (*d*) and (*e*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(ii) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that officer may either accept or reject the application, without assigning any reason for so doing; or he may require the candidate to produce other or better certificates in person before him.

† 'Native of India' means any person born and domiciled within the dominions of Her Majesty in India, or within the territories of Indian Princes tributary to or in alliance with Her Majesty, of parents habitually resident in India, and not established there for temporary purposes only (Article 45, Civil Service Regulations).

(iii) Conservators may, at their option, test the fitness of a candidate who desires to enter the service of Government by practical work in the forests.

(iv) Those candidates who have been approved by the Conservator will be permitted, under his recommendation, to appear at the next entrance examination for the Forest School held in his circle.

(v) The *Extrance Examination* is held early in March each year, on such date as may be fixed by the Director, both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such officers, Educational, Revenue, Forest or other, as may be appointed : provided that the date shall be communicated by the Director to Local Governments and Conservators on or before 1st January. The subjects of examination are—

		Minima pass marks.
1. English	Conversation	50 per cent.
	Composition	33 "
2. Arithmetic		40 "
3. Algebra, up to and including quadratic equations ...		40 "
4. Elements of Euclid, Books I to IV and Book VI ...		25 "
5. Mensuration—lengths, areas and volumes, with examples		25 "

The examination papers on the above subjects will be forwarded by the Director, in sealed covers, to such officials as the Local Governments may direct, in the month preceding the examination.

(vi) A Local Government may lay down rules under which the number of candidates allotted, under Rule 10, to the Province for admission into the School shall be selected from the number of passed candidates. In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list: provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard.

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard, at any University in India or in the United Kingdom or in a British Colony, or at any educational institution to which the Government of India may extend the privilege : provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination and who may appear more eligible for the Forest Service.

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the school. These expenses are estimated to be not less than Rs. 735 for each student living in native fashion, and Rs. 945 in the case of those living in European fashion (*vide* Rule 21). Of these sums, parents or guardians must deposit with the Director, before the course commences, a sum of Rs. 126 in the case of native students and Rs. 168 in the case of European students, to meet the initial cost of uniform, books, instruments, stationery and camp-equipage (*vide* Rule 18), and, in addition, Rs. 50 as caution-money.

(ix) Local Governments may, on the recommendation of a Conservator or of the Director, and in exceptional cases, allow selected private students who have passed the entrance examination a monthly stipend not exceeding Rs. 50, to assist them through the School course : provided that such selected private students previously execute an agreement binding themselves to serve the Local Government concerned (in the event of their obtaining the School certificate) for a period of not less than five years (*vide* Rule 17). Such monthly stipend may, in case of misconduct or unsatisfactory progress at the School, be reduced or altogether withdrawn at the discretion of the Director.

(x) The names of those private students who succeed in obtaining the School certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those circles, in which the non-stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students. The Conservators concerned will, for this purpose, be furnished with the original certificates already referred to in clause (i) of this rule, the School certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish.

(xi) A list of private students, who may not succeed in obtaining appointments will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Darbárs, Conservators, and other persons likely to be in need of the services of trained forest officials.

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various circles, and even a stipendiary student has no claim to such appointment.

13. *Candidates in the Government Service*, who may be deputed to the School, will ordinarily be either—

(*a*) members of the Provincial Service (Forest Rangers) who desire to qualify themselves for further promotion in their own or to a higher class; or

(*b*) members of the Subordinate Service (Foresters and other subordinate officials) similarly desirous of qualifying for promotion.

(i) Forest Rangers may be deputed by Local Governments, provided the candidates are certified, by the Conservator under whom they are serving, to possess sufficient knowledge of English and General education and ability to enable them to profit by the course. Such officers may be above 25 years of age, and need not pass the entrance examination. While at the School they will draw the pay of their grade and the travelling allowances to which they may be entitled under the Civil Service Regulations.

(ii) Officers of the Subordinate Service may be deputed by Local Governments, provided that—

(*a*) they have been in that service for not less than three years;

(*b*) they have passed the School entrance examination;

(*c*) they are under 25 years of age;

(*d*) they have executed the formal agreement referred to in Rule 17.

Such officers will, while at the School, draw the pay and travelling allowances of their grade in the service; provided that the total amount sanctioned to meet the cost of their training, inclusive of travelling expenses, shall not be less than Rs. 735 in the case of students living in the native style, and Rs. 945 in the case of students living in European fashion (*vide* Rule 21).

14. *Students deputed by Native States* may be admitted on the request of the State concerned; provided that—

(*a*) they have passed the entrance examination of the School;

(*b*) they have produced the certificates required for admission, specified in Rule 12 (i).

The Darbárs of Native States sending students to the School shall, before the beginning of each term, or of each year if preferred, deposit with the Director a sum sufficient to meet the expenses of the students. This sum, for the whole course, must not be less than Rs. 735 for students living in native fashion, and Rs. 945 for those living in European fashion (*vide* Rule 21).

B.—Lower Class.

15. There are also three categories of students in Lower Class—

(*a*) Private students.

(*b*) Students in Government service.

(*c*) Students deputed by Native States.

The rules for admission to the Lower Class are the same as those detailed in Rules 12, 13 and 14 for admission to the Upper Class, with the following exceptions:—

(i) Instead of the Entrance Examination, the candidate must furnish a certificate of having passed the Middle Class Examination in the North-Western Provinces and Oudh, or an equivalent standard in another province, as well as a certificate that he possesses a competent knowledge of Hindustáni.

(ii) The cost of training will not be less than Rs. 588 (*vide* Rule 21) for the whole course of 21 months.

(iii) The required deposit will be Rs. 84, and the caution-money Rs. 25.

C.—General.

16. No student of European or Eurasian extraction, not already in the permanent employment of Government or of a Native State, shall be admitted into the Forest School if he is married; nor shall any such student, whether in the permanent employment of Government or of a Native State or not, marry whilst at the School or until he has joined a permanent appointment. A breach of this rule will render the student liable to dismissal from the School, or to forfeiture of any appointment in the Forest Service which may have been promised to him, or to which he may otherwise have a claim.

17. *Agreement and Security Bond.*—Officers of the Subordinate Service, deputed to the School by Local Governments under Rules 13 (ii), 15, shall execute a formal agreement—the sureties for the fulfilment of which should be men of position and means—to continue in the Forest Service of the Local Government concerned for a period of not less than five years after passing out of the Forest School, and on such rates of pay as may be in accordance with the existing organisation of the Department. A breach of this condition will render the defaulter and his sureties liable for the refund of the entire cost of the student's education at the School. The agreement and security bond shall be in the appended forms, and must be executed before the student is admitted to the School. The agreement will be signed by the student and, if he is a minor, by his father or guardian also; the bond by the student and two sureties. The amount of security to be taken will be—

		Rs.
For a Lower Class Student	... ...	600
" an Upper Class Student	Native	750
	European	1,000

The agreement and security bond need not be stamped.

The same rule shall apply to private students who may be granted stipends under Rule 12 (ix), subject, however, to the proviso of Rule 12 (xii). Should any such student not be appointed to the Forest Service of Government at the end of his School course, his agreement and security bond will be returned to him.

18. *Uniform, book, and camp allowances.*—The Director is authorised to make deductions from the pay of Forest Ranger students under Rule 13 (i), or of students of the Subordinate Service under Rules 13 (ii) and 15, or from the stipends of private students under Rules 12 (ix) and 15, to the following amounts:—

		Rs.		Rs.
Lower Class Students	... ...	4 monthly, or		84 in all
Upper Class Students	Native ...	6 "	"	126 "
	European ...	8 "	"	168 "

in order to meet the following items of initial expenditure, *viz*:—

	Upper Class. Native.	Upper Class. European.	Lower Class.
	Rs.	Rs.	Rs.
Uniform and equipment	20	50	20
Books and instruments	60	60	24
Camp outfit	46	58	40
Total ...	126	168	84

The Director will charge off in his accounts such portions of the above as may be necessary from time to time to meet expenditure on the items mentioned, until the whole of the amounts are exhausted, after which the student will be required to pay in cash for articles supplied.

19. *Travelling allowances of private students in receipt of stipends.*—Students holding stipends from Local Governments under Rule 12 (ix) are not entitled to travelling allowance; but, as the tours entail greater expenditure in some months than in others, the Director is authorised to make a further monthly deduction from their stipends, of Rs. 5 from Upper Class Native students and Rs. 7 from Upper Class Europeans students, and to disburse the amounts in the following manner:—

		Native Students.	European Students.
		Rs.	Rs.
Monthly travelling allowances	November-May, 1st year November-March, 2nd year	4	8
	Or for 12 months ...	48	96
Special additional allowance for Hill tour		22	16
" " for Punjab tour		35	35
	TOTAL ...	105	147

20. Should the Conservator of a Circle from which any Government student of the Subordinate Service is deputed to the School, under Rule 13 (ii), prefer it, he can, subject to the orders of his Government, authorise the Director to pay travelling allowance to such student at the rates given in Rule 19, instead of at the rates allowed by the Civil Service Regulations. And in the case of Lower Class Government students, deputed to the School under Rule 15, he may similarly authorise the payment of travelling allowance at the following rates, instead of the rates permissible under the Civil Service Regulations:—

	Rs.
Monthly travelling allowance at Rs. 4	48
Special hill tour allowance	16
" Punjab tour allowance	20
TOTAL ...	84

which rates are equivalent to a permanent travelling allowance of Rs. 4 per month for the whole course.

21. *Estimated expense of training.*—It has been calculated that, in addition to the amounts specified in Rule 18 for cost of uniform, books, &c., and camp-equipment, and in Rules 19 and 20 for travelling, the minimum monthly subsistence money for students comes to Rs. 20, 24, 30, respectively; so that the minimum pay and travellling allowances of Government students under Rule 13 (ii), and the minimum stipends for stipendiary students under Rule 12 (ix), should not be less than Rs. 35 and Rs. 45, respectively, nor should the minimum pay and travelling allowances of Lower Class students (Rule 15) be less than Rs. 28. Thus, the minimum cost of training will be as follows:—

	Lower Class.	Upper Class.	
		Native.	European.
	Rs.	Rs.	Rs.
Subsistence money	20	24	30
Uniform, books and camp outfit	4	6	8
Travelling allowance	4	5	7
TOTAL PER MENSEM ...	28	35	45
Or for the 21 months of the course ...	588	735	945

The same amounts should be taken as minima in calculating the allowances to be deposited on account of students from Native States under Rules 14 and 15, or provided by parents and guardians for the cost of training of private students.

Section III.—Disciplinary Rules.

22. *Quarters.*—The Director will allot to students, on their arrival in Dehra, such quarters as may be available in the School buildings or in the houses rented by him for students' accommodation. The School quarters are tenable during the whole period of the students' course, and the rent is Rs. 2 monthly for each student, or Rs. 4 for each room. Students for whom there is no accommodation in quarters or in houses rented by the Director, or who may prefer it, can, with the permission of the Director, reside in the town in lodgings selected by themselves; but in that case the Director will accept no responsibility for the rent.

All students, living in quarters or in the rented houses, are expected to abide by such orders as the Director may issue from time to time for the purpose of ensuring cleanliness and sanitation.

No dogs are allowed in quarters, nor may dogs or horses be brought inside the School grounds.

Breakages of furniture, &c., in the quarters or School buildings must be paid for by the students. Students are responsible for the acts of their servants.

23. *Uniform*—All students must wear the School uniform, which consists of a suit of khâki drill with white-metal buttons, and a grey turban of prescribed pattern, for the hot weather, and of khâki serge with similar buttons for the cold weather and camp. Those students who become members of the Dehra Dún Mounted Rifles are, however, permitted to wear the undress uniform of the corps, which also consists of a suit of khâki drill, of pattern similar to that of the School. Students who are Volunteers will wear, as head-dress, a brown shikar hat while at the School and the regular corps helmet when on parade. Native students may dispense with turbans or wear other head-dress, only with the Director's special permission. Uniform must always be worn inside the School building. It must also be worn in the School grounds up to 5 P.M.

24. *Uniform and Camp Equipment.*—The uniform of members of the Dehra Dún Mounted Rifles may be obtained through the corps staff; that of other students through the Store-keeper of the School, on the Director's order. As camp equipment each student requires—

(1) A small tent, not larger than 10 feet × 8 feet.

(2) A camp bed.

(3) A small camp table.

(4) A camp chair or "morah."

These articles are made at the School and issued at cost price to students.

25. *Books and Instruments.*—The list of books and instruments required by each student will be published by the Director from time to time. The articles must be purchased from the Director, who endeavours to obtain them of the best quality procurable, consistent with cheapness. No article will, however, be issued by the Store-keeper, except (*a*) on order of the Director, or (*b*) on cash payment.

Copies of the Forest Acts and Forest Code, as also surveying instruments and herbarium presses, are issued on loan, and students using them will be responsible for their safe custody and return.

26. *Leave.*—During the course of instruction, no student may leave Dehra without the written order of the Director. Nor may students, while in camp, leave the camp headquarters without the written order of the Deputy Director or the Instructor in charge. Subsidiary rules regarding leave will be made by the Director from time to time.

27. *Holidays*—During the rains term, Saturday will usually be observed as a holiday or devoted to excursions. In camp, it will ordinarily be a half-holiday. Such of the usual gazetted holidays as are allowed will be notified as such from time to time.

28. *Punishments.*—Students are liable to the following punishments :—

(1) Reprimand by the teacher in class.

(2) Reprimand by the Director or the Deputy Director at any time.

(3) Reprimand before a meeting, convened by the Director, of not less than three School officers, one of whom must be either the Director or the Deputy Director. The proceedings of the meeting will be reported to the Conservator or the Native State deputing the student, or to his parents or guardians if he is a private student ; and, if the meeting so decides, a note of them will be made on his final certificate.

(4) The Director, acting with the consensus of the meeting referred to under (3), has power to inflict, in addition, a fine to the extent of one-third of the salary or allowances of the student for a period not exceeding three months.

(5) The Director, acting with the consensus of a full meeting of the School officers presided over by himself, has power to dismiss any student for misconduct; and a student thus dismissed cannot be re-admitted to the School. The Director may remand any student who in his opinion is not sufficiently promising.

29. *Monthly Reports.*—A progress report on the work of each student will be issued monthly by the Director. It will record the number of marks obtained by the student at the last monthly examination, his application to his studies, and his conduct generally. It will be sent, for Government students or private students in receipt of stipends, to the Conservator of the Circle from which the student is deputed ; for Native State students to such person as the Darbár may direct ; and for ordinary private students, to the parent or guardian concerned.

30. *Library.*—The books in the School Library are available for the use of students under such rules as the Director may make from time to time. Books of reference must be consulted in the library itself, and no books may be taken away except after application to the librarian and entry in a register.

31. *Museum.*—The Museum and Herbarium are also available for the use of students ; but the objects in the museum may not be handled or removed without the express permission of the Director or the Deputy Director. Permission to consult the herbarium may be obtained from the Director or the Deputy Director, but the plants must be kept in their order as arranged, and no sheets removed or altered without permission.

32. *Athletic Sports.*—The gymnasium and the tennis-courts will be available for the use of students during all recreation hours on week-days. Cricket and football may be played on the old parade ground. Students are recommended to join the School Athletic Club, the subscription to which is Rs. 4 yearly, and half-rates for those who do not play all the games.

Forms of Agreement and Bond to be executed by students already in the service of, or in receipt of stipends from, Government previous to entry into the Forest School, Dehra Dún.

For the Examination for Honours in GERMAN two papers shall be set, which shall be given on the morning and afternoon of Wednesday in the week following that in which the examination commences.[1]

Candidates for Honours in MATHEMATICS shall be examined in the following subjects :—

- Algebra.
- Theory of Equations.
- Plane Trigonometry.
- Spherical Trigonometry.
- Pure and Co-ordinate Geometry of two Dimensions, up to and including the properties of the Conic Sections.
- Differential Calculus.
- Integral Calculus.
- Statics of Material Particles, of Rigid Bodies, of Flexible Cords and of Elastic Beams.
- Kinetics of Material Particles.
- Hydrostatics of Gravitating Fluids.

For this Examination four papers shall be set, of which two shall be given on Thursday in the first week of the Examination (at the same time as the Pass papers in Mathematics), and the other two on Thursday in the following week.

The Examination shall be conducted in the following order :—

Translation from Arabic or Sanskrit into English, with questions in Grammar.

IV.—MATHEMATICS.[5]

(*a*) PURE MATHEMATICS.

The subjects prescribed for the INTERMEDIATE PASS EXAMINATION (*see* page 422,) with the addition of the following :—

ALGEBRA—

Theory of Indices, Radicals and Surds.

Theory of Imaginary Quantities.

Binomial Theorem and its Applications.

Theory of Logarithms and Exponentials.

TRIGONOMETRY—

De Moivre's Theorem and its Applications.

Ordinary Formulæ connecting the Sides and Angles of Spherical Triangles.

Solution of the several cases of Spherical Triangles, including the determination of their Areas.

GEOMETRY—

Theory of Harmonic Section and its Applications.

Central and Focal Properties of Conics by Pure and by Co-ordinate Geometry.

Theory of Poles and Polars with respect to Conics.

---

[1] The periods of GREEK History for 1894 will be—
From 404 B. C. to 338 B. C.

[2] Candidates can obtain credit for only *one* of these languages.

[3] The ENGLISH subjects for 1894 will be—

* Undergraduates *only* may obtain this book at a greatly reduced price on i d d ual application to the Society's Printers, Messrs. Clay & Sons, Bungay, Suffolk.

(b) MIXED MATHEMATICS.

DYNAMICS—

Composition Resolution, and Equilibrium of Forces acting at a Point.
Composition Resolution, and Equilibrium of Forces acting in a Plane.
Composition Resolution, and Equilibrium of Forces acting in Parallel lines.
Centres of Gravity of Rigid Bodies.
The Machanical Powers.
Nature, Intensity and Transmission of Pressure in Liquids.
Pressure of Liquids in Equilibrium under the action of Gravity.
Equilibrium of Solids floating or immersed in Gravitating Liquids.
Specific Gravities of Substances, Solid and Liquid.
Measures of Volocity, Acceleration and Force.
Acceleration of Masses under the action of Forces.
The laws of Rectilinear Motion.
Rectilinear Motion of Particles under the action of Gravity.
Composition and Resolution of Velocities and Accelerations.
Free Motion of Projectiles under the action of Gravity.
Circular Motion of Particles, Harmonic Vibrations and Centrifugal Force.
Vibrations of Simple Pendulums in small Circular Arcs.
Theory of Dynamical Work, Energy of Position and Energy of Motion.

ASTRONOMY[1]—

Points of Lines, Planes and Circles of the Celestial Sphere.
Phenomena depending on the Earth's Rotation round its Axis.
Phenomena depending on the Earth's Revolution round the Sun.
Phenomena depending on Change of Place on the Surface of the Earth.
Determination of Time and Place on the Surface of the Earth.
Determination of the Magnitude and of the Figure of the Earth.
Determination of the Distances of the Moon, Sun and Planets.
Kepler's Laws of Planetary Motion and their Consequences.
Refraction and Aberration as affecting Astronomical Observation.

V.—MENTAL AND MORAL SCIENCE.[2]

PSYCHOLOGY—

Scope and Method : General Analysis and Classfication of Mental Facts; Consciousness ; Self-conscious ; Attention.
Sensation and Movement ; the Senses ; Sense-perception.
Representative Imagination ; Memory ; Expectation ; Laws of Association.
Fundamental Process of Intellect.

A copy of the Government of Bengal Notification No. 9-T. G., dated the 2nd May 1893, is printed below for ready reference :

The University of London has acceded to the request of the Government of India that the Intermediate Examination in Arts and the B. A. Examination of the University may be held in Calcutta. These examinations begin each year on the third Monday in July and the fourth Monday in October respectively.

2. As it is necessary that applications for permission to appear at these examinations should reach the University of London four months before the date of the examination, candidates for examination must submit their applications to the Director of Public Instruction in the first week of January for the Intermediate Examination, and in the first week of April for the Bachelor's Degree Examination.

3. For each examination a fee of £5 (five pounds sterling) will be charged. Each applicant will be required to remit in the first week of June for the Intermediate Examination, and in the first week of September for the Bachelor's Degree Examination, the sum of Rs. 100 (one hundred rupees) to the Director of Public Instruction either by money-order or by a note or notes for that amount in a cover registered and insured, or to pay the said amount in person to the Director. The £5 (five pounds sterling) fee will subsequently be paid by Government to the University, and the difference between the sum of one hundred rupees and the equivalent of five pounds sterling at the current rate of exchange for postal money-orders, or such rate as may hereafter be determined, will be returned to the candidate.

DEPARTMENT OF REVENUE AND AGRICULTURE.

—

AGRICULTURE.

The 17th August 1893.

No. 121.—*Notification.*—The following Resolution of the Government of India regarding an International Exhibition to be held at Antwerp between the months of May and November 1894 is published for general information :—

No. $\frac{2634}{51}$.

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Museums and Exhibitions),—dated Simla, the 4th August 1893.

READ—

Letter, dated 21st June 1893, from the Consul-General for Belgium, Bombay, intimating that an International Exhibition will be held at Antwerp between the months of May and November 1894, and inviting the co-operation of the Government of India.

RESOLUTION.

THE Consul-General has been informed that the Governor-General in Council regrets that financial considerations prevent any extensive contributions being furnished by

the Government of India itself. Arrangements will, however, be made by the Reporter on Economic Products to contribute a collection of products either likely to be useful to Indo-Belgian trade or calculated to attract Belgian capital to India. A small grant of money will be allowed for the freight of this collection and of such articles as may be provided by private exhibitors and approved by the Reporter on Economic Products. The Inspector-General of Forests has also been instructed to arrange for a collection of forest products and timbers which are likely to find a demand on the Continent. As regards the representation of artware, one of the leading dealers in Indian art manufactures has been informed that if he is prepared to exhibit a collection of such manufactures the space required at the Exhibition will be provided at the cost of Government.

Mr. E. Thurston, Officiating Reporter on Economic Products, has been placed in charge of arrangements so far as the participation by the Government of India in the Exhibition is concerned. But the general conduct of arrangements for representation of Indian exhibitors will be undertaken by the Consul-General, Bombay, and by the Indian Consular Agents for Belgium at Calcutta, Bombay, Madras, Karáchi and Rangoon, and intending exhibitors should apply to them for any information which they may require.

ORDER.—Ordered, that the Resolution be published in the Supplement to the *Gazette of India* for general information, and that copies be forwarded to all Local Governments and Administrations, with a request that the above information regarding the Exhibition may be notified in the local Gazettes.

GENERAL.

The 7th August 1893.

No. 583 *A.—Powers.*—In exercise of the powers conferred by sub-sections (3) and (4) of Section 6 of the Punjab Land Revenue Act, 1887, the Hon'ble the Lieutenant-Governor is pleased to appoint, and hereby appoints, Lála Mangal Sen, Officiating Extra Assistant Commissioner, Peshávar, to be an Assistant Collector of the 1st Grade.

No. 583 *B.—Powers.*—In exercise of the powers conferred by clause (*b*) of sub-section (4) of Section 77 of the Punjab Tenancy Act, 1887, the Hon'ble the Lieutenant-Governor is pleased to specially empower, and hereby so empowers, Lála Mangal Sen, Officiating Extra Assistant Commissioner, Peshávar, an Assistant-Collector of the 1st Grade, to hear and determine the suits mentioned in the First Group in sub-section (3) of Section 77 of the said Act.

FOREST DEPARTMENT.

[Third publication.]

The 5th August 1893.

No. 417.—*Notification.*—The following Rules to regulate the constitution of, admission to, and studies and discipline at, the Imperial Forest School, Dehra Dún, are published for general information. The rules came into force with effect from the 1st July 1893 :—

RULES TO REGULATE THE CONSTITUTION OF, ADMISSION TO, AND STUDIES AND DISCIPLINE AT, THE IMPERIAL FOREST SCHOOL, DEHRA DUN.

Section I.—Constitution and Studies.

1. The School is under the administrative control of the Inspector-General of Forests, who is assisted by a Board consisting of—

1. The Inspector-General of Forests, *President ;*
2. The Director of Public Instruction, North-Western Provinces and Oudh ;
3. The Director of the School ;
4. One Conservator from each province (not more than three serving in any given year) ;

with, as *Secretary,* the Assistant Inspector-General of Forests.

2. The Superior Staff of the School consists of—

1. The Director,
2. The Deputy Director,
3. & 4. Two Instructors,
5. The Vernacular Instructor,

} assisted by the Forest Officers of the School Circle, North-Western Provinces.

The Conservator of Forests, School Circle, North-Western Provinces, will ordinarily be Director of the School. The Deputy Director and two Instructors are officers of the Indian Forest Service on the Imperial List. The Vernacular Instructor is an officer of the Provincial Forest Service, also on the Imperial List.

3. The Director of the School is charged with (1) the general administration of the institution, including the regulation of the course of study under the arrangements prescribed by the Board of Control, subject to the sanction of the Government of India; (2) the supervision of the School buildings, quarters and gardens ; (3) the control of the accounts, and the conduct of correspondence.

4. *Courses.*—There are two courses,—one in English, the other in the Hindustani language. Each course lasts 21 months. The English course is that followed by the "Upper Class" ; the Hindustani course that followed by the "Lower Class." The first year's students are called "Juniors" ; the second year's students "Seniors." In the English course students are prepared for the certificate in Forestry by the "Higher Standard" ; in the Hindustani course for that by the "Lower Standard."

The subjects taught in these courses are the following, described in the School syllabuses :—

1. Forestry, including Sylviculture, Utilisation and Forest Working-Plans ; both theoretical and practical.
2. Mathematics—elementary Arithmetic, Algebra, Trigonometry, and Mechanics ; in their application to forest questions.
3. Physical Science, including Chemistry, Physics, Physiography, Geology, Mineralogy and Soils.

4. Botany, both theoretical and practical, including the collection and preservation of plants.

5. Zoology—the classification of animals and the study of useful and dangerous species, especially of insects, including the collection and preservation of specimens.

6. Drawing, Surveying and Estimating, as required for Forest Officers.

7. Forest Engineering, theoretical and practical.

8. Forest Law, the elements of Criminal Law and departmental organisation.

9. Forest Accounts and Procedure.

5. *Terms.*—The terms of study are as follows :—

1st year	Rains term—July 1st to October 31st, in Dehra Dún. Winter term—November 1st to December 22nd, in camp. Vacation—December 23rd to January 5th. Spring term—January 6th to March 31st, in camp. Hill tour term—April 1st to May 31st, in camp. Vacation—June 1st to 30th.
2nd year	Rains term—July 1st to October 31st, in Dehra Dún. Winter term—November 1st to December 22nd, in camp. Vacation—December 23rd to January 5th. Spring term—January 6th to February 15th, in camp. Examinations, including survey test—February 16th to March 31st.

6. *Examinations.*—The School Examinations are—

1. Monthly, to test progress and application.

2. Final.

The *Monthly Examinations* are usually held on the last two working days of each month, as the Director may order. The marks obtained at these examinations are counted for one-fourth of the aggregate at the Final.

The *Final Examinations* are held in March of the second year, and the marks then obtained count for three-fourths of the aggregate.

7. *Certificates.*—There are two certificates obtainable in each class after the final examinations,—a "pass" certificate and a "honors" certificate. The former is granted to students who obtain over 50 per cent. of the aggregate marks allotted to all subjects, provided this includes 50 per cent. of the marks allowed for each of the subjects of Forestry, Botany, Surveying, and Engineering. The latter is granted to students who obtain over 75 per cent. of the aggregate marks allotted to all subjects, including over 50 per cent. in each individual subject. These certificates are only granted on the orders of the Board of Control, who have authority to exercise their discretion in doubtful cases.

8. *Prizes.*—The School medals are awarded by order of the Board of Control, but only if "honor" marks (75 per cent.) have been obtained. Other prizes, whether given by Government or other donors, are also awarded by the Board of Control.

9. Should any student of the three categorie s enumerated in Rule 11 be unable (a) to appear at the final examinations, or, having appeared, (b) fail to pass those examinations, he will not be permitted to appear at any subsequent final examination unless he follows a second time the whole course of instruction at the School, or, at the discretion of the Director, the second year's course.

Section II.—Admission Rules.

10. The total number of students of each class who can be admitted into the School each year will be limited to such number as the Board of Control may decide, from time to time, can be accommodated in the school. The number of studentships to be allotted each year to the respective Provinces, as well as the number of nominations to be made by the Director, will, with due regard to the total prescribed by the Board of Control, be decided by the Director of the School before the 1st of January, after consultation with the Provincial authorities as to their requirements, and communicated to the Local Governments concerned.

A.—Upper Class.

11 There are three categories of students in the Upper Class—

(1) Private Students.

(2) Students already in the Government service.

(3) Students deputed by Native States.

12. *Private Students* comprise all those students who are at present without appointments in any Forest Service, and whose object it is, by becoming possessors of Forest School certificates, to obtain employment, either in the Forest Service of the Government of India, or in that of a Native State or some other owner of forest property.

(i) Candidates for admission to the Forest School as private students must not be less than 18 or more than 25 years of age, and their applications must be sent to a Conservator of Forests* through a Divisional Forest Officer of rank not below that of an Assistant Conservator of the 1st Grade, or through a Collector or other district officer. Neither the Conservator, the Divisional Forest Officer, nor the Collector need belong to the forest circle or province in which the candidate seeks employment; but Divisional Forest Officers and Collectors may not forward to Conservators applications unsupported by the five certificates enumerated below, namely,—

* Conservator of Forests, Bengal Circle, at Darjeeling.
Conservator of Forests, Assam Circle, at Shillong
Conservators of Forests, North-Western Provinces and Oudh—
- School Circle, at Dehra Dún
- Central Circle, at Naini Tal.
- Oudh Circle, at Naini Tal.

Conservators of Forests, Central Provinces—
- Southern Circle, at Nagpur.
- Northern Circle at Jabalpur.

Conservator of Forests, Berar Circle, at Amraoti.
Conservator of Forests, Punjab Circle, at Lahore.
Conservators of Forests, Upper Burma—
- Eastern Circle at Mandalay.
- Western Circle, at Mandalay.

Conservators of Forests, Lower Burma—
- Pegu Circle, at Rangoon.
- Tenasserim Circle, at Moulmein.

Conservators of Forests, Madras Presidency—
- Northern Circle, at Bezwada.
- Central Circle, at Madras
- Southern Circle, at Coimbatore.

(*a*) A certificate that the candidate is a "Native of India,"† within the meaning assigned to those words by section 6 of 33 Vict., Cap. 3.

(*b*) A certificate of age.

(*c*) A health certificate, in the form prescribed by Article 61 of the Civil Service Regulations, signed by the Civil Surgeon of the district in which the said Divisional Forest Officer's or Collector's duties lie, and testifying to the candidate's sound constitution, good vision and hearing, and general physical fitness for a rough out-door life in the Forest Department.

(*d*) A certificate of respectability and good moral character from two or more persons whose social or official position can be accepted as a guarantee of reliableness.

(*e*) A certificate from an officer of the Educational Department, of a rank not less than that of a Deputy Inspector of Schools or the Head Master of a High School under public management, to the effect that the candidate's education appears sufficiently good to give hopes of his being able to pass the entrance examination.

The last three certificates must bear date not further back than the 1st October of the year preceding that in which the candidate proposes to present himself at the entrance examination.

If any person, giving certificates as above under (*c*), (*d*) and (*e*), is in a position to mention anything more to the credit of the candidate than the certificates actually call for, he may do so.

(ii) Upon the receipt by the Conservator of any application in respect to which the preceding conditions shall have been observed, that officer may either accept or reject the application, without assigning any reason for so doing; or he may require the candidate to produce other or better certificates in person before him.

† 'Native of India' means any person born and domiciled within the dominions of Her Majesty in India, or within the territories of Indian Princes tributary to or in alliance with Her Majesty, of parents habitually resident in India, and not established there for temporary purposes only (Article 45, Civil Service Regulations).

(iii) Conservators may, at their option, test the fitness of a candidate who desires to enter the service of Government by practical work in the forests.

(iv) Those candidates who have been approved by the Conservator will be permitted, under his recommendation, to appear at the next entrance examination for the Forest School held in his circle.

(v) The *Extrance Examination* is held early in March each year, on such date as may be fixed by the Director, both at the Imperial Forest School and at such centres as may be fixed from time to time by Local Governments, and under such officers, Educational, Revenue, Forest or other, as may be appointed : provided that the date shall be communicated by the Director to Local Governments and Conservators on or before 1st January. The subjects of examination are—

		Minima pass marks.
1. English	Conversation	50 per cent.
	Composition	33 "
2. Arithmetic		40 "
3. Algebra, up to and including quadratic equations ...		40 "
4. Elements of Euclid, Books I to IV and Book VI ...		25 "
5. Mensuration—lengths, areas and volumes, with examples		25 "

The examination papers on the above subjects will be forwarded by the Director, in sealed covers, to such officials as the Local Governments may direct, in the month preceding the examination.

(vi) A Local Government may lay down rules under which the number of candidates allotted, under Rule 10, to the Province for admission into the School shall be selected from the number of passed candidates. In such rules due regard must be had to the place taken in the examination, but the Local Government shall not be debarred from preferring, for good and sufficient reasons, a passed candidate who may have taken a lower place in the list to one higher on the list: provided that the Director may, after inspection of the papers of the selected candidates, place before the Local Government an objection to the admission of any of such candidates on the ground that he is below the required standard.

(vii) The Local Government may, if it thinks fit, exempt from the entrance examination any candidate who is a Bachelor of Arts, or who has obtained a degree or diploma of about the same standard, at any University in India or in the United Kingdom or in a British Colony, or at any educational institution to which the Government of India may extend the privilege : provided that such degree or diploma shall not give such candidate a preferential claim over any candidates who have passed the entrance examination and who may appear more eligible for the Forest Service.

(viii) Prior to the admission of a student, his parents or guardians must satisfy the Director that they are willing and able to defray the expenses of the student at the school. These expenses are estimated to be not less than Rs. 735 for each student living in native fashion, and Rs. 945 in the case of those living in European fashion (*vide* Rule 21). Of these sums, parents or guardians must deposit with the Director, before the course commences, a sum of Rs. 126 in the case of native students and Rs. 168 in the case of European students, to meet the initial cost of uniform, books, instruments, stationery and camp-equipage (*vide* Rule 18), and, in addition, Rs. 50 as caution-money.

(ix) Local Governments may, on the recommendation of a Conservator or of the Director, and in exceptional cases, allow selected private students who have passed the entrance examination a monthly stipend not exceeding Rs. 50, to assist them through the School course : provided that such selected private students previously execute an agreement binding themselves to serve the Local Government concerned (in the event of their obtaining the School certificate) for a period of not less than five years (*vide* Rule 17). Such monthly stipend may, in case of misconduct or unsatisfactory progress at the School, be reduced or altogether withdrawn at the discretion of the Director.

(x) The names of those private students who succeed in obtaining the School certificate will be entered by the Director in a register to be kept for that purpose, and the Conservators of those circles, in which the non-stipendiary private students may severally desire or be willing to serve, will be addressed by him with the view of obtaining appointments for such students. The Conservators concerned will, for this purpose, be furnished with the original certificates already referred to in clause (i) of this rule, the School certificates, and such other useful information, more especially regarding the physical qualifications of the students, as the Director may be in a position to furnish.

(xi) A list of private students, who may not succeed in obtaining appointments will be forwarded by the Director to the Inspector General of Forests, who will circulate the list amongst Darbárs, Conservators, and other persons likely to be in need of the services of trained forest officials.

(xii) The appointment to the service of Government of passed private students depends on the existence of vacancies in the various circles, and even a stipendiary student has no claim to such appointment.

13. *Candidates in the Government Service*, who may be deputed to the School will ordinarily be either—

(*a*) members of the Provincial Service (Forest Rangers) who desire to qualify themselves for further promotion in their own or to a higher class; or

(*b*) members of the Subordinate Service (Foresters and other subordinate officials) similarly desirous of qualifying for promotion.

(i) Forest Rangers may be deputed by Local Governments, provided the candidates are certified, by the Conservator under whom they are serving, to possess sufficient knowledge of English and General education and ability to enable them to profit by the course. Such officers may be above 25 years of age, and need not pass the entrance examination. While at the School they will draw the pay of their grade and the travelling allowances to which they may be entitled under the Civil Service Regulations.

(ii) Officers of the Subordinate Service may be deputed by Local Governments provided that—

(*a*) they have been in that service for not less than three years;

(*b*) they have passed the School entrance examination;

(*c*) they are under 25 years of age;

(*d*) they have executed the formal agreement referred to in Rule 17.

Such officers will, while at the School, draw the pay and travelling allowances of their grade in the service; provided that the total amount sanctioned to meet the cost of their training, inclusive of travelling expenses, shall not be less than Rs. 735 in the case of students living in the native style, and Rs. 945 in the case of students living in European fashion (*vide* Rule 21).

14. *Students deputed by Native States* may be admitted on the request of the State concerned; provided that—

(*a*) they have passed the entrance examination of the School;

(*b*) they have produced the certificates required for admission, specified in Rule 12 (i).

The Darbárs of Native States sending students to the School shall, before the beginning of each term, or of each year if preferred, deposit with the Director a sum sufficient to meet the expenses of the students. This sum, for the whole course, must not be less than Rs. 735 for students living in native fashion, and Rs. 945 for those living in European fashion (*vide* Rule 21).

B.—Lower Class.

15. There are also three categories of students in Lower Class—

(*a*) Private students.

(*b*) Students in Government service.

(*c*) Students deputed by Native States.

The rules for admission to the Lower Class are the same as those detailed in Rules 12, 13 and 14 for admission to the Upper Class, with the following exceptions :—

(i) Instead of the Entrance Examination, the candidate must furnish a certificate of having passed the Middle Class Examination in the North-Western Provinces and Oudh, or an equivalent standard in another province, as well as a certificate that he possesses a competent knowledge of Hindustáni.

(ii) The cost of training will not be less than Rs. 588 (*vide* Rule 21) for the whole course of 21 months.

(iii) The required deposit will be Rs. 84, and the caution-money Rs. 25.

C.—General.

16. No student of European or Eurasian extraction, not already in the permanent employment of Government or of a Native State, shall be admitted into the Forest School if he is married; nor shall any such student, whether in the permanent employment of Government or of a Native State or not, marry whilst at the School or until he has joined a permanent appointment. A breach of this rule will render the student liable to dismissal from the School, or to forfeiture of any appointment in the Forest Service which may have been promised to him, or to which he may otherwise have a claim.

17. *Agreement and Security Bond.*—Officers of the Subordinate Service, deputed to the School by Local Governments under Rules 13 (ii), 15, shall execute a formal agreement—the sureties for the fulfilment of which should be men of position and means—to continue in the Forest Service of the Local Government concerned for a period of not less than five years after passing out of the Forest School, and on such rates of pay as may be in accordance with the existing organisation of the Department. A breach of this condition will render the defaulter and his sureties liable for the refund of the entire cost of the student's education at the School. The agreement and security bond shall be in the appended forms, and must be executed before the student is admitted to the School. The agreement will be signed by the student and, if he is a minor, by his father or guardian also; the bond by the student and two sureties. The amount of security to be taken will be—

				Rs.
For a Lower Class Student	...	...	...	600
" an Upper Class Student	Native	...	...	750
	European	...	...	1,000

The agreement and security bond need not be stamped.

The same rule shall apply to private students who may be granted stipends under Rule 12 (ix), subject, however, to the proviso of Rule 12 (xii). Should any such student not be appointed to the Forest Service of Government at the end of his School course, his agreement and security bond will be returned to him.

18. *Uniform, book, and camp allowances.*—The Director is authorised to make deductions from the pay of Forest Ranger students under Rule 13 (i) or of students of the Subordinate Service under Rules 13 (ii) and 15, or from the stipends of private students under Rules 12 (ix) and 15, to the following amounts :—

			Rs.		Rs.
Lower Class Students	...	...	4 monthly, or		84 in all
Upper Class Students	Native	...	6 "	"	126 "
	European	...	8 "	"	168 "

in order to meet the following items of initial expenditure, *viz* :—

	Upper Class. Native.	Upper Class. European.	Lower Class.
	Rs.	Rs.	Rs.
Uniform and equipment	20	50	20
Books and instruments	60	60	24
Camp outfit	46	58	40
TOTAL ...	126	168	84

The Director will charge off in his accounts such portions of the above as may be necessary from time to time to meet expenditure on the items mentioned, until the whole of the amounts are exhausted, after which the student will be required to pay in cash for articles supplied.

19. *Travelling allowances of private students in receipt of stipends.*—Students holding stipends from Local Governments under Rule 12 (ix) are not entitled to travelling allowance; but, as the tours entail greater expenditure in some months than in others, the Director is authorised to make a further monthly deduction from their stipends, of Rs. 5 from Upper Class Native students and Rs. 7 from Upper Class European students, and to disburse the amounts in the following manner:—

		Native Students.	European Students.
		Rs.	Rs.
Monthly travelling allowances	November-May, 1st year; November-March, 2nd year	4	8
	Or for 12 months ...	48	96
Special additional allowance for Hill tour		22	16
" " for Punjab tour		35	35
	TOTAL ...	105	147

20. Should the Conservator of a Circle from which any Government student of the Subordinate Service is deputed to the School, under Rule 13 (ii), prefer it, he can, subject to the orders of his Government, authorise the Director to pay travelling allowance to such student at the rates given in Rule 19, instead of at the rates allowed by the Civil Service Regulations. And in the case of Lower Class Government students, deputed to the School under Rule 15, he may similarly authorise the payment of travelling allowance at the following rates, instead of the rates permissible under the Civil Service Regulations:—

	Rs.
Monthly travelling allowance at Rs. 4	48
Special hill tour allowance	16
" Punjab tour allowance	20
TOTAL ...	84

which rates are equivalent to a permanent travelling allowance of Rs. 4 per month for the whole course.

21. *Estimated expense of training.*—It has been calculated that, in addition to the amounts specified in Rule 18 for cost of uniform, books, &c., and camp-equipment, and in Rules 19 and 20 for travelling, the minimum monthly subsistence money for students comes to Rs. 20, 24, 30, respectively; so that the minimum pay and travelling allowances of Government students under Rule 13 (ii), and the minimum stipends for stipendiary students under Rule 12 (ix), should not be less than Rs. 35 and Rs. 45, respectively, nor should the minimum pay and travelling allowances of Lower Class students (Rule 15) be less than Rs. 28. Thus, the minimum cost of training will be as follows:—

	Lower Class.	UPPER CLASS.	
		Native.	European.
	Rs.	Rs.	Rs.
Subsistence money	20	24	30
Uniform, books and camp outfit	4	6	8
Travelling allowance	4	5	7
TOTAL PER MENSEM	28	35	45
Or for the 21 months of the course ...	588	735	945

The same amounts should be taken as minima in calculating the allowances to be deposited on account of students from Native States under Rules 14 and 15, or provided by parents and guardians for the cost of training of private students.

Section III.—Disciplinary Rules.

22. *Quarters.*—The Director will allot to students, on their arrival in Dehra, such quarters as may be available in the School buildings or in the houses rented by him for students' accommodation. The School quarters are tenable during the whole period of the students' course, and the rent is Rs. 2 monthly for each student, or Rs. 4 for each room. Students for whom there is no accommodation in quarters or in houses rented by the Director, or who may prefer it, can, with the permission of the Director, reside in the town in lodgings selected by themselves; but in that case the Director will accept no responsibility for the rent.

All students, living in quarters or in the rented houses, are expected to abide by such orders as the Director may issue from time to time for the purpose of ensuring cleanliness and sanitation.

No dogs are allowed in quarters, nor may dogs or horses be brought inside the School grounds.

Breakages of furniture, &c., in the quarters or School buildings must be paid for by the students. Students are responsible for the acts of their servants.

23. *Uniform.*—All students must wear the School uniform, which consists of a suit of kháki drill with white-metal buttons, and a grey turban of prescribed pattern, for the hot weather, and of kháki serge with similar buttons for the cold weather and camp. Those students who become members of the Dehra Dún Mounted Rifles are, however, permitted to wear the undress uniform of the corps, which also consists of a suit of kháki drill, of pattern similar to that of the School. Students who are Volunteers will wear, as head-dress, a brown shikar hat while at the School and the regular corps helmet when on parade. Native students may dispense with turbans or wear other head-dress, only with the Director's special permission. Uniform must always be worn inside the School building. It must also be worn in the School grounds up to 5 P.M.

24. *Uniform and Camp Equipment.*—The uniform of members of the Dehra Dún Mounted Rifles may be obtained through the corps staff; that of other students through the Store-keeper of the School, on the Director's order. As camp equipment each student requires—

(1) A small tent, not larger than 10 feet × 8 feet.

(2) A camp bed.

(3) A small camp table.

(4) A camp chair or "morah."

These articles are made at the School and issued at cost price to students.

25. *Books and Instruments.*—The list of books and instruments required by each student will be published by the Director from time to time. The articles must be purchased from the Director, who endeavours to obtain them of the best quality procurable, consistent with cheapness. No article will, however, be issued by the Store-keeper, except (*a*) on order of the Director, or (*b*) on cash payment.

Copies of the Forest Acts and Forest Code, as also surveying instruments and herbarium presses, are issued on loan, and students using them will be responsible for their safe custody and return.

26. *Leave.*—During the course of instruction, no student may leave Dehra without the written order of the Director. Nor may students, while in camp, leave the camp head-quarters without the written order of the Deputy Director or the Instructor in charge. Subsidiary rules regarding leave will be made by the Director from time to time.

27. *Holidays.*—During the rains term, Saturday will usually be observed as a holiday or devoted to excursions. In camp, it will ordinarily be a half-holiday. Such of the usual gazetted holidays as are allowed will be notified as such from time to time.

28. *Punishments.*—Students are liable to the following punishments:—

(1) Reprimand by the teacher in class.

(2) Reprimand by the Director or the Deputy Director at any time.

(3) Reprimand before a meeting, convened by the Director, of not less than three School officers, one of whom must be either the Director or the Deputy Director. The proceedings of the meeting will be reported to the Conservator or the Native State deputing the student, or to his parents or guardians if he is a private student; and, if the meeting so decides, a note of them will be made on his final certificate.

(4) The Director, acting with the consensus of the meeting referred to under (3), has power to inflict, in addition, a fine to the extent of one-third of the salary or allowances of the student for a period not exceeding three months.

(5) The Director, acting with the consensus of a full meeting of the School officers presided over by himself, has power to dismiss any student for misconduct; and a student thus dismissed cannot be re-admitted to the School. The Director may remand any student who in his opinion is not sufficiently promising.

29. *Monthly Reports.*—A progress report on the work of each student will be issued monthly by the Director. It will record the number of marks obtained by the student at the last monthly examination, his application to his studies, and his conduct generally. It will be sent, for Government students or private students in receipt of stipends, to the Conservator of the Circle from which the student is deputed; for Native State students to such person as the Darbár may direct; and for ordinary private students to the parent or guardian concerned.

30. *Library.*—The books in the School Library are available for the use of students under such rules as the Director may make from time to time. Books of reference must be consulted in the library itself, and no books may be taken away except after application to the librarian and entry in a register.

31. *Museum.*—The museum and herbarium are also available for the use of students; but the objects in the museum may not be handled or removed without the express permission of the Director or the Deputy Director. Permission to consult the herbarium may be obtained from the Director or the Deputy Director, but the plants must be kept in their order as arranged, and no sheets removed or altered without permission.

32. *Athletic Sports.*—The gymnasium and the tennis-courts will be available for the use of students during all recreation hours on week-days. Cricket and football may be played on the old parade ground. Students are recommended to join the School Athletic Club, the subscription to which is Rs. 4 yearly, and half-rates for those who do not play all the games.

Forms of Agreement and Bond to be executed by students already in the service of, or in receipt of stipends from, Government previous to entry into the Forest School, Dehra Dún.

Punjab Government Notifications and Orders.

DEPARTMENT OF FINANCE AND COMMERCE.

The 4th September 1893.

No. 1487.—*Notification.*—The Government of India having by Resolution in the Department of Finance and Commerce, No. 2284, dated 1st June 1892, made the following addition to Rule 26 of the Rules for the custody, supply and sale of stamps published with the Notification of the Punjab Government, No. 1387, dated 27th June 1887, the Hon'ble the Lieutenant-Governor has adopted the addition for observance in the Punjab :—

"But in any case where the sale of stamps from such a branch depôt is insignificant, and equal facilities exist for the supply of stamps from a depôt in the same station as the branch depôt, the Local Government may direct the closing of the branch depôt."

The 4th September 1893.

No. 1490.—*Notification.*—The Government of India having by Resolution in the Department of Finance and Commerce, No. 2788 S. R., dated 4th July 1893, directed that the following be substituted for Rules 1 to 5, 32 to 36 and 39 and 40 of the Rules for the custody, supply and sale of stamps published with the Notification of the Punjab Government, No. 1387, dated 27th June 1887, the Hon'ble the Lieutenant-Governor has adopted the revised rules for observance in the Punjab :—

"1. There shall be three central depôts for stamps of all descriptions in charge of the Superintendent of Stamps at Calcutta, Madras and Bombay, respectively. These central depôts shall maintain a stock of stamps sufficient for two years' consumption. The Superintendents of Stamps in Madras and Bombay shall, for this purpose, forward, not later than the last week in September in each year, indents for the supply of the various descriptions of stamps required in the following year for the territories dependent on them for the supply of stamps to the Superintendent of Stamps, Calcutta. The Superintendent of Stamps, Calcutta, shall prepare a general consolidated indent for stamps of all descriptions, showing separately the demand for the following year for each of the three presidencies, including in it the indents of the Superintendents of Stamps, Madras and Bombay; and shall forward this general indent to the Government of India in the Finance Department for transmission to the Secretary of State so as to reach him not later than the 1st November in each year. The Superintendent should forward a copy of the section of the general indent relating to Postage stamps to the Director-General of the Post Office, and of the section relating to Telegraph stamps to the Director-General of Telegraphs.

"2. Stamps for the Bengal Presidency, including the North-Western Provinces and Oudh, the Punjab, Central India, Rájpútána, Assam and Burma, and local depôts subordinate to Calcutta, and stamps for copies for use in the Central Provinces shall be supplied from the Central Depôt, Calcutta, on the indent of officers in charge of local depôts.

"3. Stamps for the Madras Presidency, including Coorg and local depôts subordinate to Madras, shall be supplied from the central depôt at Madras on the indent of the officers in charge of local depôts.

"4. Stamps for the Bombay Presidency, including Sind, Berar, the Central Provinces (save as provided in Rule 2) and local depôts subordinate to Bombay shall be supplied from the Central Depôt, Bombay, on the indent of officers in charge of local depôts.

"5. The Superintendent of Stamps, Calcutta, Madras and Bombay, on receiving an indent from a local depôt shall have the indent examined to ascertain that the indent is such as to insure the local depôt having a proper supply, and may comply with the indent in full or in part, as he thinks fit. If he thinks that the indent should be increased, he should request the officer who submitted the indent to submit a supplementary indent. The Presidency Post Offices of Calcutta, Madras and Bombay may indent for supplies on the central depôts.

"32. On the last open day of September and March each year the officer in charge of each local depôt will count, or have counted in his presence, the stamps in the depôt, both those under double lock and those under single lock, and will require the officers in charge of the branch depôts subordinate to him similarly to count the stamps in the branch depôt. He will attach to the monthly statements for September and March rendered to the Superintendent of Stamps, Calcutta, Madra,s or Bombay, or, in the provinces noted in the margin* to the local Superintendent or Commissioner of Stamps or other officer named by the Local Government a certificate in the following form :—

* Bengal, Bombay, the North-Western Provinces and Oudh, Punjab, the Central Provinces, and Berar. [In the case of revenue adhesive stamps supplied to Berar from the central depôt at Madras the monthly statements will continue to be submitted to the Superintendent of Stamps, Madras.]

"I do hereby certify that I have personally examined and counted, or had counted in my presence, the stamps of all descriptions in store in this local depôt on the September/March 18 and found the value of each description to be as stated in margin.† Also, that I have received certificates from the officers in charge of the subordinate branch depôts that they have similarly counted the stamps in the branch depôts on the last day of the month of September/March of which the accounts are incorporated in the Head Treasury accounts, and that these certificates show the value of each description of stamps to be as stated in the margin.‡

which amounts agree with the balances shown in the monthly statement for September/March to which this certificate is attached. *If there is any difference, and* with the exception of the following differences :—

————————————————————— the

explanation of which is as follows :—

—————————————————————

"33. Monthly statements showing the receipts and issues of each local depôt, including the transactions of the subordinate branch depôts, shall be prepared by the officer in charge of the local depôt, and forwarded in the first week of the succeeding month to the Superintendent of Stamps, Calcutta, Madras or Bombay, or the local Superintendent or Commissioner of Stamps, or other officer specified in Rule 32, separate statements being prepared for General stamps, Court-fee stamps, Telegraph stamps, and Postage stamps.

"These statements shall show for each denomination of stamp the values of the balance in hand, at the beginning of each month, of the quantities received from the Superintendent of Stamps or other officer during the month, of the quantity sold during the month, and of the balance in hand at the end of month. The statements may be forwarded direct to the Superintendent of Stamps, Calcutta, Madras or Bombay, or the local Superintendent or Commissioner of Stamps, or through any officer named by the Local Government.

"34. The statements shall be checked by the Superintendent of Stamps, Calcutta, Madras or Bombay, or by the local Superintendent or Commissioner of Stamps or other officer specified in Rule 32 by comparison with previous statements and the accounts of the central depôts, and shall be used by him to check indents and to watch the balances in the local depôts. If the monthly statements of transactions show that the balance of any kind of stamp in any local depôt is falling too low, the attention of the officer in charge should be called to the fact. To enable him to check the returns each local Superintendent or Commissioner of Stamps, or other officer specified in Rule 32, will be supplied by the Superintendent of Stamps, Calcutta or Bombay, with monthly statements showing the stamps issued to and returned by the local depôts subordinate to each.

"35. Treasury Officers and other officers in charge of local depôts shall forward to the local Accountant-General or Comptroller such returns of the receipts and sales of stamps as the Comptroller-General may direct in the form of Plus and Minus Memoranda or otherwise.

"36. Each Superintendent or Commissioner of Stamps, or other officer specified in Rule 32, shall send to the Accountant-General or Comptroller such accounts of the transactions of the central and local depôts as the Comptroller-General may prescribe.

"39. The Local Governments in Bengal, Madras and Bombay shall arrange for a periodical verification by counting of the stock of stamps in the respective central depôts. The verification shall be carried out in the manner and form prescribed by the Comptroller-General, to whom the result will be reported.

"40. The Superintendent of Stamps, Calcutta, Madras and Bombay, shall forward every month to the Director-General of the Post Office a statement showing the balances and receipts in the central depôt and the issues to each local depôt of Postage stamps during the month. Each Superintendent or Commissioner of Stamps or other officer specified in Rule 32 shall also send monthly to the Comptroller of the Post Office a statement of the sales during the past month of the several denominations of Postage stamps in the local and branch depôts subordinate to him. Each Accountant-General or Comptroller will, with his monthly account current with the Examiner of Telegraph Accounts, forward a statement showing the total realizations at each treasury from the sales of Telegraph stamps during the month."

The 5th September 1893.

No. 154.—*Notification.*—The following letter, No. 29, dated the 11th August 1893, from the Secretary to the Indian Hemp Drugs Commission, showing the proposed plan of operations of the Commission is published for general information :—

No. 29, dated Calcutta, 11th August 1893.

From—H. J. McINTOSH, Esquire, Secretary, Indian Hemp Drugs Commission,

To—The Chief Secretary to Government, Punjab.

WITH reference to the Resolution of the Government of India, Finance and Commerce Department, No. 2792 Ex., dated 3rd ultimo, appointing the Indian Hemp Drugs Commission, I am directed to communicate the following information regarding the Commission's plan of operations.

2. After careful consideration the Commission have decided that, before proceeding to record the evidence of witnesses generally, it is necessary for them to become acquainted (*a*) with the system in force in each Province, and (*b*) with the objections that are taken to that system. I have addressed you on the first of these two points in my letter No. 28 of this date ; and the Commission hope that the information therein called for will be placed at their disposal as soon as possible.

3. In regard to the second point, the Commission are anxious to receive written statements from any well-informed persons who desire to see the preparation and sale of ganga or other hemp drugs further restricted or entirely prohibited. The Commission desire to give the freest opportunity to such persons to come forward and express their views. They should submit as soon as possible a written statement of their objections to the existing system, and state at the same time whether they are willing to be examined orally when the Commission are recording evidence.

The Commission further desire to receive similar written statements (to be followed by oral evidence) from any philanthropic, religious, or social bodies, European or Native, holding the above views, as may be entitled to a hearing.

4. I am therefore to request that, with the permission of His Honor the Lieutenant-Governor, you will take such steps as may seem best to make known widely (through the Press or otherwise) the wishes of the Commission in respect to such witnesses, and also communicate with the representatives of such Associations or public bodies.

5. The Commission propose to visit certain Provinces at first merely for the purpose of becoming acquainted with the system in force and the objections taken to it. I am to forward a programme of this preliminary tour. The examination of witnesses will probably commence in November. A programme of the movements of the Commission for the purpose of recording evidence will be communicated later.

GAZETTE.

[Sixth publication.]

The 16th August 1893.

No. 904.—*Examination.*—In accordance with Rule 12 of the Rules for the appointment by competition of Extra Assistant Commissioners in the Punjab, published with the Notification of the Punjab Government, No. 804 S., dated the 25th of July 1885, it is hereby notified that two appointments are expected to become available for award by competition at the next examination which will be held at Lahore on Monday, the 30th of October 1893, and following days.

2. The successful candidates, if they have not served in a Settlement or as Tahsíldár, will, after their examination, be required to serve for 12 months in a Settlement, and will ordinarily be so employed for such period on a salary of Rs. 100 a month. Subject to this rule the successful candidates will be appointed on probation to the post of Extra Assistant Commissioner when vacancies become available.

3. It is further notified that the admission fee levied from candidates under Rule 20 of the Rules published with *Punjab Government Gazette* Notification No. 804 S., dated the 25th of July 1885, has been raised from Rs. 20 to Rs. 30.

4. With reference to the memorandum annexed to Table C of the Rules published with the above-mentioned Notification, candidates are informed that they will be examined in the Punjab Tenancy and Land Revenue Acts, XVI and XVII of 1887. No questions will be set from "Barkley's Directions" which will clash with the new Acts.

Copies of the pamphlet (English and Vernacular) containing extracts from "Powell's Manual of the Land Revenue Systems of British India" can be purchased from Messrs. E. Gillon & Co., Limited, Agents for the sale of Government Publications, Lahore.

MEDICAL AND SANITARY.

The 14th September 1893.

No. 437.—Notification.—The Hon'ble the Lieutenant-Governor is pleased to direct that the following rules be substituted for Rules XV, XVI and XVII of the Dispensary Rules published with the Notification of the Government of the Punjab in the Home Department, No. 323, dated the 11th of May 1886 :—

RULES.

XV.—(1) All contributions towards a Provincial hospital or dispensary received by a Civil Surgeon having the management of that hospital or dispensary or by a Deputy Commissioner on behalf of the hospital or dispensary, whether from Local Funds, from Municipal Funds, from private subscribers or donors or otherwise, shall continue as heretofore to be credited to the Provincial revenues and not to any separate fund, and all expenditure on the hospital or dispensary shall be paid from the Provincial revenues ; but the Civil Surgeon shall from the first day of October 1893 open and maintain for the hospital and dispensary an account as next hereinafter provided.

(2) The account referred to in clause (1) shall be kept in the following manner :—

(A) On the credit side there shall be entered—

(1) On the 1st day of April in each year the amount which under any rule or order of the Local Government may be declared to be the annual allotment from the Provincial revenues for the maintenance of the hospital or dispensary, independently of the amounts next hereinafter mentioned ; and

(2) from time to time, as they may be paid into or credited to the Provincial revenues, the amounts of all contributions to the hospital or dispensary received from Local Funds, from Municipal Funds, from private subscribers or donors or otherwise, and all amounts realized by the sale of securities or other property belonging to the hospital or dispensary, by the sale of medicines or otherwise on account of the hospital or dispensary.

(B) On the debit side there shall be entered from time to time, as they are disbursed from the Provincial revenues, all sums expended on the hospital or dispensary.

(3) On the 31st day of March in each year the balance of this account shall be struck and the amount to credit or debit, as the case may be, shall be carried forward to the account for the following year.

(4) The account for each year shall be submitted to the Local Government by the Civil Surgeon through the Deputy Commissioner and Commissioner as soon as may be after the close of the year and a copy be deposited in some place in the office of the Deputy Commissioner, where it shall be open to public inspection.

(5) All expenses of *Provincial* hospitals and dispensaries, including establishment and contingent charges, shall be drawn from the treasury upon bills signed by Civil Surgeons and Deputy Commissioners. The adjustment of the contingent expenditure of these hospitals and dispensaries is subject to countersignature by Commissioners.

XVI.—(1) All contributions towards a local hospital or dispensary received by a District Board or Municipal Committee having the management of that hospital or dispensary, whether from other local bodies, from Provincial Funds, from private subscribers or donors or otherwise, shall continue as heretofore to be credited to the District or Municipal Fund and not to any separate fund, and all expenditure on the hospital or dispensary shall be paid from the District or Municipal Fund; but the District Board or Municipal Committee shall on and from the first day of July 1893 open and maintain for the hospital or dispensary an account as next hereinafter provided.

(2) The account referred to in clause (1) shall be kept in the following manner:—

(A) On the credit side there shall be entered—

(1) On the first day of April in each year the amount which ought, under any rule or order having the force of law or any arrangement with the Local Government or otherwise, to be spent by the District Board or Municipal Committee independently of the amounts next hereinafter mentioned, on the hospital or dispensary during the said year; and

(2) from time to time, as they may be paid into or credited to the District or Municipal Fund, the amounts of all contributions to the hospital or dispensary received from other local bodies, from Provincial Funds, from private subscribers or donors or otherwise, and all amounts realized by the sale of securities or other property appertaining to the hospital or dispensary, by the sale of medicines or otherwise, on account of the hospital or dispensary.

(B) On the debit side there shall be entered from time to time, as they are disbursed from the District or Municipal Fund, all sums expended on the hospital or dispensary.

(3) On the 31st day of March in each year the balance of this account shall be struck and the amount to credit or debit, as the case may be, shall be carried forward to the account for the following year.

(4) The account for each year shall be submitted to the Local Government with the annual report of the District Board or Municipal Committee, and a copy of it shall, as soon as may be after the close of the year, be deposited in some place in the Board's Committee Office where it shall be open to public inspection.

XVII.—The establishment and contingent bills of hospitals and dispensaries shall be signed by the officer in charge and countersigned by the Civil Surgeon, and presented for payment to the District Board or Municipal Committee, which will issue cheques for the expenditure, which will be adjusted in the same way as other expenditure from District or Municipal Funds.

H. C. FANSHAWE,

Offg. Chief Secy. to Govt., Punjab.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab, in the Home (General) Department, No. 1085 S., dated Simla, 16th October 1893.

HIS HONOR THE LIEUTENANT-GOVERNOR read a few days ago in the *Tribune* newspaper of the 4th instant an article referring to certain circulars said to have been issued by the higher authorities in this Province on the subject of Government officers and pupils in Government schools and colleges taking part in agitations in favour of or against the society known as "the Congress," and it seems to him desirable that certain incorrect statements made in that article should be corrected.

2. The article in question referred, in the first place, to a circular on the subject of Congress and Anti-Congress movements said to have been issued by this Government to all Government servants, and as it is recognized by the writer of the article, as it would be by most sensible people, that such a circular would be a pro per one, it might be enough to say that as a matter of fact no circular of the sort has been issued. It may, however, be added that His Honor has recently had the question of issuing such a circular under consideration, but as he believes that all public servants employed under this Government are fully aware that they are bound to abstain from taking part in any kind of political agitation, he has come to the conclusion that the issue of any such circular would be superfluous.

3. The article next refers to a circular said to have been issued in the Educational Department under the authority of the Lieutenant-Governor, and which is spoken of as involving "an attempt to interfere with the liberty of students out of school and college and a direction as to how they should not spend their holidays."

The circular here referred to is evidently a circular letter which it appears was addressed in August last to Inspectors of Schools and Principals of Colleges by Mr. Sime, the Director of Public Instruction, an officer who, as is well known to people in the Punjab, does not trouble himself about po litics, but applies himself entirely and with a devotion which the Lieutenant-Governor has never seen surpassed to furthering the best interests of education in the Province.

4. A copy of Mr. Sime's letter has now been obtained and is appended to these Proceedings, and it will be seen by any one who reads it that it is as far as it possibly could be from involving any interference with the pupils of our schools and colleges or suggesting any direction to them about anything. Mr. Sime does indeed express the opinion that the association of students and school-boys with political movements has done much harm to schools in other provinces, and makes it clear that he would regret to see anything of the sort here; but then it must be remembered that his letter was a confidential one addressed only to the officers of his Department and not intended to be communicated to any one else; and so far was he from desiring his subordinates to interfere in any way with the school-boys and students that he expressly condemns interference, and says that we must trust to the "*silent* example of the Professors and Masters," who, being Government servants, are required "to refrain from taking any part *for* or *against*" the Congress.

5. As to the letter being issue d, as stated in the *Tribune*, under the authority of the Lieutenant-Governor, it is enough to say that it was issued by Mr. Sime on his own authority, as Director of Public Instruction, and that Sir Dennis Fitzpatrick never heard of it until he saw it mentioned in the *Tribune*.

6. These are the facts of the case, but the Lieutenant-Governor apprehends that if he were to content himself with a simple statement of them it might be inferred, and not unnaturally inferred, that he dissented from Mr. Sime's view as to the evil of school-boys and students being led to take part in political movements. His Honor therefore feels it his duty to state expressly that he entirely agrees in that view.

7. Political agitation, whether for or against the Congress, or for or against anything else, is in His Honor's opinion work fit only for men of mature minds and practical experience of the world. School-boys and students—even advanced students in our universities—are hopelessly and ridiculously out of place in such work, and it is a marvel to His Honor that the idea should have occurred to any intelligent person that enlisting their services in any political movement would make any addition, real or apparent, to the strength of that movement. That, however, is a point on which the leaders of political movements must judge for themselves. What Sir Dennis Fitzpatrick is concerned with is the effect on the school-boys and students; and that in his opinion must

be harmful and harmful in a high degree. It is not merely that valuable time, which would otherwise be devoted to study and self-improvement or healthful recreation, is wasted; what is worse is that leading these boys or youths to take part in a political agitation is calculated to create a premature and unnatural excitement in their unformed minds, to raise dissension among them, to distract their attention from study, and (to use a homely expression) to "put wind in their heads." All this constitutes a most serious danger to the individual boys or youths concerned, and a most serious danger to that school discipline the failure of which in our Indian schools is already a grave blot on our educational system. Such dangers would be serious in England, if indeed one could imagine the leaders of any political movement there attempting to enlist school-boys and students in a wholesale manner all over the country as working members. In India such dangers would, owing to many causes, be far more serious, and His Honor is sure that all true friends of education in India will desire to see them averted.

8. His Honor has felt it his duty, for the reasons already given, to express his opinion fully and clearly on this point; but at the same time, having regard to the peculiar position of the Educational Department in this country and to the footing upon which our schools and colleges are established, he entirely agrees with Mr. Sime in thinking it best that officers of the Educational Department and Professors and Teachers in Government Colleges and Schools as well as other Government servants should abstain from all attempts at interference in regard to this matter and leave it in the hands of parents and guardians, whose right to a voice in it will, he hopes, be recognized by all concerned.

9. It only remains to add that Sir Dennis Fitzpatrick trusts that it will be clearly understood that the foregoing observations are strictly confined to the case of the pupils of our schools and colleges, and are based solely on a consideration of the harm that must be done to them at a critical period of their lives if they are led to engage in political movements of any description. On the merits of the Congress agitation or the Anti-Congress agitation, His Honor means to express no opinion whatever. The attitude of the Bristish Government in this country towards all such movements, so long as certain conditions and limitations are observed by those conducting them, has been declared by the highest authority to be one of neutrality and toleration, and it is consequently the duty of the Local Government to maintain that attitude and see that it is maintained by all its officers.

ORDER—Ordered, that the above Resolution be forwarded to the Director of Public Instruction, Punjab, for information and guidance, and be circulated for information to all Commissioners, Heads of Departments and Deputy Commissioners.

By order of the Hon'ble the Lieutenant-Governor,

H. C. FANSHAWE,

Offg. Chief Secretary to Government, Punjab.

Copy of *confidential* letter from J. SIME, Esquire, Director of Public Instruction, Punjab, addressed to the Inspectors of Schools and Principals of Colleges, in August 1893.

IN connection with the Congress movement now in progress in the Province, I shall be obliged by your giving the officers under you clearly to understand that, as the movement is a political one, it is their duty, as servants of the State, to refrain from taking any part in it either *for* or *against*.

With regard to students and school-boys, who are very prone to join in such movements, a prohibition is not possible, and would, most likely, have the opposite of the desired result; but it is hoped that the silent example of the Professors and Masters will have the effect of checking in the Punjab what has done so much harm to the schools in other Provinces.

The 16th August 1893.

No. 904.—*Examination.*—In accordance with Rule 12 of the Rules for the appointment by competition of Extra Assistant Commissioners in the Punjab, published with the Notification of the Punjab Government, No. 804 S., dated the 25th of July 1885, it is hereby notified that two appointments are expected to become available for award by competition at the next examination which will be held at Lahore on Monday, the 30th of October 1893, and following days.

2. The successful candidates, if they have not served in a Settlement or as Tahsíldár, will, after their examination, be required to serve for 12 months in a Settlement, and will ordinarily be so employed for such period on a salary of Rs. 100 a month. Subject to this rule the successful candidates will be appointed on probation to the post of Extra Assistant Commissioner when vacancies become available.

3. It is further notified that the admission fee levied from candidates under Rule 20 of the Rules published with *Punjab Government Gazette* Notification No. 804 S., dated the 25th of July 1885, has been raised from Rs. 20 to Rs. 30.

4. With reference to the memorandum annexed to Table C of the Rules published with the above-mentioned Notification, candidates are informed that they will be examined

in the Punjab Tenancy and Land Revenue Acts, XVI and XVII of 1887. No questions will be set from "Barkley's Directions" which will clash with the new Acts.

Copies of the pamphlet (English and Vernacular) containing extracts from "Powell's Manual of the Land Revenue Systems of British India" can be purchased from Messrs. E. Gillon & Co., Limited, Agents for the sale of Government Publications, Lahore.

RESOLUTION.

THE usual statement showing the mortality caused by wild animals and venomous snakes during the year 1892, and particulars of the measures taken during the year for the destruction of such animals and snakes, is appended to this Resolution.

2. The loss of human life caused by wild animals during 1892 is compared below with that reported during 1891 :—

Province.	No. of persons killed during : 1891.	1892.
Madras	229 (*a*)	316
Bombay	80	48
Bengal	1,584	1,664
North-Western Provinces and Oudh	236	233
Punjab	65	56
Central Provinces	310	317
Burma	121	85
Assam	200	209
Coorg	3	1
Hyderabad Assigned Districts	29	31
Ajmere and Merwara	4	3
TOTAL ...	2,861	2,963

The figures shown under 1891 differ slightly from those entered in the Resolution of the Government of India dated the 10th November 1892, corrections having been

(*a*) Revised figure furnished by the Madras Government.

reported in the figures for the Madras Presidency. The Provinces in which the loss of life from this cause was highest in proportion to population in 1892 were, as usual, Assam, the Central Provinces, and the Lower Provinces of Bengal; the mortality in these Provinces was one in 25,996, one in 34,020, and one in 42,877 of the population, respectively. The average result for all the Provinces taken together was a mortality of one person in every 74,677 of the population, as compared with one person to every 77,339 in 1891. This result differs but little from that reported ten years ago; the proportion in 1882 having been one person killed to every 76,303 of the population, and in 1881 one person to every 72,124.

3. Altogether 19,025 deaths of human beings from snake-bite were reported in 1892 as compared with 21,389 deaths in 1891. As in previous years, the largest number of deaths from this cause occured in Lower Bengal and the North-Western Provinces and Oudh, but in both these Provinces there was a considerable decrease in the mortality reported. The average result for all Provinces is that one person in every 11,630 of the population died from snake-bite during 1892 as compared with one person in every 10,345 in 1891. Details for each Province are shown in the following figures:—

Province.	No. of persons killed by snakes during: 1891.	1892.
Madras	1,433	1,455
Bombay	1,187	1,038
Bengal	10,031	9,120
North-Western Provinces and Oudh ...	6,013	4,566
Punjab	799	871
Central Provinces	1,099	999
Burma	418	543
Assam	209	208
Coorg	4	0
Hyderabad Assigned Districts	145	189
Ajmere and Merwara	51	35
Bangalore	0	1
TOTAL ...	21,389	19,025

It is satisfactory that the number of deaths from snake-bite in 1892 is considerably less than that reported in any of the last three years; in 1889 and in 1890 the number of deaths amounted to 22,480 and 21,361 respectively, but the average number of deaths a year between 1879 and 1888 was 19,686. The decrease in 1892 can, at present only, be regarded as accidental and temporary.

Altogether 81,668 head of cattle are reported to have been destroyed by wild beasts and snakes as compared with 70,822 in 1891; but these figures can hardly be accepted as having much value.

4. The number of wild beasts destroyed is returned at 15,988 as compared with 16,518 in 1891; the total amounts paid as rewards for their destruction was Rs. 1,07,974 against Rs. 1,06,478 in 1891. The number of snakes returned as destroyed in 1892 was 84,789 as compared with 85,159 in 1891; and the amount of the rewards paid for their destruction was Rs. 9,741 as compared with Rs. 9,163. The statistics of the destruction of snakes are not of much practical value; but it is noticed that in the Bombay Presidency the number of snakes killed in 1889 and 1890 was returned as over 400,000, while in 1892 the number, exclusive of 6,900 snakes killed in Sind without reward, has fallen to 292. Nearly all this decrease has taken place in the Satara and Ratnagiri Districts; and it is said to be due to the reduction from six pies to one pie of the reward for *phursas* in Satara, and in Ratnagiri to the grant of rewards for the destruction of snakes being restricted to the months immediately preceding the breeding season. These changes in the system of granting rewards have, it is explained, discouraged professional snake-catchers from going into the jungle and seeking out snakes, especially during the month immediately following the breeding season, when the young snakes are helpless and less poisonous and can be caught with comparatively little trouble.

5. The number of gun licenses issued free of cost for the purpose of destroying wild animals remained about the same as in the previous year—69,310 as compared with 69,133. These figures, of course, only include licenses issued expressly for the purpose of destroying wild animals and protecting crops; they do not include the ordinary licenses, which are issued in large numbers on payment of a very small fee.

6. The measures which should be taken for reducing the lamentable mortality caused by wild beasts and snakes have been described at length in the Resolutions issued by the Government of India in the last three years; and there is nothing new to be said. As regards the prevention of mortality by wild beasts, the measures recommended by the Government of India, briefly stated, are that all possible facilities should be given for obtaining rewards for wild beasts killed, and that Police or Revenue officers in outlying parts of a district should, where practicable, be empowered to grant rewards; that arrangements should be made for the timely offer of special rewards in the case of animals which have begun to take human life or even to make a practice of attacking cattle; that shooting parties should be encouraged and assisted by local officers, especially in the killing of animals which have shown destructive tendencies; and that licenses under the Arms Act should be freely given. The reports show that these recommendations have been kept in view by Local Governments and Administrations; and it does not appear practicable to take any further general measures for reducing the mortality from this cause. The number of human beings killed by wild beasts, moreover, though it appears large in the aggregate, is comparatively small relatively to population.

7. The mortality from snake-bite is far greater, and more difficult for the authorities to deal with. In the Resolution dated the 4th December 1890, the Government of India reviewed in detail the measures which had been adopted under this head in previous years, and came to the conclusion that no system of granting rewards for snakes was likely to have any appreciable effect in reducing the mortality from snake-bite. Much good can be done by removing the jungle and undergrowth which afford cover for snakes in village sites. This measure was recommended by the Government of India in 1890, and it is now engaging the attention of Local Governments and Administrations; in order that it may be carried out on a basis likely to be successful, it is desirable that those villages in particular should be singled out for the experiment in which deaths have actually occurred from snake-bite on the village site, and which contain any dense jungle and undergrowth which is readily removable. In last year's Resolution it was suggested that pictures of poisonous snakes should be procured and circulated in districts where such snakes are common, so that the people might learn to know and readily identify those snakes which are really poisonous. Applications have been received from several Local Governments in reply to this suggestion, and will be forwarded to the Secretary of State in due course, with a request that the pictures asked for may be struck off and sent out. The Government of India will also be ready to forward to the Secretary of State any applications which private gentlemen may desire to make for these pictures: such applications should be submitted through the Local Government. For the rest, the Government of India must leave it to the people themselves to take such steps as are practicable for destroying snakes and diminishing the mortality from snake-bite. Although the Government of India are not prepared to press Local Governments and Administrations to adopt any general system of giving rewards for snakes, it is possible that in some localities a system of rewards will be found to be efficacious. In such cases the Local Governments and Administrations have entire discretion to grant, or to authorize or encourage local bodies to grant, money rewards for snakes destroyed. In the Bombay Presidency it appears that the reduction of the amounts granted and other restrictions in the system of rewards have actually had the effect of discouraging people who formerly made a practice of destroying poisonous snakes; and it is for consideration whether the former system of rewards should not be reverted to, wholly or with modifications, in that Presidency or in any other localities in which similar changes may have been made with the same result. This and similar questions, however, can in all cases be best decided by the Local Governments and officers on the spot.

ORDER.—Ordered, that a copy of this Resolution be forwarded to Local Governments and Administrations for information and guidance, and that it be published in the *Gazette of India* for general information.

Also that a copy be communicated to the Foreign Department.

From Home Department, No. 2181, dated 9th November 1892.
From Home Department, No. 131, dated 30th January 1893.

OBSERVATIONS.—The maintenance of army reserves in India greatly increases the offensive and defensive power of the Indian Army, and binds to the British Government a proportion of the trained soldiers who pass through the Native Army annually, and who would otherwise pass from the army into the general population. By the system of maintaining reserves a number of men are kept by periodical training in a state of military efficiency, thereby ensuring an economical increase to the power of the army in India, by means of which regiments ordered on field service can obtain at once a supply of disciplined soldiers to fill vacancies caused by casualties and to take the places of invalids or others sent to the depôt.

2. It is important that every reasonable facility for attending their annual training should be given to reservists to admit of their being kept in a state of efficiency, and it was with a view to secure this object that the opinions of Local Governments and Administrations were called for as to the feasibility of the proposal that reservists in the employ of Government should, when called up for their annual month's training, be allowed to furnish a substitute if necessary.

3. In the reports received, it is generally agreed that the proposal is feasible. The Public Works Department, however, points out that reservists employed as pointsmen, signalmen, &c., on railways could not provide efficient substitutes, as these posts require technical knowledge, and reservists could not therefore be given such appointments, as they could not be spared from their posts in time of war. The Home Department also states that reservists cannot be employed as jail warders, as it would be impossible to find efficient substitutes, more especially because, in accordance with the recommendations of the Jail Committee, jail warders will, in future, be especially trained men.

RESOLUTION.—After a careful consideration of these reports, it has been decided that all reservists in Government employ, except as specified below, shall be given one month's leave annually to attend for training on condition that they shall pay for a substitute and themselves procure one if required to do so.

Men employed on railways in posts requiring technical knowledge or training, such as pointsmen, signalmen, and gang-men.
Forest guards.

2. This decision does not apply to reservists employed in posts of the kind marginally noted. Men employed in these capacities will only be given leave when convenient.

3. Reservists, except men of the garrison reserve, which is no longer called out for training, should not be permanently employed in any of the above capacities unless they agree to obtain their final discharge on being appointed to a permanent post of the kind specified

above. They will not be eligible for employment as jail warders at all, nor in any capacity on the staff of the North-Western or Oudh and Rohilkhand Railways, unless they obtain their final discharge on appointment.

ORDER.—Ordered, that a copy of this Resolution be communicated to all Local Governments, Administrations and Departments concerned, with a request that it may be published in all local Gazettes, and that all private employers of labor in districts under the control of the several Local Governments and Administrations be asked to conform, if possible, to the wishes of the Government of India as set forth above.

R. E. YOUNGHUSBAND,

Offg. Junior Secretary to Government, Punjab.

GENERAL.

The 4th November 1893.

No. 775.—Notification.—The following programme of the Winter Class of Technical Instruction to be held at the Babugarh Civil Veterinary Depôt Farm is published for information:—

CIVIL VETERINARY DEPARTMENT.

BABUGARH DEPOT.

Demonstration and Instruction Farm.

(4 miles from Hapur and 24 miles from Meerut Cantonment Railway Station.)

Programme of the Winter Class of Technical Instruction from 26th December 1893 to 2nd January 1894.

The following subjects will be considered and lectures will be delivered on—

(*a*)—STABLE MANAGEMENT.	By Vety.-Lieut.-Col. J. H. B. HALLEN and Vety.-Lieut. R. L. CRANFORD.
(*b*)—MANAGEMENT OF STUD STALLIONS, BROOD MARES AND YOUNG STOCK, AND THE SYSTEM OF UTILISING THEM FOR AGRICULTURAL PURPOSES	By Vety.-Major G. J. R. RAYMENT and Vety.-Lieut. F. B. DRAGE.
(*c*)—FORAGE CROP CULTIVATION. Lectures on Lucerne, Guinea grass, Impey, Dúb, Carrots, Oats, Barley, &c., cultivation in the several fields. The cultivation is carried out, yielding good profits. (*d*)—IRRIGATION BY HORSES (horses and mares), MULE and DONKEY (male and female) POWER; and to breed from the horse and donkey mares and have profit by the young stock. The irrigation of the cultivated lands of the Civil Veterinary Department Depôt will be seen practically carried out by Horse and Donkey power only. No Bullocks are employed.	By Vety.-Major G. J. R. RAYMENT and Messrs. H. C. D'SILVA and I. VAZ, Vety. Overseers.

2. Lectures on the first two subjects will be given in the stables and paddocks, and those in connection with forage crop cultivation will be carried out in the fields on the Farm; thus practical *demonstration* on each subject will be afforded.

3. Intending visitors and students are informed that dâk gharries can be obtained at Meerut City to take native passengers to Babugarh. Six passengers in each gharry. Cost of the entire gharry (six fares) is about Rs. 6.

Dâk arrangements for European gentlemen can be made at Meerut Cantonment. Cost of entire gharry from Rs. 8 to Rs. 10.

4. The men can put up and find lodgings at Hapur or they can bring small tents to pitch and live in at No. 11 paddock, where most of the cultivation is being carried on.

5. At Babugarh Bazar they will be able to obtain their supplies for food.

6. Men desirous of receiving *practical instruction* in ploughing, ridging, harrowing, manuring, water-lifting, and the sowing and cultivating of crops may remain at the Civil Veterinary Department Depôt Farm at Babugarh until they prove themselves efficient in all branches of forage crop cultivation. Every student thus remaining for *practical instruction* will, in due course, be examined with regard to the several kinds of work carried out on the Farm, and, on his passing a practical examination in the several subjects he will receive a certificate on which will be recorded his merits as forage crop workman and cultivator.

No. $\frac{\text{35 Public}}{\text{1701—1718}}$.

Extract from the Proceedings of the Government of India in the Home Department (Public),—under date Simla, the 8th November 1893.

READ—

Home Department Circular letter No. 1—112—21, dated the 15th February 1889.

Also replies of Local Governments and Administrations to the above Circular.

RESOLUTION.

As there appeared to be no uniform practice in regard to the gazetting of appointments of uncovenanted officers, the Gov-

ernment of India took into consideration the question whether it was possible to prescribe any general principle for determining whether an appointment should be treated as gazetted or not, and the authority under whose orders it should be gazetted. With this object Local Governments and Administrations were asked in the Circular letter cited above for information as to the practice prevailing in the several Provinces in this respect, and whether the practice was based on any general principle. From the replies received from Local Governments it appears that, although no general principle has been prescribed to regulate the distinction between gazetted and non-gazetted appointments, the term "gazetted officer" is generally held to apply to an officer whose appointment is gazetted by Government and not by the Head of a Department.

2. After giving careful consideration to the subject, the Governor-General in Council is of opinion that the broad line of demarcation between gazetted and non-gazetted officers should be that which separates the Provincial from the Subordinate Service; and that all officers belonging to the Provincial Service (including Munsifs, except in the Punjab and the Central Provinces, where these officers are placed in the Subordinate Service) should be held to be gazetted officers within the meaning of the Civil Service Regulations; while members of the Subordinate Service should not come within that category, even if their appointments are published in the Gazette. His Excellency in Council accordingly directs that as a general rule, and except in very special cases, such as that of Munsifs in the Madras Presidency, who are gazetted by the High Court, all appointments which it is decided to include in the Provincial Service shall be gazetted by the Local Government, and shall be held to be gazetted offices within the meaning of the Civil Service Regulations; while those in the Subordinate Service shall, if gazetted at all, be gazetted by the Heads of Departments who have the power to make them under the orders of the Local Government. In Provinces where the powers delegated to Heads of Departments elsewhere in respect of the latter class of appointments are exercised by the Head of the Administration himself, appointments of officers in the Subordinate Service shall, if gazetted, be notified in that part of the Gazette in which notifications of Heads of Departments appear. Thus Tahsíldárs would be gazetted in the North-Western Provinces and Oudh by the Board of Revenue and in the Punjab by the Financial Commissioners, while Mamlatdárs would be gazetted in Bombay by the Commissioners. On the other hand, in Bengal and the Central Provinces, where the corresponding class of officers (Sub-Deputy Collectors and Tahsíldárs) are appointed by the Head of the Administration himself, the appointments, though gazetted under the orders of the Local Government, will be notified under a separate heading relating to the Subordinate Service, together with appointments made by Heads of Departments.

The case of officers serving in other Departments, such as Medical, Registration, Police or Jails, should be governed by the same rule; that is to say, where Government makes the appointment it should gazette, and only appointments so made should be recognized as gazetted appointments within the meaning of the Civil Service Regulations; in other cases Heads of Departments should gazette appointments of officers subordinate to them subject to the orders of the Local Government as to any limit which it may think it expedient to lay down.

3. The Governor-General in Council at the same time desires that it may be clearly understood that notifications investing officers with powers under different Acts, in order that the Courts may take judicial cognizance of them, do not constitute the persons invested with such powers "gazetted officers" within the meaning of the Civil Service Regulations.

4. It is the practice for the Heads of Imperial Departments named in the margin to issue notifications relating to officers serving under them in Part II of the *Gazette of India*. The orders contained in the present Resolution are not intended to take away these powers; nor do they render officers so gazetted non-gazetted officers.

1. Director-General of the Post Office.
2. Commissioner of Northern India, Salt Revenue Department.
3. Surveyor-General of India.
4. Director-General of the Geological Survey of India.
5. Inspector-General of Forests.
6. Director-General of Railways.
7. Director-General of Telegraphs.
8. Accountant-General, Public Works Department.
9. Surgeon-General with the Government of India.
10. Director-General of Military Works.

ORDER.—Ordered that a copy of this Resolution be forwarded to Local Governments and Administrations for information and guidance: that a copy be forwarded to all Departments of the Government of India for information; and that it be published in the *Gazette of India* for general information.

GENERAL.

Proceedings of the Hon'ble the Lieutenant-Governor of the Punjab in the Revenue (General) Department, No. 933, dated 18th December 1893.

READ—

From the Junior Secretary to the Financial Commissioner, letter No. 575, dated 10th September 1892, and letter No. 143, dated 1st March 1893.

Punjab Government letter No. 310, dated 17th April 1893.

Government of India, Home Department, letter No. $\frac{4 \text{ Pub.}}{202}$, dated 23rd February 1893.

Punjab Government letter No. 343, dated 27th April 1893.

REMARKS.—The Lieutenant-Governor has for some time past had under his consideration the subject of supplies for the camps of civil officers on tour, to which attention was directed in a letter of the Financial Commissioner in September last year. That subject has since undergone full discussion, and with the aid of the opinions recorded on it by the Financial Commissioner and the other officers consulted His Honor finds himself now in a position to pass orders on it.

2. It should be observed that the orders now being issued do not attempt to deal with those cases unfortunately too common all over India in which officials—at least those of the lower grades—are determined to obtain or are willing to accept supplies gratis while zamíndárs or others are only too anxious to meet their wishes in order to propitiate them or curry favour with them, and the matter is managed privately and independently of any official arrangements. It is indeed to be hoped that the present orders, by dispelling the last trace of the idea that any one is under any sort of obligation to furnish supplies gratuitously to officials, may make people less ready to submit to exactions in this respect than they have hitherto been ; but it is to be feared that, so long as there are men in the lower grades of the public service who want to get supplies for nothing and zamíndárs or others who are willing to give them supplies for nothing, the practice will prevail to some extent and can be put down only as other species of bribery can be put down, namely by dealing with the offending officials with the utmost possible severity in cases in which they can be detected.

3. The object of the present orders is not to deal with that matter, but to provide for those cases in which supplies are collected for the camps of civil officers openly and under official authority, and the first point to be noted in this connection is that we are here concerned only with certain sorts of supplies. Grain, ghi, condiments and other such articles are not collected under official authority, but are purchased on the march as elsewhere by those who consume them direct from a shopkeeper, who can be trusted to take care of himself. The question is one only as to articles such as firewood, charcoal, bhoosa, grass, wooden pegs, earthen vessels, eggs, milk, fowls, sheep and goats which cannot be so purchased, but have to be collected by some official agency before the camp arrives, and it may, to begin with, be observed that it s not always necessary to collect even these articles. Mr. Bruce, the Commissioner of the Deraját, states that as a rule he finds that they are procurable in sufficient quantities for those accompanying him on the march except at some out-of-the way places, and that there is no need to make any arrangements for their collection. When that is so, the proper course is obviously to make no such arrangements, but to leave those accompanying the camp to take their chance of finding what they want and buy it as they please, merely taking the precaution of making it clearly known to the persons selling the supplies that no one is entitled to get anything gratis and keeping as sharp a look out as possible to prevent anything being taken without payment.

4. When it is necessary to collect supplies of the description last mentioned the matter may be arranged in one or other of two ways, *viz.*,—

(1) by appointing for a particular place of encampment a thékadár or contractor who will undertake to collect and have ready for sale at that place, whenever any one encamps there, a sufficient quantity of supplies of that description ; or

(2) by collecting the amount of supplies required on each occasion through the tahsíl establishment, the zaildár, and the village officials.

5. The former plan is the preferable one when it is possible to find a *boná fide* contractor who is willing to take the contract as a commercial speculation for the profit it will yield him and to work it *without official aid of any description* ; but, except at places on main lines of road, it is usually impossible to find such a man, and if pressure is brought to bear on a Tahsíldár to make him find one, there is a danger that he may either force some one to undertake the office, as was said to have been done in one district through which the Lieutenant-Governor passed last year, or else set up a sham contractor on the understanding that he is to have the aid of the tahsíl establishment or the zaildárs or village officials in collecting the supplies. It need hardly be observed that a sham contractor who looks to official aid to work his contract is worse than none, inasmuch as he is simply an additional harpy let loose upon the people and a more dangerous one inasmuch as he stands less in fear of the displeasure of the higher authorities.

6. Assuming then that in many cases supplies of the description here in question will have to be collected through the Tahsíldár, the zaildárs and the village officials, it has to be considered how this can be best arranged.

In the letter addressed to the Financial Commissioner from this office inviting suggestions and opinions, it was observed that when supplies are collected for a camp there can be no difficulty about making such arrangements that any one taking any portion of those supplies would have to pay cash down for it, and it was said that the Lieutenant-Governor could not accept any excuse whatsoever for a failure in this respect, whether in the case of his own camp or of any other camp. The real difficulties, it was pointed out, arose about two matters, *viz.* :—

1*st*, devising means to ensure that the prices paid for the supplies by the purchasers in camp would reach the hands of the persons from whom those supplies had been collected ; and

2ndly, the disposal of any supplies collected for the camp and not purchased.

These difficulties arose only on the supposition that supplies were collected for the camp without prepayment, and various suggestions were made to meet them; but the general result of the opinions now received is that if supplies are collected without prepayment these difficulties must present themselves; that there is no practicable way of meeting them; and that the only safe plan is to lay it down as an absolute rule that where official arrangements are made for the collection of supplies for the camp of a civil officer, no supplies shall be taken from any person, nor shall any person be employed in the collection of supplies as, *e. g.*, in cutting wood or grass or carrying in supplies to the camp, without being paid cash down at once on the delivery out of his hands of any supplies he may furnish or on the completion of any work he may do.

The Lieutenant-Governor is accordingly pleased to direct that this shall be regarded as a fixed and absolute rule.

7. It has been suggested by some of the officers consulted that in some places where the zamíndárs have waste lands producing wood and grass in quantities practically unlimited and are entitled, in consideration of allowances which they are bound by custom to make in grain or otherwise to the kamíns or menials of their villages, to the services of those kamíns for cutting grass and wood, it would be more in accordance with the ideas of the people of the country and with the wishes of the zamíndárs themselves that the small amount of grass and wood needed for a local officer's camp should be accepted without payment. His Honor does not doubt that in many such cases the zamíndárs would prefer not to accept payment for grass and wood, and he can quite understand that the additional labour involved in cutting it would be viewed by the kamíns simply as a part of their daily work. The people of an agricultural village in many parts of this Province, and it is the same in some other parts of India, take a genuine pleasure in dispensing hospitality in their humble way to travellers who may have to rest at the village, and there is no doubt that in the cases referred to they would be proud to supply such grass and wood as might be required and would prefer not to take payment for it; but Sir Dennis Fitzpatrick's experience coincides with that of Mr. Fanshawe, late Officiating Deputy Commissioner of Lahore, who states that the people are not offended if payment is pressed upon them in a proper manner, and he agrees with Mr. Maconachie and others that it is not safe or proper to allow any exception to the rule in the case of such supplies, except perhaps in some cases in Native States where to offer money to the officials of the Chief would be impossible and to offer money to those who cut wood and grass for them might be open to objection.

8. In order to carry out the rule now laid down it will be necessary in the first place that in every case in which supplies are to be collected the Tahsíldár should advance to some persons or other the amount requisite to purchase the supplies and carry them in, and it is clearly best that those persons should not be the understrappers of the tahsíl or the patwári, but the zaildár or the lambardárs of the villages from which the supplies are to be collected. It is of course possible that the zaildár or lambardár would in some cases be inclined to take some of the supplies gratis or at low prices from the people and appropriate some of the money; but it may be hoped that when these orders have been some time in force and every one comes to understand that he is entitled to be paid cash down at once for whatever he gives, zaildárs and lambardárs will not find it easy to do this, and meantime Tahsíldárs should be held responsible for impressing strongly on those to whom they make advances the stringency of the orders requiring everything to be paid for and for warning them that any neglect of those orders will be dealt with in the severest manner.

9. As all supplies collected will have to be paid for before they are brought in, there will of course be a loss which must fall somewhere in the event of supplies collected not being purchased in the camp, and it will therefore be essential that careful estimates should be prepared of the amount of the supplies

here in question that will be needed by the camp at each halting place. The best way of doing this probably will be that every officer before going into camp should appoint some member of his office establishment to take charge of the matter of these supplies. The official so appointed would prepare a list of all persons accompanying the camp and of their requirements at each halting place, and those persons would be bound to take and pay for at each ground the supplies for which they had put down their names. Having made out his indent the official in charge of this work would forward it to the Tahsíldár and on arriving at each ground would take over in bulk all the supplies collected from the person deputed by the Tahsíldár to deliver them, and would then see that they were distributed to the persons for whom they were purchased, and the price in cash was at the same time realized from them.

10. The Lieutenant-Governor quite perceives that there would now and again be hitches in the working of this arrangement. It might, *e. g.*, happen that some one for whose supplies provision had been made in the camp estimate would have unexpectedly to leave the camp, and then his supplies would be thrown on the hands of the official making the arrangement, or again it might happen that the camp would be detained by heavy rain or otherwise for a day or two longer than had been arranged for at a particular ground, or that something might happen to necessitate a sudden change of route. These things, however, would not often happen. If the system is carefully worked and the collection of supplies is not started until 3 or 4 days or at the earliest a week before the camp is expected to arrive, which in the case of camps of the ordinary size would allow full time to get them in, there ought very rarely to be any such hitch except when a camp is detained by rain; but when such a hitch does arise the official managing the work would have to take the orders of the officer concerned as to the best way of meeting the difficulty. In some cases a small quantity of supplies left on hand would have to be sold and this might be at a loss; in others further supplies would have to be collected as best they could from the nearest villages as indeed has to be done at present when a camp is detained; in others supplies would have to be moved from one ground to another entailing some small charge on account of carriage. It has been suggested that the rates at which the supplies are sold to those accompanying the camp should be pitched sufficiently high to cover the extra expense that might be incurred in some of these cases, but seeing that some of those who consume the supplies are persons of very small means, His Honor does not think that this arrangement would be a fair one. He thinks the price of the supplies in camp should be fixed so as to cover only the cost of obtaining them in the villages, the cost of carrying them in to the camp and some small allowance for waste. Whatever small extra charges may be incurred owing to unavoidable accidents of the nature above referred to, should, the Lieutenant-Governor considers, be borne by Provincial Funds, and the Accountant-General will be requested to pass them on bills submitted by the officers concerned accompanied by a brief explanation of the circumstances which led to their being incurred.

11. As regards the rates to be paid in the villages for supplies or for labour in collecting or bringing in supplies, they should be liberal rates fixed by price-lists approved by the Deputy Commissioner and posted up outside the tahsíls, police stations or police outposts for the limits of which they are framed, and copies of them under the seal of the tahsíl should be supplied to every person employed to collect supplies and to the village officials concerned.

12. The rule as to cash payment laid down in paragraph 6 will be strictly observed in the camp of His Honor the Lieutenant-Governor as in other camps; but owing to the large numbers of persons accompanying that camp and to the fluctuations that are apt to take place in those numbers, the arrangements regarding the preparation of indents and the distribution of the supplies to those for whom they are collected will need some further consideration. This matter, however, can be dealt with by the Chief Secretary to Government in communication with His Honor's Private Secretary.

13. There is only one point more calling for orders. Mr. Thorburn, the Commissioner of Ráwalpindi, recommends among other things that the collection of chárpáis and quilts from private persons for the use of the camp should be prevented, and the Lieutenant-Governor entirely agrees with him. His Honor was not before aware that quilts were ever collected, but he had complaints made to him in one district last year of chárpáis being collected for the use of persons accompanying officers in camp and never being heard of again. It was said they had been used as firewood. Chárpáis of the sort referred to are worth only a few annas, but the loss of even that is a serious one to a poor man, and the Tahsíldárs must be held absolutely responsible for stopping the practice of "borrowing" things in this way from private owners.

14. The Lieutenant-Governor gathers from the present correspondence that most officers will welcome the issue of the present orders; and he feels sure that he may count upon the loyal co-operation of officers of all departments in carrying them out in such a way as will render them effective. The personal interest of officers is the one thing needful for the successful introduction of rules such as those now laid down; and if this interest is duly taken in them for a few years, they will afterwards continue to work successfully of themselves.

15. With a view to making known to all concerned the main provisions of these orders a proclamation in the form given below will be printed on some bright coloured paper of foolscap size with the Royal Arms at the head so as to attract attention, and copies will be furnished to all District Officers to be posted up at some conspicuous central place in every village, at all public offices and police stations.

16. Except as is noted in paragraph 12, it will rest with the Financial Commissioner to see that the above orders are carried out and to issue any supplementary orders that may be needed to give effect to them.

ORDER.—Ordered, that the above Resolution be published in the *Punjab Government Gazette*; also, that it be forwarded to the Senior Secretary to the Financial Commissioners and to all Commissioners, Heads of Departments and Deputy Commissioners.

By order of the Hon'ble the Lieutenant-Governor,

J. M DOUIE,

Offg. Revenue Secretary to Government, Punjab.

APPENDIX.

DRAFT PROCLAMATION.

To all Zamindárs, Shop-keepers and Kamíns in the villages of the Punjab.

WHEREAS a practice prevails by which servants of the Sarkár on tour sometimes get supplies gratis or employ people to cut wood or grass for them or carry in supplies for them without paying their wages: Be it known to you that His Honor the Lieutenant-Governor has absolutely forbidden this, and has directed that any servant of the Sarkár doing any such thing shall be severely dealt with. Whenever it is necessary to collect supplies for any Government servant going on tour the Tahsíldár will advance money to some one who will pay cash to any person delivering the supplies to him at the moment of delivery, and will pay wages for any work done in cutting wood or grass or carrying in supplies to a camp directly such work is done. Payment will be made at the rates entered in a nirikhnáma or table of rates with the seal of the tahsíl affixed, which will be produced at the time of payment. If any one calls upon you to give supplies for a servant of the Sarkár without being at once paid for them or to work without wages in cutting wood or grass for such servant or bringing in supplies for him, you should refuse to comply with his request. You need not fear his anger. This proclamation will be as a sanad for you, and the Sarkár will protect you.

Further, no person can be compelled to lend his chárpáis or razáis or other such things for the use of a Government servant on tour.

The 19th December 1893.

FOREST DEPARTMENT.

The 16th December 1893.

No. 663.—*Notification.*—The following Resolution of the Government of India in the Revenue and Agricultural Department, No. 28-F., dated the 30th of November 1893, containing rules for the entry into the Forest Department as Rangers of Native Non-Commissioned Officers of Her Majesty's Army, is published for general information:—

Circular No. 28-F.

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (*Forests*),—*dated Calcutta, the 30th November* 1893.

READ—

(i) Circular Resolution of the Home, Revenue and Agricultural Department, No. 25-F., dated 13th November 1880, promulgating rules for the employment, as Forest Rangers and Foresters, of Native Non-Commissioned Officers of Her Majesty's Army.

(ii) Circular Resolution of this Department, No 25-F., dated 13th October 1891, prescribing rules to regulate appointments and promotions in the Provincial Forest Service.

(iii) Letter from the Government of the North-Western Provinces and Oudh, No. 246-F., dated 20th March 1893.

(iv) Circular Resolution of this Department, No. 11-F., dated 28th June 1893, issuing rules to regulate the constitution of, admission to, and studies and discipline at, the Imperial Forest School, Dehra Dún.

RESOLUTION.

OBSERVATIONS.—In paragraph 3 of the Resolution first cited, it was prescribed that Conservators of Forests, in the selection of Native Non-Commissioned Officers, candidates for employment in the Forest Department, should be guided by the principles

laid down for the recruitment of Forest Rangers and Foresters generally. Subsequently, however, the conditions of service in the executive grades of the Department were materially altered. It was decided that a higher standard of education should be demanded in the case of candidates for employment in the service, and, accordingly, revised rules for admission into the Provincial Forest Services were issued in Circular No. 25-F., dated 13th October 1891. The Government of the North-Western Provinces and Oudh have now drawn attention to the fact that the revised rules are not in accord with those for the employment of Non-Commissioned Officers. Circular No. 11-F., dated 28th June 1893, superseding the Circular of 13th October 1891, has since been issued.

RESOLUTION.—The Governor-General in Council, in supersession of the orders dated 13th November 1880, is pleased to sanction the following rules for the entry into the Forest Department as Rangers of Native Non-Commissioned Officers of Her Majesty's Army:—

I.—Any such officer, who is recommended for the purpose by his Commanding Officer, may apply to a Conservator* of Forests in the Bengal Presidency, or to the Director of the Imperial Forest School at Dehra Dún, for permission to follow, at that institution, the course of instruction in the Upper or English class, with a view to secure, after successfully passing through the School and obtaining a Ranger's certificate, an appointment as Forest Ranger in one of the Provincial Forest Services.

* *Addresses of Conservators of Forests in the Bengal Presidency.*

- Bengal Circle, Darjeeling.
- Assam Circle, Shillong.
- N.-W. P. and Oudh—
  - School Circle, Dehra Dún.
  - Central Cirle, Naini Tal.
  - Oudh Circle, Naini Tal.
- Central Provinces—
  - Southern Circle, Nagpur.
  - Northern Circle, Jabalpur.
- Berar Circle, Amraoti.
- Punjab Circle, Lahore.
- Upper Burma—
  - Eastern Circle, Mandalay.
  - Western Circle, Mandalay.
- Lower Burma—
  - Pegu Circle, Rangoon.
  - Tenasserim Circle, Moulmein.

II.—The Forest Officer to whom application is made must be satisfied—

(*a*) that the candidate will not be more than 30 years of age when he enters the School;

(*b*) that he has been sufficiently well educated, especially in Mathematics and English, to enable him to follow the School course with advantage and to obtain a Ranger's certificate;

(*c*) that he is of good constitution and active habits, and possesses fair ability and powers of observation, as well as such physical qualifications as are required for a good Forest Officer.

III.—If the conditions in the preceding rule are satisfied and the candidate is accepted by a Local Government for an appointment in the Provincial Forest Service, he may be admitted to the School, and be allowed to receive the stipend admissible to private students under rule 12 (ix) of the rules appended to Circular No. 11-F., dated 28th June 1893. While at the School, with the exception that he need not attend drills, he will in all respects be subject to the rules appended to that Circular.

IV.—On obtaining a certificate at the conclusion of the School curriculum, the candidate will be eligible to be appointed as Ranger. On being so appointed, he will be subject, as regards future promotion, to the Regulations of the Forest Service for the time being. As regards other conditions of service, the candidate either shall, on obtaining his appointment to the Forest Department, take his discharge from the Army, and then 12 months of his period of instruction at the Forest School will count as service under article 388, rule 4, of the Civil Service Regulations; or he may serve in the Forest Department and be transferred to the Native Unattached List under the conditions in Army Regulations, India, Volume II, Part II, and in that case he will qualify for the special rates of pension admissible under Military regulations. (See Army Regulations, India, Volume I, Part II.)

V.—During the School course the candidate will be seconded in his corps, which he shall rejoin if he fails in obtaining a certificate.

2. These rules do not apply to the Presidencies of Madras and Bombay; but the Governor-General in Council recommends them to the consideration of the Governments of those Presidencies.

ORDER.—Ordered, that a copy of the above Resolution be forwarded, for information and guidance, to the Local Governments and Administrations noted in the margin, as well as to the Inspector-General of Forests; and for information to the Governments of Madras and Bombay, the Military Department, and the Finance Department.

They shall ordinarily reside on the premises provided by the Municipal Committee as a vaccine station within their respective circles, and shall in no case reside outside the limits of these circles.

Distinguishing badge to be worn by public vaccinator.

6. The distinguishing badge of a public vaccinator shall be a red cross on a white ground and shall be worn on the breast.

Fee chargeable by private vaccinators and the authority to which they are subject in the performance of their duties.

7. Persons licensed by the Local Government to act as private vaccinators shall in no case demand a higher fee than one rupee for a single operation, and shall perform their duties under the orders and subject to the general control of the Civil Surgeon.

Facilities for procuring vaccination of children at private houses.

8. Persons desirous of procuring the vaccination of their children at their own houses, or elsewhere than at the vaccination station, may apply for that purpose to the Superintendent of Vaccination of their circle, who shall thereupon depute an authorized vaccinator to comply with the request.

Grant and form of certificates of successful vaccination, unfitness for or of insusceptibility of vaccination.

9. Whenever it is ascertained that a child is unfit for vaccination, or is insusceptible of successful vaccination, a certificate shall be granted in the former case in Form A attached to these rules to the parent or guardian of such child by the vaccinator, and in the latter case in the Form B by the Superintendent of Vaccination by whom such child was examined. In like manner whenever it is ascertained that a child has been successfully vaccinated, a certificate shall be granted by the vaccinator to the parent or guardian of such child in the Form C attached to these rules.

Nature of lymph to be used.

10. The lymph to be used shall be pure lymph obtained on the fifth day taken from the udder or from the soft skin in the neighbourhood of the udder of a buffalo under the age of one year, which is free from contagious disease and has perfect full sized vesicles.

Supply of sufficient quantity of such lymph.

11. If the parent or guardian of a child produced for vaccination desires that human lymph may be used, the vaccinator shall comply, and the lymph shall be taken from a child, subject to its parent's or guardian's consent, that has two perfect vesicles left untouched on the arm to run their regular course. Not more than two children shall be vaccinated from each full sized vesicle opened for the purpose of extraction of lymph, and not more than 60 children from a single buffalo calf, or six children from a single child.

The age of the child.

12. Every child shall be vaccinated as soon as possible after attaining the age of three months, and when small-pox is prevalent, a healthy child shall be vaccinated before attaining the age of three months.

Register to be kept up by the Municipal Committee.

13. The following registers shall be kept up by the Municipal Committee:—

(a) A register showing the names of children born within the local area subject to these rules on and after the date of the application of Act XIII of 1880 to such area.

(b) A register showing the names of unprotected children born in the area aforesaid previous to the date of the application of Act XIII of 1880, and who were at that date under the age of 14 years if boys and of 8 years if girls.

(c) A register showing the names of unprotected boys and girls respectively under these ages brought within the local area aforesaid at any time after the application of Act XIII of 1880, and who have resided there for a month.

(d) A register showing the result of each vaccination or its postponement and the delivery of certificate if any.

Rules for the preparation of registers.

14. The preparation—

Of register (a) shall be effected from the register of births maintained in the Municipal Office.

Of register (b) from the information to be collected under the orders of the Secretary of the Municipal Committee by the Registrar of Births.

Of register (c) from information to be collected by the Registrar of Births from the Lambardárs or Chaudhrís of Mohallas.

Of register (d) from reports submitted by vaccinators for their respective circles as hereinafter prescribed.

15. Every public and private vaccinator employed within the local area to which these rules apply shall keep up the following registers, namely,—

DEPARTMENT OF FINANCE AND COMMERCE.

The 22nd December 1893.

No. 2138.—*Notification.*—The following is published for general information.

J. M. DOUIE,

Offg. Rev. Secy. to Govt., Punjab.

CEYLON GOVERNMENT 4 PER CENT. INSCRIBED STOCK.

Third Issue, Rs. 5,00,000.

Authorized by Ordinance No. 7 *of* 1892' "*An Ordinance to empower the Ceylon Government to raise Four Million Rupees for the Construction of Railways and other Public Works.*"

The Treasurer of Ceylon, on behalf of the Government, invites Tenders for the above amount of Stock, to be issued and inscribed under the provisions of "The Ceylon Inscribed Rupee Stock Ordinance, 1892."

The Loan is secured on the general revenue of the Colony, and the principal will be repayable at par on the 1st February, 1944, by a sinking fund of 1 per cent. per annum, to be formed under the management of the Auditor-General and Treasurer, who are appointed Trustees. The interest, at the rate of 4 per cent. per annum, will be payable half-yearly on the 4th February and 4th August in each year, for the half-year ended with the last day of the month next preceding, the first payment being due on the 4th August next, by dividend warrants, which, if desired, may be transmitted by post, either to the stockholders or other person, bank, or firm within the Colony. Principal and interest will be payable at the Treasury at Colombo.

If the price of the Stock be below par at the time when the contributions to the sinking fund are received, the Trustees are empowered to purchase therewith the Stock in the market, cancelling in the register the Stock so purchased.

The Stock will be transferable by agreement in writing, without charge, and free of stamp duty.

Tenders will be received at the Treasury at Colombo untill 1 P.M. on Monday, the 15th January, 1894, and will be opened in the presence of such of the applicants as may attend.

Tenders must be for *even thousands* of Stock.

The purchase money will be required as follows :—

Five per cent. on application, and the balance on or before the 1st February, 1894.

The first payment must accompany the Tender, and the subsequent payment is to be made at the Treasury not later than the date above mentioned.

The allotments will be made to the highest bidders, provided the rates offered are not below Rs. 1,000 in money for every Rs. 1,000 of Stock. In the event of the receipt of Tenders in excess of the amount to be allotted at or above the minimum price, the Tenders at the lowest price accepted will be subjected to a *pro rata* diminution.

If no allotment be made, the amount forwarded with the Tender will be returned in full, and if a portion only of the amount applied for be allotted, the surplus will be appropriated towards the payment of the second instalment.

Forms of Tender may be obtained, and copies of the Ordinance may be seen, on application at the Treasury.

MEDICAL AND SANITARY.

The 14th December 1893.

No. 596.—*Notification.*—The following Rules for the regulation of vaccine operations in the Municipality of Murree, made under Section 19 of Act XIII of 1880 by the Municipal Committee of Murree at a special meeting, have been confirmed by the Lieutenant-Governor and are published for general information. They will come into force six weeks from the date of the publication of this Notification :—

RULES.

Appointment of vaccine station.

1. A public vaccinator will be appointed at Murree. The Municipal Committee shall, from time to time, appoint a place as a public vaccine station, and shall cause to be affixed on the outside of such place, in a conspicuous position, a signboard, on which shall be printed, in letters easily legible, and in English and Urdu characters, the following inscriptions:—

Murree Municipal Vaccine Station.

Qualifications of public vaccinator.

2. No person shall be appointed a pnblic vaccinator unless he has obtained a certificate from the Sanitary Commissioner of the Punjab that he has duly qualified to perform vaccination as prescribed by Act XIII of 1880.

Authority to appoint, suspend and dismiss public vaccinators.

3. The appointment, suspension and dismissal of the public vaccinator employed within the limits of the Municipality shall rest with the Sanitary Commissioner, Punjab, subject to the approval of the Municipal Committee. Vaccinators will be employed only from 1st April to 31st October inclusive.

Time of attendance of public vaccinators and their residence.

4. The public vaccinator shall be bound to attend at the vaccine station, to which he may be attached by the Civil Surgeon, daily from 8 A. M. to 4 P. M., and shall reside in the Municipality.

Distinguishing badge to be worn by public vaccinator.

5. The distinguishing badge of a public vaccinaor shall be a red cross on a white ground and shall be worn on the breast.

Fee chargeable by private vaccinators and the authority to which they are subject.

6. Persons licensed by the Local Government to act as private vaccinators shall in no case demand a higher fee than one rupee for a single operation, and shall perform their duties under the orders and subject to the general control of the Civil Surgeon.

Facilities for procuring vaccination of children at private houses.

7. Persons desirous of procuring the vaccination of their children at their own houses may apply for that purpose to the Civil Surgeon of Murree, who shall thereupon depute an authorised vaccinator to comply with the request.

Grant and form of certificate of successful vaccination, unfitness for or of insusceptibility of vaccination.

8. Whenever it is ascertained that a child is unfit for vaccination or is insusceptible of successful vaccination, a certificate in Form A attached to these Rules shall be granted in the former case to the parent or guardian of such child by the vaccinator, and in the latter in the Form B by the Civil Surgeon of Murree. In like manner, whenever it is ascertained that a child has been successfully vaccinated, a certificate shall be granted by the vaccinator to the parent or guardian of such child in the Form C attached to these Rules.

Nature of lymph to be used.

9. The lymph to be used shall be pure lymph obtained on the 5th day, taken from the udder or from the soft skin in the neighbourhood of the udder of a buffalo under the age of one year which is free from contagious disease and has perfect full-sized vesicles.

Supply of a sufficient quantity of such lymph.

10. If the parent or guardian of a child produced for vaccination desires that human lymph may be used, the vaccinator shall comply, and the lymph shall be taken from a child, subject to its parent's or guardian's consent, that has two perfect vesicles left untouched on the arm to run their regular course. Not more than two children shall be vaccinated from each full-sized vesicle open for the purpose of extraction of lymph, and not more than 60 children from a single buffalo *calf*, or six children from a single child.

Re-vaccination and the age of the child.

11. *If the result of the* first vaccination is a failure, the child should be re-vaccinated. If this second operation also is not successful, it is needless to repeat it again. The age of the child should be between 3 months and 14 years, and if a girl between 3 months and 8 years.

Fee payable to public vaccinator for vaccinating a child outside his circle.

12. A fee of one rupee shall be payable to a public vaccinator who vaccinates a child at the request of the parent or guardian outside the limits of the Municipality.

Registers to be kept by the Municipal Committee,

13. The following registers shall be kept up by the Municipal Committee :—

(*a*) A register showing the names of children born within the local area subject to these rules on and after the date of the application of Act XIII of 1880 to such area.

(*b*) A register showing the names of unprotected children born in the area aforesaid previous to the date of the application of Act XIII of 1880, and who were at that date under the age of 14 years if boys and of 8 years if girls.

(*c*) A register showing the names of unprotected boys and girls respectively under these ages brought within the local area aforesaid at any time after the application of Act XIII of 1880 and who had resided there for a month.

(*d*) A register showing the result of each vaccination or its postponement and the delivery of certificates, if any.

Rules for the preparation of registers.

14. The preparation of Register (*a*) shall be effected from the Register of Births maintained in the Municipal Office; of Registers (*b*) and (*c*) from the information to be collected under the orders of the Secretary of the Municipal Committee; of Register (*d*) from the reports submitted by the vaccinator, as hereinafter prescribed.
